Independent Auditor's Report

To the Honorable Mayor and Members of the Village Council Village of Bald Head Island Bald Head Island, North Carolina 28461

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of the Village of Bald Head Island, North Carolina, as of and for the year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the Village of Bald Head Island's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Bald Head Island, North Carolina as of June 30, 2019, and the respective changes in financial position and cash flows, where appropriate, thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, the Local Government Employees' Retirement System's Schedules of the Proportionate Share of the Net Pension Liability and Contributions and the Law Enforcement Officers' Special Separation Allowance Schedules of the Changes in Total Pension Liability and the Total Pension Liability as a Percentage of Covered Payroll be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Bald Head Island's basic financial statements. The combining and individual nonmajor fund financial statements, budgetary schedules and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements, budgetary schedules and other schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, budgetary schedules and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Honorable Mayor and Members of the Village Council

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 22, 2019 on our consideration of the Village of Bald Head Island's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Village of Bald Head Island's internal control over financial reporting and compliance.

Management's Discussion and Analysis

The Village of Bald Head Island

Management's Discussion and Analysis

As management of the Village of Bald Head Island, North Carolina, we offer readers of the Village of Bald Head Island's financial statements this narrative overview and analysis of the financial activities of the Village of Bald Head Island for the fiscal year ended June 30, 2019. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Village's financial statements, which follow this narrative.

Financial Highlights

- The assets and deferred outflows of resources of the Village of Bald Head Island *exceeded* its liabilities and deferred inflows of resources at the close of the fiscal year by \$26,596,225 (*net position*).
- The government's total net position *decreased* by \$9,797,731 primarily due to the issuance of General Obligation Bonds.
- As of the close of the current fiscal year, the Village of Bald Head Island's governmental funds reported combined ending fund balances of \$8,011,771 a decrease of \$268,076 in comparison with the prior year. Approximately 59% percent of this total amount or \$4,693,913 is available for spending at the government's direction (assigned and unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$4,327,225 which is a decrease of \$2,081,132.
- The Village of Bald Head Island's total debt increased by \$9,307,098 during the current fiscal year. The decrease is primarily due to the issuance of General Obligation bonds for the beach stabilization project in October 2018.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Village of Bald Head Island's basic financial statements. The Village's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Village through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Village of Bald Head Island.

Management's Discussion and Analysis

As management of the Village of Bald Head Island, North Carolina, we offer readers of the Village of Bald Head Island's financial statements this narrative overview and analysis of the financial activities of the Village of Bald Head Island for the fiscal year ended June 30, 2019. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Village's financial statements, which follow this narrative.

Financial Highlights

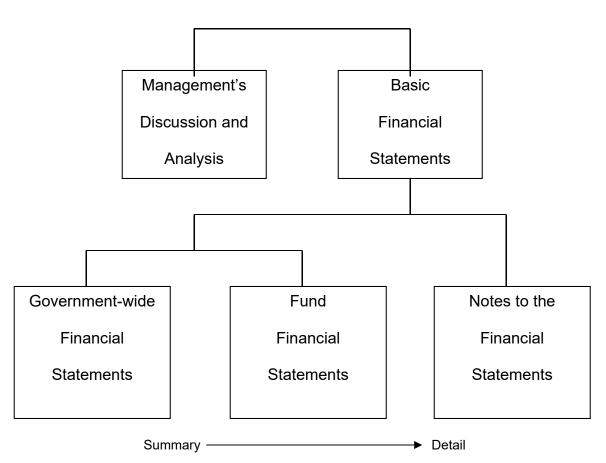

- The assets and deferred outflows of resources of the Village of Bald Head Island *exceeded* its liabilities and deferred inflows of resources at the close of the fiscal year by \$26,596,225 (*net position*).
- The government's total net position *decreased* by \$9,797,731 primarily due to the issuance of General Obligation Bonds.
- As of the close of the current fiscal year, the Village of Bald Head Island's governmental funds reported combined ending fund balances of \$8,011,771 a decrease of \$268,076 in comparison with the prior year. Approximately 59% percent of this total amount or \$4,693,913 is available for spending at the government's direction (assigned and unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$4,327,225 which is a decrease of \$2,081,132.
- The Village of Bald Head Island's total debt increased by \$9,307,098 during the current fiscal year. The decrease is primarily due to the issuance of General Obligation bonds for the beach stabilization project in October 2018.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Village of Bald Head Island's basic financial statements. The Village's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Village through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Village of Bald Head Island.

Required Components of Annual Financial Report

Figure 1

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Governmentwide Financial Statements**. They provide both short and long-term information about the Village's financial status.

The next statements (Exhibits 3 through 8) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Village's government. These statements provide more detail than the government-wide statements. There are three parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; and 3) the proprietary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Village's individual funds. Budgetary information required by the North Carolina General Statutes also can be found in this part of the statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Village's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Village's financial status as a whole.

The two government-wide statements report the Village's net position and how it has changed. Net position is the difference between the Village's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Village's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities; and 2) business-type activities. The governmental activities include most of the Village's basic services such as public safety, economic and physical development, and general administration. Property taxes, intergovernmental revenues and charges for services financially support most of these activities. The business-type activities are those that the Village charges customers to provide. This type includes the water and sewer services offered by the Village.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Village's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Bald Head Island like all other governmental entities in North Carolina, use fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Village's budget ordinance. All of the funds of the Village of Bald Head Island can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Village's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* that provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Village's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Village of Bald Head Island adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Village, the management of the Village, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Village to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Village complied with the budget ordinance and whether or not the Village succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Funds – The Village of Bald Head Island has one kind of proprietary fund, an enterprise fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Village of Bald Head Island uses the enterprise fund to account for its water and sewer activity. This fund is the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on Exhibit 9 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the Village of Bald Head Island's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found beginning on exhibit A-1 of this report.

Interdependence with Other Entities – The Village depends on financial resources flowing from, or associated with, both the Federal Government and the State of North Carolina. Because of this dependency, the Village is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State appropriations. It is also subject to changes in investment earnings and asset values associated with U.S. Treasury Securities because of actions by foreign government and other holders of publicly held U.S. Treasury Securities.

The Village of Bald Head Island's Net Position Figure 2

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Village of Bald Head Island exceeded liabilities and deferred inflows by \$26,596,225 as of June 30, 2019. The Village's net position *decreased* by \$9,797,737 for the fiscal year ended June 30, 2019. However, the largest portion \$17,268,973 (65%) reflects the Village's net investment in capital assets (e.g. land, buildings, machinery, and equipment). The Village of Bald Head Island uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village of Bald Head Island's net investment in capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Village of Bald Head Island's net position of \$3,290,946 represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$6,036,306 is unrestricted.

Village of Bald Head Island Changes in Net Position Figure 3

Governmental activities. Governmental activities decreased the Village's net position by \$10,567,347 primarily due to the beach and sand restoration project funded by the issuance of general obligation bonds.

Business-type activities. Business-type activities increased the Village's net position by \$769,610. Key elements of this increase are improvements to the wastewater system and insurance and grant reimbursements.

Financial Analysis of the Village's Funds

As noted earlier, the Village of Bald Head Island uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Village of Bald Head Island's governmental funds is to provide information on near-term inflows, outflows, and balances of useable resources. Such information is useful in assessing the Village of Bald Head Island's financing requirements.

The general fund is the chief operating fund of the Village of Bald Head Island. At the end of the current fiscal year, Village of Bald Head's fund balance available in the General Fund was \$4,693,913 while total fund balance reached \$7,036,115. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. The Village currently has an available fund balance of 35% of general fund expenditures, while total fund balance represents 53% of the same amount.

At June 30, 2019, the governmental funds of Village of Bald Head Island reported a combined fund balance of \$8,011,771 a 3% percent decrease over last year. This decrease is mainly due to the beach stabilization and sand replenishment project.

General Fund Budgetary Highlights: During the fiscal year, the Village revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as loan proceeds, federal and state grants; and 3) increases in appropriations that become necessary to maintain services.

Revenues were more than the budgeted amounts primarily due to greater than anticipated property tax collections, intergovernmental revenues and an increase in the daily parking permits collected from new contractors brought in to help with Hurricane Florence repairs. In addition, the Village received FEMA reimbursements and insurance claims for Village expenses incurred during Hurricane Florence. Expenditures were less than budgeted due to a priority being placed on fiscal responsibility by Village staff.

Proprietary Funds. The Village of Bald Head Island's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net position of the Water and Sewer Fund at the end of the fiscal year amounted to \$2,041,356. The total change in net position for the fund was an increase of \$769,610.

Capital Asset and Debt Administration

Capital Assets. The Village of Bald Head Island's investment in capital assets for its governmental and business-type activities as of June 30, 2019, totals \$40,321,742 (net of accumulated depreciation). These assets include buildings, roads and bridges, land, machinery and equipment, the water and sewer system, and vehicles.

Village of Bald Head Island's Capital Assets (Net of depreciation) Figure 4

Additional information on the Village's capital assets can be found in Note III.A.4 of the Basic Financial Statements.

Long-term Debt. As of June 30, 2019, the Village of Bald Head Island had total long-term debt of \$24,709,162. Of this, \$1,444,038 is an Installment Note with PNC secured by a Deed of Trust on the water and sewer system. Proceeds from this financing were used to refinance existing debt and to fund the refurbishing of the wastewater treatment plant. \$1,036,856 is a debt service for a general obligation bond privately placed with PNC Bank in 2014 with a rate of 1.95% for five years. Proceeds were used to fund the Terminal Groin, Marina Jetties project, and various Shoreline projects. \$13,200,000 is debt service for a general obligation bond privately placed for a general obligation bond privately placed with PNC Bank in 2018 with a rate of 3.61% for 7 years. \$3,750,000 and \$2,250,000 are Installment Notes with PNC secured by a Deed of Trust on the Public Safety Complex. \$671,875 is an installment note with PNC and \$750,000 is an installment note with Bald Head Island Limited, LLC for purchases of real property in the Marina Park.

North Carolina general statutes limit the amount of general obligation debt that a unit of government can issue to 8 percent of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for Village of Bald Head Island is \$89,247,176.

Additional information regarding the Village of Bald Head Island's long-term debt can be found in note III.B.5 of this report.

Economic Factors and Next Year's Budgets and Rates. In September 2018, Hurricane Florence arrived and left extensive damage on Bald Head Island. In September 2019, Hurricane Dorian arrived, and although it left considerably less damage than Florence, the Village needed to spend extensively on in-house efforts to remove debris. The Village is still in recovery status, although we have seen an influx of visitors and expect a healthy summer of tourism in 2020.

Budget Highlights for the Fiscal Year Ending June 30, 2020

Governmental Activities: Property taxes and accommodation taxes are expected to lead the increase in budgeted revenue, and we expect the accommodations tax base to bounce back to pre-Florence levels. Although the 2014 GO Bond will be paid off in FY20, the new debt from the beach stabilization and sand replenishment project will add an additional debt burden to the budget.

Business-type Activities. A rate study of the water and sewer systems was performed in November 2012. The rate study was approved by Village Council and recommends annual increases to keep up with inflation. There is a 2% annual rate increase in this budget year. It is expected that this increase will result in cash flows from operations sufficient to cover the cash flows necessary to provide water and sewer service to our customers and the related debt service payments for the existing loan to cover the capital improvements made for the waste water treatment plant. The utilities department is continuing with improvements that will result in re-use quality effluent from our waste water treatment facility. The process improvements and additions will improve the quality of the effluent. The Village continues to work closely with the Bald Head Island golf course to use all of the re-use quality effluent for irrigation. These upgrades to our discharge capacity will allow for a future expansion of the plant to levels which should fully meet build out demands for the Island.

Requests for Information

This report is designed to provide an overview of the Village's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be addressed to the Village of Bald Head Island, Office of the Finance Director, P.O. Box 3009, Bald Head Island, NC 28461. One can also call (910) 457-9700, visit our website www.villagebhi.org or send an email to pharan@villagebhi.org for more information.

VILLAGE OF BALD HEAD ISLAND RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES For the Year Ended June 30, 2019

EXHIBIT 4

Page 2 of 2

| Net change in fund balances - total governmental funds: | (286,076) |
|--|---|
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the statement of activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. | |
| Capital outlay expenditures that were capitalized Depreciation | 276,428 (730,496) |
| Governmental funds report the entire net sales price (proceeds) from sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the gain on the sale of the assets. Thus, the change in net position differs from the change in fund | |
| balance by the cost of the asset sold. | (10,717) |
| Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities | 234,212 |
| Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the statement of activities when earned. | |
| Change in unavailable revenue for tax revenues Increase in interest receivable on property taxes | 17,753 617 |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items. | |
| New long-term debt issued Principal payments on long-term debt | (13,200,000) 3,519,117 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds: | |
| Accrued interest not reflected on governmental funds Compensated absences Pension expense (LGERS Net pension expense (LEO) | (85,393) (29,997) (241,689) (31,106) |
| Change in net position of governmental activities | (10,567,347) |

VILLAGE OF BALD HEAD ISLAND, NORTH CAROLINA NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Village of Bald Head Island, North Carolina conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. <u>Reporting Entity</u>

The Village of Bald Head Island is a municipal corporation governed by an elected Mayor and a four-member Council.

B. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the Village. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the business-type activities of the Village and for each function of the Village's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Village's funds. Separate statements for each fund category—governmental and proprietary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies result form non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings.

The Village reports the following major governmental funds:

General Fund. The General Fund is the general operating fund of the Village. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, federal and State grants, and various other taxes and licenses. The primary expenditures are for administration, public safety, shoreline maintenance and sanitation services. Additionally, the Village has legally adopted a Stormwater Management Fund. Under GASB 54 guidance the Stormwater Management Fund is consolidated in the General Fund. The budgetary comparison for the Stormwater Management Fund has been included in the supplemental information.

Beach Stabilization Capital Project Fund. This fund is used to account for the construction of beach erosion prevention projects.

The Village reports the following non-major governmental funds:

Village Facilities Capital Projects Fund. This fund is used to account for the construction of an improved Village Administrative building and new Public Safety building. This fund was closed out on June 21, 2019.

Contractor Services and Public Works Redesign Capital Project Fund. This fund is used to account for the construction of improvements to the Contractor Services and Public Works facilities and campus.

The Village reports the following major enterprise fund:

Water and Sewer Fund. This fund is used to account for the Village's water and sewer operations. Additionally, the Village has legally adopted the Infiltration Pond Improvement Capital Project Fund. This fund is budgeted separately but consolidated into the Water and Sewer Fund for reporting purposes. The Infiltration Pond Capital Improvement Capital Project Fund was closed out on June 21, 2019. The budgetary comparison for this fund has been included in the supplemental information.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Village are maintained during the year using the modified accrual basis of accounting.

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Village gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village enterprise funds are charges to customers for sales and services. The Village also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method,

revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Village considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013 and for limited registrations plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the beer and wine tax, collected and held by the State at year end on behalf of the Village are recognized as revenue. Sales taxes are considered a shared revenue for the Village of Bald Head Island because the tax is levied by Brunswick County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes, are reported as general revenues rather than program revenues. Under the terms of grant agreements, the Village funds certain programs by a combination of specific cost-reimbursements grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Village's policy to first apply cost-reimbursement grant resources to such programs followed by categorical block grants, and then by general revenues.

D. Budgetary Data

The Village's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund and the Water and Sewer Fund. All annual appropriations lapse at the fiscal-year end. Project ordinances are adopted for all the Capital Projects Funds. The enterprise fund projects are consolidated with their respective operating fund for reporting purposes. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds and at the project level for the multi-year funds. All amendments must be approved by the governing Board and the Board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

1. Deposits and Investments

All deposits of the Village are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Village may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Village may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Village to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States, obligations of the State of North Carolina, bonds and notes of any North Carolina local government or public authority, obligations of certain non-guaranteed federal agencies, certain high quality issues of commercial paper and bankers' acceptances, and the North Carolina Capital Management Trust (NCCMT).

The Village's investments are reported at fair value. Non-participating interest earning contracts are accounted for at cost. The NCCMT – Government Portfolio, a SEC-registered (2a-7) external investment pool, is measured at fair value. The NCCMT – Term Portfolio is a bond fund, has no rating and is measured at fair value. As of June 30, 2019, the Term Portfolio has a duration of .11 years. Because the NCCMT Government and Term Portfolios have a weighted average maturity of less than 90 days, they are presented as an investment with a maturity of less than 6 months.

2. Cash and Cash Equivalents

The Village pools money from several funds to facilitate disbursement and investment and to maximize investment income and considers all cash and investments to be cash and cash equivalents.

3. Restricted Assets

Customer deposits held by the Village before any services are supplied are restricted to the service for which the deposit was collected. Money in the Stormwater Management Fund is classified as restricted assets because its use is restricted to the Stormwater Management Fund per NC G.S. Chapter 159, Article 3, Part 2. Cash and investments in the Beach Stabilization Capital Project Fund are classified as restricted because they represent unspent accommodation tax receipts.

Village of Bald Head Island Restricted Cash and Investments

| Governmental Activities General Fund | | | |
|---|-------------------------------------|-----------|---------|
| | Customer Deposits | \$ | 19,500 |
| | Stormwater Management - Cash | | 50,098 |
| | Stormwater Management - Investments | | 12,897 |
| | | | |
| Beach Stabilization Fu | nd | | |
| | Cash | \$ | 671,958 |
| | Investments | | 116,504 |
| | | | |
| Total governmental activiti | es | <u>\$</u> | 870,957 |
| Total Restricted Cash and I | nvestments | \$ | 870,957 |

4. Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Village levies ad valorem taxes on property other than motor vehicles on July 1st, the beginning of the fiscal year. The taxes are due on September 1st (lien date); however, interest does not accrue until the following January 6th. These taxes are based on the assessed values as of January 1, 2015.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

6. Inventory and Prepaid Items

The inventory of the Village is valued at cost (first-in, first-out), which approximates market. The inventory of the Village's general and enterprise fund consists of materials and supplies held for subsequent use. The cost of this inventory is expensed when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements and expensed as the items are used.

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization costs are as follows: land, \$10,000; buildings, improvements, substations, lines, and other plant and distribution systems, \$15,000; infrastructure, \$20,000; furniture and equipment, \$5,000; and vehicles, \$5,000. Donated capital assets received prior to June 30, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 30, 2015 are recorded at acquisition cost. All other purchased or constructed capital assets are recorded at cost or estimated historical cost. General infrastructure assets acquired prior to July 1, 2003, consisted mainly of road networks, and were not recorded, because the Village is a Phase III entity under GASB 34, and not required to report those assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| Asset Class | Estimated <u>Useful Lives</u> |
|-------------------------|----------------------------------|
| Infrastructure | 30 |
| Buildings | 50 |
| Improvements | 20-25 |
| Vehicles | 6-15 |
| Furniture and equipment | 3-10 |
| Computer equipment | 3 |
| Computer software | 5 |
| | |

8. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Village has one item that meets this criterion, pension deferrals for the 2019 fiscal year. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Village has several items that meet the criterion for this category – property taxes receivable, prepaid water and sewer tap fees and pension deferrals.

9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premiums or discount. Bond issuance costs, except for prepaid insurance costs, are expensed in the reporting period in which they are incurred. Prepaid insurance costs are expensed over the life of the debt.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Compensated Absences

The vacation policy of the Village provides for the accumulation of up to 240 hours (258 hours for public safety) earned vacation leave with such leave being fully vested when earned. At the beginning of each calendar year, leave balances in excess of 240 hours (or 258 hours for public safety) may be converted to the employee's sick leave benefit account for retirement purposes only. For the Village's government-wide and proprietary funds, an expense and a liability for compensated absences and the salary-related payments are recorded as the leave is earned. The Village has assumed a first-in, first-out method of using accumulated compensated time. The portion of that time that is estimated to be used in the next fiscal year has been designated as a current liability in the government-wide financial statements.

The Village's sick leave policy provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Village does not have any obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

11. Net Position/Fund Balances

Net Position

Net position in government-wide financial statements are classified as net investment in capital assets, restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Non-spendable Fund Balance- This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Inventories – portion of fund balance that is <u>not</u> an available resource because it represents the year-end balance of ending inventories, which are not spendable resources

Prepaid expenses- portion of fund balance that is <u>not</u> an available resource because it represents the year-end balance of ending prepaid expense, which are not spendable resources

Restricted Fund Balance- This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State Statute - North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". *Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget.* Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as nonspendable. Outstanding encumbrances are included within RSS. RSS is included as a component of Restricted Net position and Restricted fund balance on the face of the balance sheet.

Restricted for Economic Development – portion of fund balance restricted for economic development due to the source of funding for Beach Stabilization, Contractor Services and Public Works Redesign and Stormwater Management [G.S. 159, Article 3, Part 2].

Restricted for Inspections – portion of fund balance restricted for the inspections department by revenue source for the Development Services department.

Committed Fund Balance- portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of Village of Bald Head Island's governing body (highest level of decision making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned Fund Balance- the portion of fund balance that Village of Bald Head Island intends to use for specific purposes.

Subsequent year's expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed. The governing body approves the appropriation; however, the budget ordinance authorizes the budget officer to modify appropriations by resource or appropriation and report any amendments to the Village Council at the regular monthly meeting following the month in which such amendments are made.

Unassigned Fund Balance- the portion of fund balance that has not been restricted, committed, or assigned to a specific purpose or other funds.

The Village of Bald Head Island has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-Village funds, Village funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Village.

12. Defined Benefit Cost-Sharing Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Village of Bald Head Island's employer contributions are recognized when due and the Village of Bald Head Island has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Significant Violations of Finance-Related Legal and Contractual Provisions

Noncompliance with North Carolina General Statutes

There were no noted violations of State statutes or contractual obligations during the year ended June 30, 2019.

III. DETAIL NOTES ON ALL FUNDS

A. Assets

1. <u>Deposits</u>

All the deposits of the Village are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Village's agents in the units' name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Village, these deposits are considered to be held by the Village's agents in their name. The amount of the pledged collateral is based on an approved averaging method for noninterest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Village or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Village under the Pooling Method, the potential exists for under-collateralization. This risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Village has no formal policy regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Village complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2019, the Village's deposits had a carrying amount of \$6,167,084 and a bank balance of \$6,883,883. Of the bank balance, \$263,402 was covered by federal depository insurance and the remainder was covered by collateral held under the pooling method. The Village has no formal policy regarding custodial credit risk for deposits.

At June 30, 2019, the Village's petty cash fund totaled \$500.

2. Investments

At June 30, 2019, the Village's investment balances were as follows:

| | Valuation | | | |
|---|--------------------|------------|------------|---------|
| | Measurement | Book Value | | |
| Investment Type | Method | at 6/30/19 | Maturity | Rating |
| NC Capital Management Trust - Term Portfolio | Fair Value Level 1 | 1,581,792 | 0.11 years | Unrated |
| NC Capital Management Trust - Government Portfolio | Fair Value Level 1 | 5,861 | N/A | AAAm |
| Total | | 1,587,653 | | |

All investments are measured using the market approach: using prices and other relevant information generated by market transactions involving identical or comparable assets or a group of assets.

Level of fair value hierarchy; Level 1: Debt securities valued using directly observable, quoted prices (unadjusted) in active markets for identical assets.

Interest Rate Risk. The Village has no formal investment policy regarding interest rate risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Village's investment policy requires securities not be sold prior to maturity except to minimize loss of principal, improve the quality or yield, or liquidity needs.

Credit Risk. The Village has no formal policy regarding credit risk, but has internal management procedures that limits the Village's investments to the provisions of G.S. 159-30 and restricts the purchase of securities to the highest possible ratings whenever particular types of securities are rated. The Village's investment in the NC Capital Management Trust Government Portfolio carried a rating of AAAm by Standard & Poor's as of June 30, 2019. The Village's investment in the NC Capital Management Trust Term Portfolio is unrated. The Term Portfolio is authorized to invest in obligations of the U.S. government and agencies, and in high grade money market instruments as permitted under North Carolina General Statutes 159-30 as amended.

3. Receivables - Allowances for Doubtful Accounts

The amounts presented in the Balance Sheet and the Statement of Net Position for the year ended June 30, 2019 is net of the following allowance for doubtful accounts:

Enterprise Fund Total

| <u>2,815</u> |
|--------------|
| 2,815 |

4. Capital Assets

Primary Government

Capital asset activity for the Primary Government for the year ended June 30, 2019, was as follows:

| | Beginning Balances | Reclassi- fications | Increases | Decreases | Ending Balances |
|---|-----------------------|------------------------|-----------|-----------|--------------------|
| Governmental activities: | | | | | |
| Capital assets not being depreciated: | | | | | |

Constructions commitments

The government has no active construction projects as of June 30, 2019.

B. Liabilities

1. Pension Plan Obligation

a. Local Governmental Employees' Retirement System

Plan Description. The Village of Bald Head Island is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local government entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and the State Superintendent, who serves as ex-officio members. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454 or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at

any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Village of Bald Head Island employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Village of Bald Head Island's contractually required contribution rate for the year ended June 30, 2019, was 8.25% of compensation for law enforcement officers and 7.75% for general employees and firefighters, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Village of Bald Head Island were \$279,424 for the year ended June 30, 2019.

Refunds of Contributions – Village employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60-day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Village reported a liability of \$1,193,762 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017. The total pension liability was then rolled forward to the measurement date of June 30, 2018 utilizing update procedures incorporating the actuarial assumptions. The Village's proportion of the net pension asset was based on a projection of the Village's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2018, the Village's proportion was 0.05032%, which was a decrease of 0.00347% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the Village recognized pension expense of \$294,983. At June 30, 2019, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|--------------------------------------|-------------------------------------|
| Differences between actual and expected experience | 184,169 | 6,180 |
| Changes of assumptions | 316,778 | |
| Net difference between projected and actual earnings on pension plan investments | 163,868 | - |
| Changes in proportion and differences between Village contributions and proportionate share of contributions | | 63,597 |
| Village contributions subsequent to the measurement date | 279,424 | |
| Total | 944,239 | 69,777 |

\$279,424 reported as deferred outflows of resources related to pensions resulting from Board contributions subsequent to the measurement date will be recognized as an increase of the net pension asset in the year ended June 30, 2020. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

| 2019 2020 2021 2022 2023 | 294,178 190,492 22,250 88,118 |
|--------------------------------------|--|
| Thereafter | <u>-</u> |
| Total | 595,038 |

Actuarial Assumptions. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 3.0 percent |
|---------------------------|---|
| Salary Increases | 3.50 to 8.10 percent, including inflation and productivity factor |
| Investment rate of return | 7.00 percent, net of pension plan investment expense, including inflation |

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2017 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2018 are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected <u>Real Rate of Return</u> |
|----------------------|-------------------|--|
| Fixed Income | 29.0% | 1.4% |
| Global Equity | 42.0% | 5.3% |
| Real Estate | 8.0% | 4.3% |
| Alternatives | 8.0% | 8.9% |
| Credit | 7.0% | 6.0% |
| Inflation Protection | <u>6.0%</u> | 4.0% |
| Total | <u>100.0%</u> | |

The information above is based on 30 year expectations developed with the consulting actuary for the 2017 asset, liability and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Village's proportionate share of the net pension asset to changes in the discount rate. The following presents the Village's proportionate share of the net pension asset calculated using the discount rate of 7.00 percent, as well as what the Village's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate:

| | 1% | Discount | 1% |
|--|-----------|-----------|-----------|
| | Decrease | Rate | Increase |
| | (6.00%) | (7.00%) | (8.00%) |
| Village's proportionate share of the net pension liability (asset) | 2,867,521 | 1,199,762 | (204,856) |

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

b. Law Enforcement Officers Special Separation Allowance

(1) Plan Description

The Village of Bald Head Island administers a public employee retirement system (the "Separation Allowance"); a single-employer defined benefit pension plan that provides retirement benefits to the Village's qualified sworn law enforcement officers under the age of 62 who have completed at least 30 years of creditable service or have attained 55 years of age and have completed five or more years of creditable service. The Separation Allowance is equal to .85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

All full-time law enforcement officers of the Village are covered by the Separation Allowance. At December 31, 2017, the Separation Allowance's membership consisted of:

| Retirees receiving benefits | 1 |
|-----------------------------------|-----------|
| Terminated plan members entitled | |
| to but not yet receiving benefits | 0 |
| Active plan members | <u>19</u> |
| Total | 20 |

(2) Summary of Significant Accounting Policies

Basis of Accounting – The Village has chosen to fund the Separation Allowance on a pay as you go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

The Separation Allowance has no assets accumulated in a trust that meets the following criteria which are outlined in GASB Statement 73.

(3) Actuarial Assumptions

The entry age actuarial cost method was used in the December 31, 2017 valuation. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.5 percent |
|------------------|---|
| Salary increases | 3.50 to 7.35 percent, including inflation and productivity factor |
| Discount rate | 3.64 percent |

The discount rate is the weekly average of the Bond Buyer General Obligation 20 Year Municipal Bond Index as of December 31, 2017.

Mortality rates are based on the RP-2000 Mortality tables with adjustments for mortality improvements based on Scale AA.

(4) <u>Contributions</u>

The Village is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the amounts necessary to cover the benefits earned on a pay as you go basis through appropriations made in the General Fund operating budget. There were no contributions made by employees. The Village's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Administration costs of the Separation Allowance are financed through investment earnings. The Village paid \$14,191 as benefits came due for the reporting period.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resource and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Village reported a total pension liability of \$218,726. The total pension liability was measured as of December 31, 2018 based on a December 31, 2017 actuarial valuation. The total pension liability was then rolled forward to the measurement date of December 31, 2018 utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2019, the Village recognized pension expense of \$40,071.

| | Deferred Outflows of | Deferred Inflows of |
|---|-------------------------|------------------------|
| Differences between expected and actual expeirence | 35,547 | - |
| Changes of assumptions | 10,018 | 11,179 |
| Village benefit payments and administrative expense made subsequent to the measurement date | 7,096 | |
| Total | 52,661 | 11,179 |

\$7,096 reported as deferred outflows of resources related to pensions resulting from benefit payments made and administrative expenses incurred subsequent to the measurement date will be recognized as a decrease of the total pension liability in the year ended June 30, 2020. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

| 2020 2021 2022 2023 | 8,479 8,479 8,479 7,222 |
|------------------------------|----------------------------------|
| 2024 | 1,727 |
| Thereafter | <u> </u> |
| | 34,386 |

Sensitivity of the Village's total pension liability to changes in the discount rate. The following presents the Village's total pension liability calculated using the discount rate of 3.64 percent, as well as what the Village's total pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.64 percent) or 1-percentage point higher (4.64 percent) than the current rate:

| | 1% Decrease | Discount Rate | 1% Increase |
|-------------------------|-------------|---------------|-------------|
| | (2.64%) | (3.64%) | (4.64%) |
| Total pension Liability | 243,024 | 218,726 | 196,984 |

Schedule of Changes in Total Pension Liability Law Enforcement Officers' Special Separation Allowance

| Beginning balance Service cost Interest on the total pension liability | 187,620 25,848 5,744 |
|--|----------------------------|
| Changes of benefit terms | - |
| Differences between expected and actual experience in the | |
| measurement of the total pension liability | 22,542 |
| Changes of assumptions or other inputs | (11,330) |
| Benefit payments | (11,698) |
| Other charges | - |
| Ending balance of the total pension liability | 218,726 |

The plan currently uses mortality tables that vary by age, and health status (i. e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U. S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2017 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

c. Supplemental Retirement Income Plan

Plan Description – The Village contributes to the Supplemental Retirement Income Plan (Plan), a defined-contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The plan provides retirement benefits to law enforcement officers employed by the Village. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy – Article 12E of G.S. Chapter 143 requires the Village to contribute each month an amount equal to five percent of each officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan. The Village has elected to allow employees not engaged in law enforcement to participate in the Supplemental Retirement Income Plan. The Village made contributions of \$169,809 for the year ended June 30, 2019. No amounts were forfeited.

d. Other Employment Benefits

The Village has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Governmental Employees' Retirement System (Death Benefit Plan), a multipleemployer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest months salary in a row during the 24 months prior to the employee's death, but the benefit may not exceed \$50,000 or be less than \$25,000. Because all death benefit payments are made from the Death Benefit Plan and not by the Village, the Village does not determine the number of eligible participants. The Village has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit plan cannot be separated between the post-employment benefit amount and the other benefit amount. Contributions are determined as a percentage of monthly payroll based upon rates established annually by the State. Separate rates are set for employees not engaged in law enforcement and law enforcement officers. The Village considers these contributions to be immaterial.

2. Deferred Outflows and Inflows of Resources

The Village has several deferred outflows of resources. Deferred outflows of resources is comprised of the following:

| Contributions to pension plan in current fiscal | |
|---|---------------|
| year | \$ 279,424 |
| Benefit payments made and administrative | |
| expenses for LEOSSA | 7,096 |
| Differences between expected and actual | |
| experience | 219,716 |
| Changes of assumptions | 326,796 |
| Net difference between projected and actual | 163,868 |
| Total | \$ 996,900 |

Deferred inflows of resources at year-end is comprised of the following:

| | Statement of | General Fund | |
|---|--------------|---------------|--|
| | Net Position | Balance Sheet | |
| Taxes Receivable, less penalties (General Fund) | \$ | \$ 44,373 | |
| Uninstalled taps (Water & Sewer Fund) | 59,089 | i - | |
| Changes in assumptions | 11,179 | 1 | |
| Differences between expected and actual | | | |
| experience | 6,180 | i - | |
| Changes in proportion and differences between | | | |
| employer contributions and proportionate share of | | | |
| contributions | 63,597 | | |
| Total | \$ 140,045 | \$ 44,373 | |

3. Risk Management

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Village participates in two self-funded risk financing pools administered by the North Carolina League of Municipalities. Through these pools, the Village obtains general liability coverage of \$5 million per occurrence, auto liability coverage of \$5 million per occurrence, police professional and public officers liability coverage of \$5 million per occurrence with a \$5 million aggregate, property coverage up to the total insurance values of the property policy, and workers' compensation coverage up to statutory limits. The liability and property exposures are reinsured through commercial carriers for claims in excess of retentions as selected by the Board of Trustees each year. Excess insurance coverage is purchased by the Board of Trustees to protect against large workers' compensation claims that exceed certain dollar cost levels. Specific information on the limits of the reinsurance and excess loss policies purchased by the Board of Trustees can be obtained by contacting the Risk Management Services Department of the NC League of Municipalities. The pools are audited annually by certified public accountants, and the audited financial statements are available to the Village upon request.

The Village carries commercial coverage for health insurance and all other risks of loss. There have been no significant reductions in insurance coverage in the prior year and settled claims have not exceeded coverage in any of the past three fiscal years.

The Village carries flood insurance through the National Flood Insurance Plan (NFIP). Because a portion of the Village is in an area of the State that has been mapped and designated an "AE" area (an area with at least a 1 percent annual chance of flooding) by the Federal Emergency Management Agency, the Village is eligible to purchase coverage of \$500,000 per structure through the NFIP.

In accordance with G.S. 159-29, the Village's employees that have access to \$100 or more at any given time of the Village's funds are performance bonded through a commercial surety bond. The finance officer is bonded for \$150,000 and the tax collector is bonded for \$50,000. The remaining employees that have access to funds are bonded under a blanket bond for employee dishonesty of \$10,000 per occurrence and for theft of money or securities of \$5,000 per occurrence.

4. Claims, Judgments and Contingent Liabilities

According to the Village attorney and Village management at June 30, 2019, the Village was not a defendant in any lawsuit whose outcome could affect the Village's ability to pay its obligations as they become due.

5. Long-Term Obligations

a. <u>Installment Notes Payable:</u> The Village has entered into installment purchase contracts to finance the acquisition and renovation of various land and facilities. The installment purchase contracts are outlined as follows:

General Fund

Installment purchase contract with PNC Bank, National Association for the Village's purchase of a real property lot on Edward Teach Wynd dated September 30, 2015, due in annual installments of \$331,667 plus 4.00% interest through September 2018.

Installment purchase contract with PNC Bank, National Association to refinance the current debt on Keelson Row real property dated November 21, 2017, due in quarterly installments of \$67,188 plus 2.60% interest through November 2021.

Installment purchase contract with PNC Bank, National Association for the construction of a new public safety building dated December 12, 2016 due in quarterly installments of \$125,000 plus 2.34% interest through December 2026.

Installment purchase contract with PNC Bank, National Association for additional construction on a new public safety building dated January 12, 2017, due in quarterly installments of \$75,000 plus 2.82% interest through December 2026.

Installment purchase contract with Bald Head Island Limited, LLC for the purchase of real property on Quartermaster Row dated December 12, 2017, due in annual installments of \$75,000, a balloon payment of \$550,000 plus 3.5% interest through December 2021.

Water and Sewer Fund

Installment purchase contract with PNC Bank, National Association to refinance the current debt on the water and sewer system and to fund additional improvements dated January 29, 2016, due in quarterly installments of \$210,503 including interest of 1.97% through January 2021.

Annual debt service payments of the installment purchases as of June 30, 2019, including \$704,150 of interest are as follows:

| | Governmental Activities | | Business Activit | | |
|------------------------|----------------------------|-----------------|---------------------|-----------|----------|
| Year Ending June 30 | Principal | <u>Interest</u> | | Principal | Interest |
| 2020 | 1,143,750 | 182,989 | | 819,578 | 22,435 |
| 2021 | 1,143,750 | 153,216 | | 624,460 | 6,170 |
| 2022 | 1,484,375 | 123,880 | | | |
| 2023 | 800,000 | 83,160 | | | |
| 2024 | 800,000 | 63,000 | | | |
| 2025-2027 | 2,000,000 | 69,300 | | | |
| Total | 7,371,875 | 675,545 | | 1,444,038 | 28,605 |

b. General Obligation Indebtedness

The Village's general obligation bonds serviced by the governmental funds were issued to finance the construction of a terminal groin and to finance the beach stabilization project. The general obligation bonds are being retired by ad valorem tax revenues generated from special tax districts and accommodation tax revenues and are reported as long-term debt in the General Fund. The general obligation bonds are collateralized by the full faith, credit and taxing power of the Village. Principal and interest requirements are appropriated when due. Bonds payable at June 30, 2019 are comprised of the following individual issues:

General Obligation Bonds

Serviced by the General Fund

\$13,200,000 Beach Improvement Bonds, series 2018 interest due in quarterly installments of \$614,182, including principal and interest at 3.61% through December 2025. \$8,500,000 Beach Improvement Bonds, series 2014 due in quarterly installments of \$522,222, including principal and interest at 1.95% through December 2019. 1,036,856

14,236,856

Annual debt service requirements to maturity for long-term obligations are as follows:

| | Governmental Activities | | |
|------------------------|-------------------------|------------------|--|
| Year Ending June 30 | <u>Principal</u> | <u>Interest</u> | |
| 2020 | 2,031,428 | 479,640 | |
| 2021 | 2,043,570 | 413,158 | |
| 2022 | 2,118,348 | 338,381 | |
| 2023 | 2,195,862 | 260,867 | |
| 2024 | 2,276,212 | 180,517 | |
| 2025-2026 | <u>3,571,436</u> | 113,657 | |
| Total | <u>14,236,856</u> | <u>1,786,220</u> | |

At June 30, 2019, the Village of Bald Head Island had a legal debt margin of \$89,247,176.

b. Changes in Long-Term Liabilities

Compensated absences for governmental activities have typically been liquidated in the General Fund.

| | | | | | Current |
|-------------------------------|---------------------|------------|------------------|----------------------|------------|
| | Balance | | | Balance | Portion |
| | <u>July 1, 2018</u> | Increases | <u>Decreases</u> | <u>June 30, 2019</u> | of Balance |
| Governmental activities: | | | | | |
| General obligation bond | 3,080,557 | 13,200,000 | 2,043,701 | 14,236,856 | 2,031,428 |
| Installment notes | 8,847,291 | - | 1,475,416 | 7,371,875 | 1,143,750 |

| Net pension liability (LGERS) | 701,369 | 311,773 | - | 1,013,142 | - |
| Net pension obligation (LEO) | 187,620 | 42,804 | 11,698 | 218,726 | |
| Governmental activity | | | | | |
| long-term liabilities | 12,989,887 | 13,714,500 | 3,660,741 | 23,043,646 | 3,310,178 |
| | | | | | |
| Business type activities: | | | | | |
| Installment note | 2,247,140 | - | 803,102 | 1,444,038 | 819,578 |
| Compensated absences | 44,644 | 39,718 | 43,504 | 40,858 | 35,000 |
| Net pension liability (LGERS) | 120,393 | 60,227 | | 180,620 | |
| Business-type activity | | | | | |
| long-term liabilities | 2,412,177 | 99,945 | 846,606 | 1,665,516 | 854,578 |

C. Interfund Balances and Activity

Transfers to/from other funds at June 30, 2019, consist of the following:

| From the General Fund to the Beach Stabilization Fund | 301,833 |
|---|---------|
| From the General Fund to the Contractor Services and Public Works | 204,580 |
| Campus Redesign Project Fund | |
| From the Village Facilities Improvement Fund to the General Fund | 204,580 |
| Total | 710,993 |

Transfers are used to move unrestricted revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts providing matching funds for various grant programs.

During the 2019 fiscal year, the Village made one transfer from the General Fund to the Beach Stabilization Capital Project Fund. The transfer was the annual transfer of Accommodation Tax revenue less the amount needed to fund the Shoreline Protection department and service the Marina Park debt.

The transfer from the General Fund to the Contractor Services and Public Works Campus Redesign Project Fund was a one-time transfer to setup funding for the new project.

The transfer from the Village Facilities Improvement Fund to the General Fund was a one-time transfer to close out the project.

D. Net Investment in Capital Assets

| | Governmental | Business-type |
|---------------------------------|-------------------|-------------------|
| Capital assets | 28,725,392 | 11,596,350 |
| Less: long-term debt | <u>21,608,731</u> | 1,444,038 |
| Net investment in capital asset | 7,116,661 | <u>10,152,312</u> |

E. Fund Balance

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation:

| Total fund balance- General Fund | <u>\$7,036,115</u> |
|----------------------------------|--------------------|
| Less: | |
| Prepaid expenses | 14,500 |
| Inventories | 12,412 |
| Stabilization by State Statute | 2,248,941 |
| Economic Development | 48,025 |
| Inspections | 18,324 |
| Subsequent Expenditures | 366,688 |
| Remaining Fund Balance | 4,327,225 |

The outstanding encumbrances are amounts needed to pay any commitments related to purchase orders and contracts that remain unperformed at year end.

| Encumbrances | General Fund | Beach Stabilization | Non-major Funds |
|--------------|--------------|---------------------|-----------------|
| | | Fund | |
| | \$10,668 | \$0 | \$0 |

IV. JOINTLY GOVERNED ORGANIZATIONS

Cape Fear Council of Governments

The Village, in conjunction with four counties and thirty two other municipalities established the Cape Fear Council of Governments (Council). The participating governments established the Council to coordinate various funding received from federal and State agencies. Each participating government appoints one member to the Council's governing board. The Village paid membership fees of \$332 to the Council during the fiscal year ended June 30, 2019.

Bald Head Island Transportation Authority

The Village in conjunction with the City of Southport and Brunswick County established the Bald Head Island Transportation Authority. The purpose of the authority is to provide reliable and safe public ferry transportation services in its service area. The Village of Bald Head Island appoints one member to the board of trustees. The Mayor and Mayor Pro Tempore of the Village of Bald Head Island serve as ex officio voting members of the board. One member of the board is appointed by the Governor of North Carolina, two members by the North Carolina General Assembly, three members by the Secretary of the North Carolina Department of Transportation, one member by Brunswick County and one member by the City of Southport. The Village is not obligated to furnish any funds to the Authority, but has made contributions in prior years. During the year ended June 30, 2019, the Village made contributions totaling \$150,000 to the Authority. The participating governments do not have any equity interest in the Authority, so no equity interest has been reflected in the financial statements at June 30, 2019. Complete financial information can be obtained from the Authority at 1029 N. Howe Street, Southport, NC 28461.

V. JOINT VENTURES

Firemen's Relief Fund

The Village and the members of the Village's Public Safety department each appoint two members to the five-member local board of trustees for the Firemen's Relief Fund. The State Insurance Commissioner appoints one additional member to the local board of trustees. The Firemen's Relief Fund is funded by a portion of the fire and lightening insurance premiums that insurers remit to the State. The State passes these moneys to the local board of the Firemen's Relief Fund. The funds are used to assist fire fighters in various ways. The Village obtains an ongoing financial benefit from the Fund for the on-behalf of payments for salaries and fringe benefits made to members of the Village's fire department by the board of trustees. During the fiscal year ended June 30, 2019, the Village reported no revenues and expenditures made through the Firemen's Relief Fund. The participating governments do not have any equity interest in the joint venture, so no equity has been reflected in the financial statements at June 30, 2019. The Firemen's Relief Fund does not issue separate audited financial statements. Instead, the local board of trustees files an annual financial report with the State Firemen's Association. This report can be obtained from the Association at 323 West Jones Street, Suite 401, Raleigh, North Carolina 27603.

VI. SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Federal and State Assisted Programs

The Village has received proceeds from federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

VII. SIGNIFICANT EFFECTS OF SUBSEQUENT EVENTS

Events occurring after June 30, 2019 were evaluated by management on November 22, 2019 to ensure that any subsequent events that met the criteria for recognition and/or disclosure in these financial statements have been included. There are no significant subsequent events needing disclosure.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

To the Honorable Mayor and the Members of Council Village of Bald Head Island Bald Head Island, North Carolina 28461

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Bald Head Island, North Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprises the Village of Bald Head Island's basic financial statements, and have issued our report thereon dated November 22, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Village of Bald Head Island's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village of Bald Head Island's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

Our consideration of internal control was for the limited described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider material weaknesses. However, material weaknesses may exist that have not been identified.

Village of Bald Head Island North Carolina

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village of Bald Head Island's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
