FINANCIAL SECTION

P.O. Box 1028, Kings Mountain, NC 28086 (704) 739-0771 • (704) 739-6122 Fax INDEPENDENT AUDITOR'S REPORT

To the Mayor and Members of the Town Council Town of Fallston, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Fallston, North Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Town of Fallston, North Carolina's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. The financial statements of Fallston Tourism Development Authority were not audited in accordance with Government Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town of Fallston, North Carolina, as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in note VI to the financial statements the Town adopted new accounting guidance, GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 11, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Fallston, North Carolina's basic financial statements. The combining and individual fund financial statements, budgetary schedules, and other schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal and State Awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and is also not a required part of the basic financial statements.

The combining and individual fund financial statements, budgetary schedules, other schedules, as well as the accompanying Schedule of Expenditures of Federal and State Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, budgetary schedules, other schedules, and the accompanying Schedule of Expenditures of Federal and State Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2019, on our consideration of the Town of Fallston, North Carolina's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Fallston, North Carolina's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Town of Fallston, we offer readers of the Town of Fallston's financial statements this narrative overview and analysis of the financial activities of the Town of Fallston for the fiscal year ended June 30, 2019. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

Financial Highlights

- The assets and deferred outflows of resources of the Town of Fallston exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$3,091,541 (*net position*).
- The government's total net position increased by \$270,762, primarily due to increases in the business-type activities net position.
- As of the close of the current fiscal year, the Town of Fallston's governmental fund reported ending fund balance of \$668,793 an increase of \$28,983 in comparison with the prior year. Approximately 67.4 percent of this total amount, or \$450,768, is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$450,768 or 646.88 percent of total general fund expenditures for the fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Town of Fallston's basic financial statements. The Town's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Fallston.

Required Components of Annual Financial Report

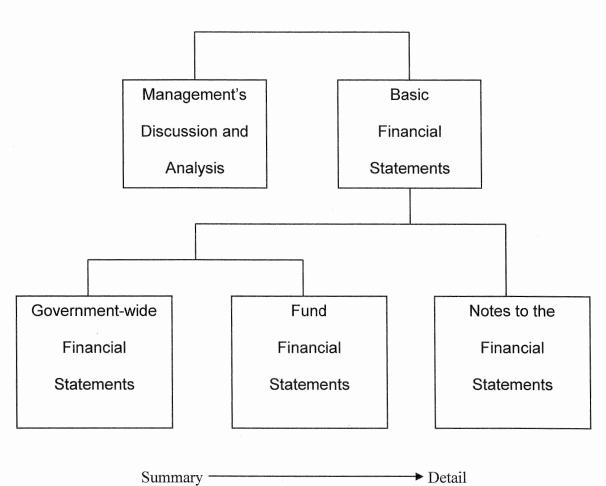

Figure 1

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Town's financial status.

The next statements (Exhibits 3 through 8) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are three parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; and 3) the proprietary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Town's individual funds. Budgetary information required by the General Statutes also can be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a privatesector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how it has changed. Net position is the difference between the Town's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities; and 2) business-type activities. The governmental activities include most of the Town's basic services such as public safety, parks and recreation, and general administration. Property taxes and state and federal grant funds finance most of these activities. The business-type activities are those that the Town charges customers to provide. These include the water and sewer services offered by the Town of Fallston.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Fallston, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance. All of the funds of Town of Fallston can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give

the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Fallston adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Funds – Town of Fallston has one proprietary fund. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. Town of Fallston uses an enterprise fund to account for its water and sewer activity. This fund is the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 22 of this report.

Unrestricted	457,387	439,716	237,910	224,047	695,297	663,763		
Total net position	\$ 733,062	\$ 710,136	\$ 2,358,479	\$ 2,110,643	\$ 3,091,541	\$ 2,820,779		

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Town of Fallston exceeded liabilities and deferred inflows by \$3,091,541 as of June 30, 2019. The Town's net position increased by \$270,762 for the fiscal year ended June 30, 2019. However, the largest portion (70.66%) reflects the Town's net investment in capital assets (e.g. land, buildings, machinery, and equipment). The Town of Fallston uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Fallston's net investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Town of Fallston's net position \$211,772 (6.85%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$695,297 is unrestricted.

Governmental activities. Governmental activities increased the Town's net position by \$22,926, thereby accounting for 8.45% of the total increase in the net position of the Town of Fallston.

Business-type activities: Business-type activities increased the Town of Fallston's net position by \$247,836, accounting for 91.55% of the total increase in the government's net position. Key elements of this decrease are as follows:

- Depreciation of the Town's distribution system.
- Receipt of grant funds from the USDA for water and sewer system improvements.

Financial Analysis of the Town's Funds

As noted earlier, the Town of Fallston uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town of Fallston's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town of Fallston's financing requirements.

The general fund is the chief operating fund of the Town of Fallston. At the end of the current fiscal year, Town of Fallston's fund balance available in the General Fund was \$450,768, while total fund balance reached \$668,793. The Governing Body of Town of Fallston has determined that the Town should maintain an available fund balance of 8% of general fund expenditures in case of unforeseen needs or opportunities, in addition to meeting the cash flow needs of the Town. The Town currently has an available fund balance of 646.88% of general fund expenditures, while total fund balance represents 937.75% of the same amount.

General Fund Budgetary Highlights: During the fiscal year, the Town did not revise the budget. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Proprietary Fund. The Town of Fallston's proprietary fund provides the same type of information found in the government-wide statements but in more detail. Unrestricted net position of the Water and Sewer Fund at the end of the fiscal year amounted to \$237,910. The total change in net position was an increase of \$247,836. This increase is mainly due to the receipt of \$419,901 grant from the USDA for system improvements and depreciation and repairs and maintenance throughout the Town's water and sewer system.

Capital Asset and Debt Administration

Capital assets. The Town of Fallston's investment in capital assets for its governmental and business–type activities as of June 30, 2019, totals \$4,041,472 (net of accumulated depreciation). These assets include land, machinery and equipment, park facilities, and distribution systems.

Town of Fallston's Capital Assets (net of depreciation)

Additional information on the Town's capital assets can be found in note III. A. 3. of the Basic Financial Statements.

Long-term Debt. As of June 30, 2019, the Town of Fallston had outstanding debt of \$1,857,000.

Town of Fallston's Outstanding Debt Figure 5

	Governmental _Activities_				Busines Activ			_Total_			
Direct Borrowing-USDA	\$ - \$ <u>2018</u>		\$ <u>2019</u> 1,857,000	\$ <u>2018</u> \$ -		2019 \$ 1,857,000	\$	2018			
Total Debt	\$	-	\$	-	\$ 1,857,000	\$	-	\$ 1,857,000	\$	-	

North Carolina general statutes limit the amount of general obligation debt that a unit of government can issue to 8% of the total assessed value of taxable property located within that government's boundaries less its outstanding obligations. The remaining legal debt margin for Town of Fallston is \$1,589,720.

Economic Factors and Next Year's Budgets and Rates

The following key economic indicators reflect the growth and prosperity of the Town.

- Property tax levy was increased due to a County-Wide reevaluation.
- Revenues in the Enterprise Fund should experience modest growth.

Budget Highlights for the Fiscal Year Ending June 30, 2020

Governmental Activities: Property taxes and revenues from sales tax are expected to remain consistent. Expenditures in the General Fund will remain steady for the coming year

Business – type Activities: The water and sewer rates in the Town will remain stable. General operating expenses will remain steady for the coming year.

The Town entered into an Inter-local agreement between the Town of Fallston and Cleveland County Water (CCW) for management of the local water system in conjunction with USDA guidelines and funding. USDA will provide funding, in the form of a \$1,857,000 loan and a \$1,392,000 grant, for a new interconnection to CCW. This will include 16,900 LF of 12 inch water transmission mains that will connect to the existing 100,000 gallon elevated storage tank and replacement of 10,000 LF of water distribution lines. The USDA loan will be repaid annually for a period of 40 years beginning June 1, 2020. CCW will lease the system from the Town of Fallston for the amount of the loan payment. Construction began in 2019 and will be completed in 2020.

Requests for Information

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to Director of Finance, Town of Fallston, P O Box 547, Fallston, NC 28042.

Town of Fallston Statement of Revenues, Expenditures, and Changes in Fund Balance Governmental Funds For the Year Ended June 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:	
Net changes in fund balances - total governmental funds	\$ 28,983
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period	(5,512)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Amount of donated assets Change in unavailable revenue for tax revenues	- (545)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	-
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Compensated absences	-
Rounding	
Total changes in net position of governmental activities	\$ 22,926

I. Summary of Significant Accounting Policies

The accounting policies of the Town of Fallston conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Town of Fallston is a municipal corporation that is governed by an elected mayor and a four-member council.

B. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category – *governmental and proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies result from non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings,

The Town reports the following major governmental fund:

General Fund. The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for public safety, street maintenance and construction, and sanitation services.

The Town reports the following major enterprise fund:

Water and Sewer Fund. This fund is used to account for the Town's water and sewer operations.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town enterprise fund is charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the

State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Sales taxes are considered a shared revenue for the Town because the tax is levied by Cleveland County and then remitted to and distributed by the State. Intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Town's policy to first apply costreimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. Budgetary Data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund, and the Enterprise Fund. All annual appropriations lapse at the fiscalyear end. Project ordinances are adopted for the Enterprise Fund Capital Projects Funds, which are consolidated with the operating funds for reporting purposes. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds and at the project level for the multi-year funds. All amendments must be approved by the governing board. During the year several amendments to the original budget were made. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

1. Deposits and Investments

All deposits of the Town are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Town may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances and the North Carolina Capital Management Trust (NCCMT).

The Town's investments with a maturity of more than one year at acquisition and non-money market investments are reported at fair value as determined by quoted market prices.

2. Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income and considers all cash and investments to be cash and cash equivalents.

3. <u>Restricted Assets</u>

Powell Bill funds are classified as restricted cash because it can be expended only for the purposes of maintaining, repairing, constructing, reconstructing or widening of local streets per G.S. 136-41.1 through 136-41.4. Customer deposits held by the Town before any services are supplied are restricted to the service for which the deposit was collected.

Town of Fallston Restricted Casl	1	
Governmental Activities General Fund	Streets	\$ 202,684
Total governmental activities		\$ 202,684
Business-Type Activities	Customer Deposits	\$ 2,900
Total Business-type Activities		\$ 2,900
Total Restricted Cash		\$ 205,584

4. Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Town levies ad valorem taxes on property other than motor vehicles on July 1, the beginning of the fiscal year. The taxes are due on September 1 (lien date); however, interest does not accrue until the following January 6. These taxes are based on the assessed values as of January 1, 2018. As allowed by State law, the Town has established a schedule of discounts that apply to taxes that are paid prior to the due date. In the Town's General Fund, ad valorem tax revenues are reported net of such discounts.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

6. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government – wide and fund financial statements and expensed as the items are used.

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. The minimum capitalization cost is \$5,000 for all assets. Donated capital assets received prior to June 15, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 15, 2015 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

In July 2003, the Town increased its capitalization policy for all assets from \$1,000 to \$5,000 to improve the efficiency in keeping the accounting records.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Estimated
Asset Class	Useful Lives
Infrastructure	20
Buildings	40
Furniture and equipment	7
Computer equipment	5
Plant and Distribution System	32-39
Wells	20

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has no items that meet this criterion. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has one item that meets this criterion- property taxes receivable.

9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method that approximates the effective interest rate method. Bonds payable are reported net of the applicable bond premiums or discount. Bond issuance costs, except for prepaid insurance costs, are expensed in the reporting period in which they are incurred. Prepaid insurance costs are expensed over the life of the debt.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether withheld from the actual debt proceeds received or not, are reported as debt service expenditures.

10. Net Position/Fund Balances

Net Position

Net position in government-wide and proprietary fund financial statements are classified as net investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Non-spendable Fund Balance-This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Prepaid Items-portion of fund balance that is <u>not</u> an available resource because it represents the year-end balance of prepaid items which are not a spendable resource.

Restricted Fund Balance-This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute – North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". *Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget.* Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as non-spendable. Outstanding encumbrances are included within RSS. RSS is included as a component of Restricted Net Position and Restricted fund balance on the face of the balance sheet.

Reserved for streets - Powell Bill - portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds.

Committed Fund Balance-portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of Town of Fallston's governing body (highest level of decision-making authority). Any changes or removal of specific purpose requires majority action by the governing body.

Assigned Fund Balance-portion of fund balance that Town of Fallston intends to use for specific purposes.

Subsequent year's expenditures - portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed. The governing body approves the appropriation; however the budget ordinance authorizes the Finance Officer to modify the appropriations by resource or appropriation within funds up to \$2,500.

Unassigned Fund Balance -the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Town of Fallston has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Director will use resources in the following hierarchy: loan proceeds, federal funds, State funds, local non-town funds, town funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Director has the authority to deviate from this policy if it is in the best interest of the Town.

The town of Fallston has also adopted a minimum fund balance policy for the general fund which instructs management to conduct the business of the Town in such a manner that available fund balance is at least equal to or greater than 8% of budgeted expenditures. Any portion of the general fund balance in excess of 8% of budgeted expenditures may be appropriated for one-time expenditures and may not be used for any purpose that would obligate the Town in a future budget.

II. Stewardship, Compliance, and Accountability

A. <u>Material Excess of Expenditures over Appropriations</u>

For the fiscal year ended June 30, 2019, the expenditures made in the Town's Water and Sewer Fund did not exceed the authorized appropriations made by the governing board for water and sewer activities as a whole. However sewer expenses exceeded budgeted amounts by \$10,169. This over-expenditure occurred because the Town's sewer system is old and rainwater is getting into the system and the Town is being charged for treating it. During the current year, the Town performed a smoke test to identify areas that need repair. Letters were sent to customers who had issues on their property informing them of the need to make repairs. Once these repairs are made the Town feels that expenses will be reduced. The Town will monitor the budget vs actual going forward and will make amendments as necessary.

III. Detail Notes on All Funds

A. Assets

1. Deposits

All the deposits of the Town are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's agents in these units' names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town these deposits are considered to be held by the Town's agents in their names. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town, or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each deposits under the Pooling Method. The Town has no policy regarding custodial risks for deposits.

At June 30, 2019, the Town's deposits had a carrying amount of \$828,595 and a bank balance of \$845,767. Of the bank balance, \$380,917 was covered by federal depository insurance and the remainder was covered by collateral held under the pooling method.

2. Receivables - Allowances for Doubtful Accounts

The amounts presented in the Balance Sheet and the Statement of Net Position is net of the following allowances for doubtful accounts:

Fund	6/3	30/2019
General Fund:		
Taxes Receivable	\$	418
Accounts receivable		-
Total		418
Enterprise Funds		6,693
Total	\$	7,111

3. Capital Assets

Primary Government

Capital asset activity for the Primary Government for the year ended June 30, 2019, was as follows:

		eginning						Ending

4. Deferred Outflows and Inflows of Resources

The balance in deferred inflows at year-end is composed of the following elements: 5. <u>Risk Management</u>

	Unava	Unavailable		
	Rev	enue		
Prepaid taxes (General Fund)	\$	-		
Taxes receivable (General Fund)		366		
Total	\$	366		

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town carries commercial insurance to cover property, general liability, and auto liability coverage of \$500,000 per occurrence, workmen's compensation coverage of \$100,000 per accident. Settled claims resulting from these risks have not exceeded coverage in any of the past three (3) fiscal years. The Town of Fallston is not in a flood plain and does not carry flood insurance.

In accordance with G.S. 159-29 the Town's employees that have access to \$100 or more at any given time of the Town's funds are performance bonded through a commercial surety bond. The finance officer is individually bonded for \$50,000. The remaining employees and Council are bonded under a blanket bond for \$250,000.

6. Claims, Judgments and Contingent Liabilities

At June 30, 2019, the Town and its attorney know of no known pending or threatened claims of litigation against the Town.

B. Long-Term Obligations

a. USDA Loan Payable

During the current year the Town received a direct borrowing from the USDA in the amount of \$1,857,000 for the Town's water system capital project. It is payable in 40 annual instalments of \$67,892 at 2% interest. The first payment is June 1, 2019 and the loan matures on June 1, 2059. It is secured by the underlying asset.

Annual debt service requirements to maturity for long-term obligations are as follows:

		I	Business-type Activities		Governmental Activitie				
	Year Ending								
	June 30]	Principal		Interest	F	Principal		Interest
	2020	\$	30,650	\$	37,242	\$	-	\$	-
	2021		31,365		36,527		-		-
	2022		31,992		35,900		-		-
	2023		32,632		35,260		-		-

	2025-2029		176,581		162,879		-		-
	2030-2034		194,966		144,494		-		-
	2035-2039		215,267		124,193		-		-
	2040-2044		237,629		101,831		-		-
	2045-2049		262,437		77,023		-		-
	2050-2054		289,765		49,695		-		-
	2055-2059		320,526		18,934		-		-
					-				-
Total		\$	1,857,000	\$	858,680	\$	-	\$	-

b. Changes in Long-Term Liabilities

Governmental activities:	Balance July 1, 2018		Increases		Decreases		Balance June 30, 2019		Current Portion of Balance	
Governmental activity long-term liabilities	\$	-	\$		\$	-	\$	-	\$	-
Business-type activities:										
Direct Borrowing - USDA	\$	-	\$	1,857,000	\$	-	\$	1,857,000	\$	30,650
Business-type activity long-term liabilities	\$	-	\$	1,857,000	\$	-	\$	1,857,000	\$ ·	30,650

The Town's legal debt margin is \$ 1,589,720.

C. Interfund Balances

The amount due to the Water and Sewer Fund from the General Fund is for a sales tax refund deposit that was due to the Water and Sewer Fund but deposited into the General Fund.

D. Fund Balance

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation:

Total fund balance-General Fund	\$668,793
Less;	
Stabilization by State Statute	9,088
Streets - Powell Bill	202,684
Fund Balance Appropriated in 2020 Budget	0
Prepaid Items	6,253
Working Capital / Fund Balance Policy	5,575
Remaining Fund Balance	445,193

The Town of Fallston has adopted a minimum fund balance policy for the General Fund which instructs management to conduct the business of the Town in such a manner that available fund balance is at least equal to or greater than 8% of budgeted expenditures.

IV. Summary Disclosure of Significant Contingencies

Federal and State Assisted Programs

The Town has received proceeds from State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

Town of Fallston, North Carolina Notes to the Financial Statements For the Fiscal Year Ended June 30, 2019

V. Contingencies and Commitments

The Town entered into an Inter-local agreement between the Town of Fallston and Cleveland County Water (CCW) for management of the local water system in conjunction with USDA guidelines and funding. USDA will provide funding, in the form of a \$1,857,000 loan and a \$1,392,000 grant, for a new interconnection to CCW. This will include 16,900 LF of 12 inch water transmission mains that will connect to the existing 100,000 gallon elevated storage tank and replacement of 10,000 LF of water distribution lines. The USDA loan portion was completed and closed on June 1, 2019 and the loan will be repaid annually for a period of 40 years beginning June 1, 2020. CCW will lease the system from the Town of Fallston for the amount of the loan payment. Construction began in 2019 and will be completed in fiscal year ending June 30, 2020. As of June 30, 2019 grant revenue was \$419,901. The remaining grant of \$972,099 will be received in fiscal year ending June 30, 2020.

VI. Change in Accounting Principles/Restatement

The Town implemented Governmental Accounting Standards Board (GASB) statement 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements,* in the fiscal year ending June 30, 2019. This standard provides guidance on note disclosures related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. Implementation of this standard did not have a material effect on the Town's financial statements.

Supplementary Statements

This section contains additional statements required by the Local Government Commission in North Carolina.

As requested by the USDA, governments who have borrowed from the USDA must report for their water and sewer systems separately. For the Town of Fallston all budgeting and accounting for water and sewer services are performed for the Water and Sewer Fund as a whole. As such, there are items that must be allocated as there is no way to separate them. The Town of Fallston uses an allocation of 60% water and 40% sewer. Items noted with an * have been allocated using these percentages. The allocation can not be audited, however the totals have been audited.

The notes to the financial statements are an integral part of this statement.

As requested by the USDA, governments who have borrowed from the USDA must report for their water and sewer systems separately. For the Town of Fallston all budgeting and accounting for water and sewer services are performed for the Water and Sewer Fund as a whole. As such, there are items that must be allocated as there is no way to separate them. The Town of Fallston uses an allocation of 60% water and 40% sewer. Items noted with an * have been allocated using these percentages. The allocation can not be audited, however the totals have been audited.

The notes to the financial statements are an integral part of this statement.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable Mayor and Members of the Town Council Town of Fallston Fallston, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, and each major fund, of Town of Fallston, North Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Town of Fallston, North Carolina's basic financial statements and have issued our report thereon dated November 30, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Fallston, North Carolina's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Fallston, North Carolina's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Fallston, North Carolina's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Fallston, North Carolina's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE AND THE STATE SINGLE AUDIT IMPLEMENTATION ACT

To the Board of Directors Town of Fallston Fallston, North Carolina

Report on Compliance for Each Major Federal program

We have audited Town of Fallston, North Carolina's compliance with the types of compliance requirements described in the OMB *Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of Town of Fallston, North Carolina's major federal programs for the year ended June 30, 2019. Town of Fallston, North Carolina's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with Federal and State statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Town of Fallston, North Carolina's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and the State Single Audit Implementation Act. Those standards, the Uniform Guidance, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Town of Fallston, North Carolina's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Town of Fallston, North Carolina's compliance.

Opinion on Each Major Federal program

In our opinion, Town of Fallston, North Carolina, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of Town of Fallston, North Carolina, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Town of Fallston, North Carolina's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Town of Fallston, North Carolina's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Powell Bill	-	38570	\$	7,800
Total assistance			\$	2,284,701

Notes to the Schedule of Expenditures of Federal and State Financial Awards:

1. Basis of Presentation

The accompanying schedule of expenditures of federal and State awards (SEFSA) includes the federal grant activity of Town of Fallston under the programs of the federal government and the State of North Carolina for the year ended June 30, 2019. The information in this SEFSA is presented in accordance with the requirements of title 2 US Code of Federal Regualtions Part 200, Uniform Administrative Requirements, Cost Principles, and Audit requirements for Federal Awards and the State Single Audit Implementation Act. Because the schedule presents only a selected portion of the Operations of Town of Fallston, North Carolina, it is not intended to and does not present the financial position, changes in net position, or cash flows of Town of Fallston, North Carolina

2. Summary of Significant Accounting Policies

Expenditures reported in the SEFSA are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Indirect Cost Rate

Town of Fallston, North Carolina has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

4. USDA Loans

The amount of federal awards expended for the year under CFDA number 10.766 includes loan advances expended during the fiscal year of \$1,857,000. The ending outstanding balance as of June 30, 2019 of the USDA Direct Loan: USDA Community Facilities Loan and Grant was \$1,857,000.
