# INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Village Council Foxfire Village, North Carolina

# **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund and the aggregate remaining fund information of Foxfire Village, North Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Foxfire Village's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund and the aggregate remaining fund information of Foxfire Village, North Carolina as of June 30, 2019, and the respective changes in financial position and cash flows, where appropriate, thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Page 1

# **Other Matters**

# **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, on pages 3 through 9, the Local Government Employees' Retirement System's Schedules of the Proportionate Share of the Net Pension Asset and Contributions, on pages 40 and 41, and the Law Enforcement Officers' Special Separation Allowance schedules of the Changes in Total Pension Liability and Total Pension Liability as a Percentage of Covered Payroll on pages 42 and 43, respectively, be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

## **Supplementary and Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of Foxfire Village, North Carolina. The individual fund statements, budgetary schedules, and other schedules are presented for purpose of additional analysis and are not a required part of the basic financial statements.

The individual fund statements, budgetary schedules, and other schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us. In our opinion, based on our audit, the procedures performed as described above, the individual fund statements, budgetary schedules, and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

# Management's Discussion and Analysis

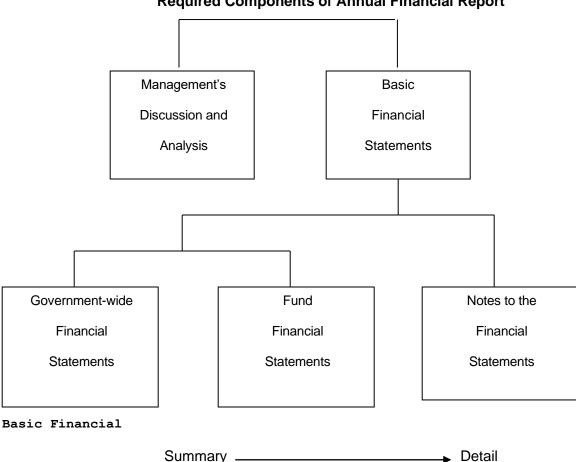

As management of Foxfire Village, we offer readers of Foxfire Village's financial statements this narrative overview and analysis of the financial activities of Foxfire Village for the fiscal year ended June 30, 2019. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Village's financial statements, which follow this narrative.

# Financial Highlights

- The assets and deferred outflows of resources of Foxfire Village exceeded its liabilities at the close of the fiscal year by \$3,909,489 (*net position*).
- The government's total net position decreased by \$413,083, primarily due to expenditures exceeding revenues.
- As of the close of the current fiscal year, Foxfire Village's governmental funds and activities reported ending fund balance of \$1,100,153, a decrease of \$44,544 in comparison with the prior year. Approximately 17.4 percent of this total amount or \$191,056 is available for spending at the government's discretion. In 2019, the Village Council adopted a resolution establishing a fund balance policy that the Village should maintain a minimum fund balance of 35 to 40 percent of budgeted general fund expenses. Based on budgeted expenses for FYE 2019-2020 of \$1,156,850, the required working capital balance is \$462,740. As outlined in the Fund Balance Policy, funds exceeding 40 percent of the next year's budgeted expenditures shall be transferred to the Capital Reserve fund, or another restricted fund, at the discretion of the Council.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$191,056, or 12.1 percent of total general fund expenditures for the fiscal year.
- Foxfire Village's total debt decreased by \$871,840 (84.2%) during the current fiscal year.

# **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to Foxfire Village's basic financial statements. The Village's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The basic financial statements present two different views of the Village through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of Foxfire Village.

# **Required Components of Annual Financial Report**

# **Basic Financial Statements**

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Governmentwide Financial Statements**. They provide both short and long-term information about the Village's financial status.

The next statements (Exhibits 3 through 9) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Village's government. These statements provide more detail than the government-wide statements. There are two parts to the Fund Financial Statements: 1) the governmental funds statements and 2) the budgetary comparison statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Village's individual funds. Budgetary information required by the General Statutes also can be found in this part of the statements.

# **Government-wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the Village's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Village's financial status as a whole.

The two government-wide statements report the Village's net position and how they have changed. Net position is the difference between the Village's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gage the Village's financial condition.

The government-wide statements describe governmental activities and include most of the Village's basic services such as public safety, streets, and general administration. Property taxes, sales and other taxes, and state funding finance most of these activities

The government-wide financial statements are on Exhibits 1 and 2 of this report.

# Fund Financial Statements

The fund financial statements provide a more detailed look at the Village's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Foxfire Village, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Village's budget ordinance. Foxfire Village has one fund category, the governmental funds.

**Governmental Funds** – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Village's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Village's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

Foxfire Village adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Village, the management of the Village, and the decisions of the Village Council about which services to provide and how to pay for them. It also authorizes Foxfire Village to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Village complied with the budget ordinance and whether or not the Village succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges. To account for the difference between the budgetary basis of accounting and the modified accrual basis, a reconciliation showing the differences in the reported activities is shown at the end of the budgetary statement.

**Proprietary Funds** – Foxfire Village has one proprietary fund. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. Foxfire Village uses an enterprise fund to account for its water activity. This fund is the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 20-38 of this report.

**Other Information** – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information.

# **Government-Wide Financial Analysis**

As year-to-year financial information is accumulated on a consistent basis, changes in net position may be observed and used to discuss the changing financial position of the Village as a whole.

# Foxfire Village's Net Position

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of Foxfire Village exceeded liabilities and deferred inflows by \$3,909,489 as of June 30, 2019. The Village's net position increased by \$413,083 for the fiscal year ended June 30, 2019. A large portion, 53.6%, reflects the Village's net investments in capital assets. Foxfire Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Foxfire Village's net investment in capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. The remaining balance of \$230,408 and \$1,582,110 is restricted and unrestricted net position, respectively.

# Foxfire Village's Changes in Net Position

**Governmental activities:** Governmental activities decreased the Village's overall net position by (\$444,307). The decrease in net position was the result of loss on sale of fixed assets of (\$728,522).

**Business-type activities:** The Business-type activities increased the Village's overall net position by \$31,224. The current year had no transfer to the General fund as in the prior year.

# Financial Analysis of the Village's Funds

As noted earlier, Foxfire Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds**. The focus of Foxfire Village's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing Foxfire Village's financing requirements. Specifically, unreserved fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of Foxfire Village. At the end of the current fiscal year, Foxfire Village's fund balance available in the General Fund was \$191,056, while total fund balance reached \$1,100,153. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 12.1 percent of total General Fund expenditures, while total fund balance represents 69.8 percent of that same amount. The Village Council has established by policy that the Village should maintain a minimum unassigned fund balance of 35-40% of budgeted general fund expenses.

**General Fund Budgetary Highlights**: During the fiscal year, the Village revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Revenues were more than the budgeted amounts primarily because of collection of delinquent property taxes and sales tax revenue. In addition, expenditures were held in check and the Village was able to comply with its budgetary requirements.

**Proprietary Funds**. Foxfire Village's proprietary fund provides the same type of information found in the government-wide statements but in more detail. Unrestricted net position of the Water Fund at the end of the fiscal year amounted to \$669,984. The total increase in net position was \$31,224 Other factors concerning the finances of these two funds have already been addressed in the discussion of Foxfire Village's business-type activities.

# **Capital Asset and Debt Administration**

**Capital assets.** Foxfire Village's investment in capital assets for its governmental and business–type activities as of June 30, 2019, totals \$2,260,676 (net of accumulated depreciation). These assets include buildings, land, equipment and vehicles.

# Financial Analysis of the Village's Funds (continued)

A police vehicle was the only asset addition during the year.

# **Foxfire Village's Capital Assets**

(Net of depreciation)

	Governmental <u>Activities</u>	Business <u>Activities</u>	Total
Land and construction in progress Buildings Improvements Plant and water distribution system Vehicles and motorized equipment Other equipment	\$ 420,515 774,882 79,058 - - 51,988	\$ 85,035 - - 772,808 - - 76,390	\$ 505,550 774,882 79,058 772,808 - 128,378
Total	<u>\$1,326,443</u>	<u>\$ 934,233</u>	<u>\$2,260,676</u>

Additional information on the Village's capital assets can be found on pages 26 and 27 of the Notes to the Basic Financial Statements.

# Economic Factors and Next Year's Budgets and Rates

The following key economic indicators reflect the growth and prosperity of Foxfire Village

- Increased residential construction occurred during the year. Applications for building permits increased. There was an increase in new home construction in fiscal year end June 30, 2019.
- A large golf course community planned for an area annexed by the Village has been delayed by the current local and national economy.

# Budget Highlights for the Fiscal Year Ending June 30, 2020

**Governmental Activities:** The Village has approved a \$1,156,850 General fund budget for fiscal year 2020. This is a decrease of 33.0% from the prior year. The property tax rate for fiscal year 2020 has remained at 38 cents per \$100 of assessed valuation.

# **Requests for Information**

This report is designed to provide an overview of the Village's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Finance Officer, Foxfire Village, 1 Town Hall Drive, Foxfire Village, North Carolina 27281.

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$	(44,544)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, the gain/loss on disposal of those assets would also differ between the two statements in an amount equal to the basis of the asset reported on the date of disposal		
Capital outlay		167,789
Asset disposal		(1,309,421)
Depreciation		(29,818)
Contributions to the pension plan in the current fiscal year are not included on the		
Statement of Activities		17,734
Benefit payments paid and administrative expense for the LEOSSA are not included on the Statement of Activities		-
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds		
Taxes including interest and penalties		1,769
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds		
Compensated absences		(2,262)
Pension expense		(28,100)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	_	782,546

# NOTES TO THE FINANCIAL STATEMENTS

These notes are intended to communicate information necessary for a fair presentation of financial position and results of operations that are not readily apparent from, or cannot be included in, the financial statement themselves. The notes supplement the financial statements, and are an integral part thereof, and are intended to be read in conjunction with the financial statements.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Foxfire Village, North Carolina and its discretely presented component unit conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

# A. Reporting Entity

Foxfire Village, North Carolina, is a municipal corporation which is governed by a five-member Council, mayor elected by the Council. As required by generally accepted accounting principles, these financial statements present the Village and its component unit, a legally-separate entity for which the Village is financially accountable. The discretely presented component unit presented below is reported in a separate column in the Village's financial statements in order to emphasize that it is legally separate from the Village.

# B. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government and its component unit. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the Village. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Village and for each function of the Village's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

*Fund Financial Statements*: The fund financial statements provide information about the Village's funds. Separate statements for each fund category – *governmental and proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The Village reports the following major governmental funds:

**General Fund.** The General Fund is the general operating fund of the Village. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for public safety, street maintenance and construction, and recreation services.

**Capital Project Fund.** This fund was used to account for the Village's Pool House construction and has been consolidated with the General Fund. The primary revenue sources are transfers from the General and Enterprise funds.

The Village reports the following major enterprise fund:

**Water Fund -** This fund is used to account for the Village's water operations. The Village maintains a water capital projects fund which is consolidated with the water fund in the basic financial statements.

## C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Village are maintained during the year using the modified accrual basis of accounting.

Government-wide and Proprietary and Fiduciary Fund Financial Statements. The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide, proprietary and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Village gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village enterprise funds are charges to customers for sales and services. The Village recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Village considers all revenues available if they are collected within 60 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as revenue because the amount is not susceptible to accrual. At June 30, taxes receivables are materially past due and are not considered to be an available resource to finance the operations of the current year. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. At June 30, taxes receivable for property other operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2018 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

## C. Measurement Focus and Basis of Accounting (Continued)

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the Village are recognized as revenue. Sales taxes are considered a shared revenue for Foxfire Village because the tax is levied by Moore County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. Under the terms of grant agreements, the Village funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Village's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then general revenues.

## D. Budgetary Data

The Village's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the general and enterprise funds. All annual appropriations lapse at fiscal year-end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the departmental level for all annually budgeted funds and at the object level for the multi-year funds. Amendments are required for any revisions that alter total expenditures of any fund. The governing Village Council must approve all amendments. During the year, several amendments to the original budget were necessary, the effects of which were not material. The budget ordinance must be adopted by July 1 of the fiscal year or the governing Village Council must adopt an interim budget that covers that time until the annual ordinance can be adopted.

## E. Statement of Cash Flows

All cash and investments of the enterprise funds are maintained in cash and investment pools. Funds are available on demand from the pools. Accordingly, all cash and investments are considered cash and cash equivalents in the statement of cash flows.

## F. Assets, Liabilities, Deferred Outflows / Inflows of Resources and Fund Equity

## Deposits and Investments

All deposits of the Village are made in Village Council-designated official depositories and are secured as required by state law [G.S. 159-31]. The Village may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Village may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Village to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain nonguaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances; and the North Carolina Capital Management Trust (NCCMT).

#### Cash and Cash Equivalents

The Village pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

# F. Assets, Liabilities, Deferred Outflows / Inflows of Resources and Fund Equity (Continued)

#### Ad Valorem Taxes Receivable

In accordance with state law [G.S. 105-347 and G.S. 159-13(a)], the Village levies ad valorem taxes on property other than motor vehicles on July 1, the beginning of the fiscal year. The taxes are due on September 1 (lien date); however, interest does not accrue until the following January 6. These taxes are based on the assessed values as of January 1, 2018.

#### Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated and is determined primarily by the age of the receivable and management's opinion of its collectability.

#### Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization costs are as follows: Buildings, improvements, furniture and equipment, and vehicles, \$5,000. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets received prior to June 15, 2016 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 15, 2016 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. General infrastructure capitalization cost is \$100,000. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated <u>Useful Lives</u>
Buildings	50
Infrastructure	30
Improvements	20
Vehicles	4
Furniture and equipment	10
Computer equipment	3

#### Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Village has two items that meet this criterion, assessments and contributions made to the pension plan in the 2019 fiscal year. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, Deferred Inflows of Resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Village has several items that meet the criterion for this category - prepaid taxes, taxes receivable and deferrals of pension expense that result from the implementation of GASB Statement 68.

## F. Assets, Liabilities, Deferred Outflows / Inflows of Resources and Fund Equity (Continued)

#### Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities or proprietary fund type statement of net position.

#### **Compensated Absences**

The vacation policies of the Village provide for the accumulation of up to forty (40) days earned vacation leave with such leave being fully vested when earned. For the Village's government-wide and proprietary fund, an expense and a liability for compensated absences and the salary-related payments are recorded as the leave is earned. The Village has assumed a first-in, first-out method of using accumulated compensated time. The portion of that time is estimated to be used in the next fiscal year has been designated as a current liability in the government-wide financial statements.

The Village's sick leave policies provide for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Village has no obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

#### Net Position/Fund Balances

#### Net Position

Net position in government-wide and proprietary fund financial statements are classified as net investment in capital assets; restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

## Fund Balances

In the governmental fund financial statements, fund balance is composed of three classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State Statute - portion of fund balance that is restricted by State Statute (G.S. 159-8(a)).

Restricted for Streets – Powell Bill portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds.

Committed fund balance – Capital improvements, police vehicle, K-9, Streets and Debt service portion of fund balance that can only be used for capital improvement purposes. Any change or removal of specific purpose requires majority action by the governing body (highest level of decision-making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

## F. Assets, Liabilities, Deferred Outflows / Inflows of Resources and Fund Equity (Continued)

Assigned fund balance – portion of fund balance that the Village of Foxfire intends to use for specific purposes.

Transportation-future debt – a portion of fund balance that is assigned for future debt payments in the transportation department.

Subsequent year's expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted. The governing body approves the appropriation.

Working capital/Fund Balance Policy – In 2019, the Village Council adopted a resolution establishing a fund balance policy that the Village should maintain a minimum fund balance of 35 to 40 percent of budgeted general fund expenses. As outlined in the Fund Balance Policy, funds exceeding 40 percent of the next year's budgeted expenditures shall be transferred to the Capital Reserve fund, or another restricted fund, at the discretion of the Council.

Unassigned fund balance – the portion of fund balance that has not been restricted or assigned for specific purposes or other funds.

The Village of Foxfire has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-Village funds, Village funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Village.

## G. Other

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

## H. Pensions

For purposes of measuring the net pension asset, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. Foxfire Village's employer contributions are recognized when due and Foxfire Village has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

## NOTE 2 - DETAIL NOTES ON ALL FUNDS

## A. Assets

#### **Deposits**

All the deposits of the Village are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Village's agents in these units' names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Village, these deposits are considered to be held by the Village's agents in their names. The amount of the pledged collateral is based on an approved averaging method for noninterest bearing deposits and the actual current balance for interest-bearing deposits.

## A. Assets (Continued)

Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Village or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Village under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows.

However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Village has no formal policy regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Village complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured. The Village has no formal policy regarding custodial credit risk for deposits.

At June 30, 2019, the Village's deposits had a carrying amount of \$1,838,659 and a bank balance of \$1,890,673. Of the bank balance, \$250,000 was covered by federal depository insurance and \$1,640,673 was covered by collateral held under the pooling method.

#### **Receivables**

#### Due from Other Governmental Agencies

At June 30, 2019, funds due from other governmental agencies consisted of the following:

Governmental Activities	General		terprise
	Fund	F	und
State:			
Local option sales tax	\$ 49,358	\$	-
Sales and gas tax refunds	6,740		1,081
Moore County	<u>5,152</u>		-
Total	\$ 61,250	\$	1,081

#### **Assessments**

Water system and Street assessments – In connection with construction of additional water lines and road improvements, the Village assessed property owners for the cost of making water available and road construction.

#### **Capital Assets**

Capital asset activity for the year ended June 30, 2019, was as follows:

	Beginning			Ending
Governmental activities	Balances	<u>Increases</u>	<u>Decreases</u>	Balances
Capital assets not being depreciated				
Land	\$1,729,936	\$-	\$1,309,421	\$ 420,515

## B. Liabilities

# 1. Pension Plan Obligations

## a. Local Governmental Employees' Retirement System

*Plan Description.* Foxfire Village is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

#### B. Liabilities (Continued)

#### 1. Pension Plan Obligations (Continued)

*Benefits Provided.* LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

*Contributions.* Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Foxfire Village employees are required to contribute 6% of their compensation. Employer contributions are actuarily determined and set annually by the LGERS Board of Trustees. The Foxfire Village's contractually required contribution rate for the year ended June 30, 2019, was 8.50% of compensation for law enforcement officers and 7.75% for general employees and firefighters, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from Foxfire Village were \$17,734 for the year ended June 30, 2019.

*Refunds of Contributions* – Village employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60-day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Village reported a liability of \$83,506 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2018. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2016. The total pension liability was then rolled forward to the measurement date of June 30, 2018 utilizing update procedures incorporating the actuarial assumptions. The Village's proportion of the net pension asset was based on a projection of the Village's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension

# FOXFIRE VILLAGE, NORTH CAROLINA NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2019

## NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

## B. Liabilities (Continued)

#### 1. Pension Plan Obligations (Continued)

plan of all participating LGERS employers, actuarially determined. At June 30, 2018, the Village's proportion was 0.00352%, which was an increase of (0.00031%) from its proportion measured as of June 30, 2016.

For the year ended June 30, 2019, the Village recognized pension expense of \$22,421. At June 30, 2019, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Defer	red Outflows	Deferred	d Inflows
	of Resources		of Resources	
Differences between expected and actual experience	\$	12,883	\$	432
Changes of assumptions		22,159		-
Net difference between projected and actual earnings on				
pension plan investments		11,463		-
Changes in proportion and differences between Village				
contributions and proportionate share of contributions		1,710		634
Village contributions subsequent to the measurement date		17,734		-
Total	\$	65,949	\$	1,066

\$17,734 reported as deferred outflows of resources related to pensions resulting from Village contributions subsequent to the measurement date will be recognized as an increase of the net pension asset in the year ended June 30, 2019. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

#### Year ended June 30:

2019	\$ 22,072
2020	14,963
2021	3,074
2022	7,041
2023	-
Thereafter	 -
Total	\$ 47,150

Actuarial Assumptions. The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	3.50 to 8.1 percent, including inflation and
	productivity factor
Investment rate of return	7.20 percent, net of pension plan investment
	expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2016 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

## B. Liabilities (Continued)

## 1. Pension Plan Obligations (Continued)

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate Alternatives	8.0% 8.0%	4.3% 8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	100%	

The information above is based on 30-year expectations developed with the consulting actuary for the 2016 asset liability and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Board's proportionate share of the net pension asset to changes in the discount rate. The following presents the Board's proportionate share of the net pension asset calculated using the discount rate of 7.00 percent,

#### B. Liabilities (Continued)

#### 1. Pension Plan Obligations (Continued)

as well as what the Board's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate:

	I	1% Decrease <u>(6.00%)</u>	C	Discount Rate (7.00%)	1% Increase <u>(8.00%)</u>
Foxfire Village's proportionate share of the net pension liability (asset)	\$	200,590	\$	83,506	\$ (14,330)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

b. Law Enforcement Officers Special Separation Allowance

#### Plan Description

Foxfire Village, NC administers a public employee retirement system (the Separation Allowance), a single-employer defined benefit pension plan that provides retirement benefits to the Village's qualified sworn law enforcement officers under the age of 62 who have completed at least 30 years of creditable service or have attained 55 years of age and have completed five or more years of creditable service. The Separation Allowance is equal to 0.85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

All full-time law enforcement officers of the Village are covered by the Separation Allowance. At December 31, 2017, the Separation Allowance's membership consisted of:

Retirees receiving benefits Terminated plan members entitled to but not	0
yet receiving benefits Active plan members	0 <u>3</u>
Total	<u>_3</u>

#### B. Liabilities (Continued)

- 1. Pension Plan Obligations (Continued)
- b. Law Enforcement Officers Special Separation Allowance (Continued)

#### Summary of Significant Accounting Policies

*Basis of Accounting.* The Village has chosen to fund the Separation Allowance on a pay as you go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. Benefits are recognized when due and payable in accordance with the terms of the plan.

The Separation Allowance has no assets accumulated in a trust that meets the criteria which are outlined in GASB Statement 73.

#### Actuarial Assumptions

The entry age actuarial cost method was used in the December 31, 2017 valuation. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent
Salary increases	3.50 to 7.35 percent, including inflation and productivity factor
Discount rate	3.64 percent

The discount rate is based on the yield of the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2018.

Mortality rates are based on the RP-2000 Mortality tables with adjustments for mortality improvements based on Scale AA.

#### **Contributions**

The Village is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the amounts necessary to cover the benefits earned on a pay as you go basis through appropriations made in the General Fund operating budget. There were no contributions made by employees. The Village's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Administration costs of the Separation Allowance are financed through investment earnings.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Village reported a total pension liability of \$57,004. The total pension liability was measured as of December 31, 2018 based on a December 31, 2017 actuarial valuation. The total pension liability was then rolled forward to the measurement date of December 31, 2018 utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2019, the Village recognized pension expense of \$6,296.

#### B. Liabilities (Continued)

#### c. Supplemental Retirement Income Plan for Law Enforcement Officers

*Plan Description.* The Village contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and Village Council of Trustees. The Plan provides retirement benefits to law enforcement officers employed by the Village. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

*Funding Policy.* Article 12E of G.S. Chapter 143 requires the Village to contribute each month an amount equal to five percent of law enforcement officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan. Contributions for the year ended June 30, 2019 were \$7,507, which consisted of \$5,817 from the Village and \$1,690 from law enforcement officers.

The Village has also elected for all permanent full-time employees not engaged in law enforcement to be covered under the Supplemental Retirement Income Plan. The Village contributes 5% of employee's monthly compensation to the plan, and the employees may make voluntary contributions. Total contributions for the year ended June 30, 2019 for employees were \$7,416, which consisted of \$5,016 from the Village and \$2,400 from employees.

#### 2. Other Employment Benefits

The Village has also elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Governmental Employees' Retirement System (Death Benefit Plan), a multiple-employer, state-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest months salary in a row during the 24 months prior to the employee's death, but the benefit may not exceed \$50,000 or be less than \$25,000. All death benefit payments are made from the Death Benefit Plan. The Village has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. The Village considers the contributions to be immaterial.

#### 3. Deferred Outflows and Inflows of Resources

The Village had several deferred outflows of resources. Deferred outflows of resources are comprised of the following:

Source	 Amount
Assessments (General)	\$ 39,158
Assessments (Business Type)	5,038
Pension deferrals (General)	63,821
Pension deferrals (Business Type)	 7,254
Total	\$ 115,271
Deferred inflows of resources at year-end are comprised of the following:	
Prepaid Tax, net (General)	272
Pension deferrals (General)	5,565
Pension on deferral (Business Type)	 117
Total	\$ 5,954

#### B. Liabilities (Continued)

#### 4. Risk Management

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Village participates in three self-funded risk-financing pools administered by the North Carolina League of Municipalities. Through these pools, the Village obtains general liability, auto liability, police professional and public official's liability coverage of \$3 million per occurrence, property coverage up to \$1,503,288 and workers' compensation and employee benefit liability coverage up to \$1 million. No flood insurance is held by the Village since no Village property is in a flood plain.

In accordance with G.S. 159-29, the Village employees that have access to \$100 or more at any given time of the Village's funds are performance bonded through a commercial surety bond. The finance officer and tax collector are individually bonded for \$50,000 and \$10,000 each respectively. The remaining employees that have access to funds are bonded under a blanket bond for \$25,000.

The Village carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage in the prior year, and settled claims have not exceeded coverage in any of the past three fiscal years.

#### 5. Long-Term Obligations

a. Promissory Note Payable – Park facility debt

On July 13, 2006, the Village executed a promissory note payable to BB&T to help finance the Village Green Project. Effective July 1, 2018 the Village refinanced this note with First Bank and the following terms are noted:

The note requires five annual payments of \$20,995 plus interest at a fixed rate of 2.35%. The schedule date for final repayment is August 1, 2020. The financing agreement and deed of trust describes security for this financing as "Being all of Lot 14, a 50.01 acre tract and all of that parcel of land designated as Lot 63, Phase 1 of Foxfire Golf and Country Club and all improvements and fixtures on this site."

Annual requirements to retire this debt are as follows:

Year Ending			
June 30	Principal	Interest	<u>Total</u>
2020	\$ 20,053	\$ 957	\$ 21,010
2021	20,442	480	20,922
Total	\$ 40,495	\$1,437	\$ 41,932

b. Private placement installment purchase contract – Paving/Utilities

On April 3,2009, the Village executed a financing agreement and deed of trust with Branch Banking and Trust Company to finance the Woodland Circle street paving and water extension project. The Deed of Trust (Mortgaged Property) is described in the financing agreement as all the Village's right title and interest in the Woodland Circle extension from approximately Dogwood Court to the intersection of Lowell Court and Eagle Drive, including approximately 7,122 linear feet of residential subdivision roadway and associated storm drains and approximately 7,080 linear feet of waterline. The loan was paid off on June 18, 2019.

#### B. Liabilities (Continued)

#### 5. Long-Term Obligations (Continued)

Requirements to retire this debt are as follows:

c. Promissory Note Payable - Water and Well Project

On July 23, 2008, the Village executed a promissory note payable to BB&T to finance the Hoffman road well project. Effective July 1, 2019 the Village refinanced this note with First Bank and the following terms are noted:

The note requires seven annual payments of \$26,448 including interest with a final payment of \$25,553 at a fixed rate of 2.35%, and is secured by a first lien security interest on 2643 Hoffman Road well site and a UCC filing on all pipes, valves, and fittings associated with the project. The scheduled date for final repayment is August 1, 2023.

Annual requirements to retire this debt are as follows:

Year Ending June 30:	Principal	Interest	Total
2020	\$ 23,583	\$ 2,912	\$ 26,448
2021	24,107	2,341	26,448
2022	24,673	1,775	26,448
2023	25,253	1,195	26,448
2024	25,594	601	26,229
Total	\$ 123,210	<u>\$ 8,811</u>	\$ 132,021

d. Changes in long-term liabilities

The following is a summary of changes in the Village's long-term debt for the year ended June 30, 2019:

=	<u>Bal. July 1, 2018</u>	Increase	Decrease	<u>Bal. June 30, 2019</u>	Current Portion
Governmental Activities: Village Green Obligation Paving/Utiities Net pension liability (LGERS) Total pension liability (LEO) Compensated absences Total	\$ 60,052 762,989 ) 43,646 53,740 <u>21,090</u> \$ 941,517	\$ - 30,674 3,264 <u>9,382</u> \$43,320	\$ 19,557 762,989 - - - 7,120 \$789,666	\$ 40,495 - 74,320 57,004 <u>23,352</u> \$ 195,171	\$ 20,053 - - - - - - - - - - - - - - - - - - -

#### B. Liabilities (Continued)

#### 6. Legal Debt Margin

At June 30, 2019, Foxfire Village has a legal debt margin (maximum borrowing ability) of \$13,266,410.

#### 7. Description of Leasing Agreements

The Village leases its Village Hall facilities under an operating lease. The lease commenced on January 1, 2010 and will continue in effect through July 31, 2019. The Village will no longer need this lease in the future, as a new Town Hall has been built.

#### **NOTE 3 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES**

#### A. Federal and State Assisted Programs

The Village has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

#### NOTE 5 – FUND BALANCE

The following schedule provides management and citizens with information on the portion of general fund balance that is available for appropriation:

Total fund balance – General Fund	<u>\$1,100,153</u>
Less:	
Stabilization by State Statute	100,408
Capital Improvements	50,067
Police vehicle	20,000
Police separation allowance	20,000
K-9	954
Streets	123,000
Streets future debt	35,928
Working Capital/Fund Balance Policy	462,740
Subsequent year's expenditures	96,000
Remaining Fund Balance	191,056

Total pension liability as a percentage of covered payroll	49.17%	48.77%	32.56%

#### Notes to the schedules:

The Village of Foxfire has no assets accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 73 to pay related benefits.

# COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS

## **MAJOR GOVERNMENTAL FUNDS**

**General Fund** – This fund accounts for resources traditionally associated with government that are not required legally or by sound financial management to be accounted for in other funds.

*Capital Project Fund* – This fund accounts for the Village's new pool house construction primarily financed by transfers from the General fund.

## **ENTERPRISE FUNDS**

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of net income is appropriate for accountability purposes.

*Water and Sewer Fund* - This fund is used to account for the City's water and sewer operations.
