INDEPENDENT AUDITOR'S REPORT

To the Town Council
Town of Marshville
Marshville, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Marshville, North Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Town of Marshville, North Carolina's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of the Marshville ABC Board were not audited in accordance with *Government Auditing Standards*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Marshville, North Carolina, as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison of the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3-11 and the Local Government Employees' Retirement System's Schedules of the Proportionate Share of the Net Pension Asset (Liability) and Contributions, on page 48 and LEO Separation Allowance Schedule of Changes in Pension Liability and Pension Liability as a Percentage of Covered Payroll, on page 49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

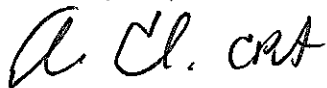

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Marshville, North Carolina's basic financial statements. The budgetary schedules and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary schedules and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary schedules and other schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2019, on our consideration of the Town of Marshville, North Carolina's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Marshville, North Carolina's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Town of Marshville, we offer the readers of the Town of Marshville's financial statements this narrative overview and analysis of the financial activities of the Town of Marshville for the fiscal year ended June 30, 2019. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

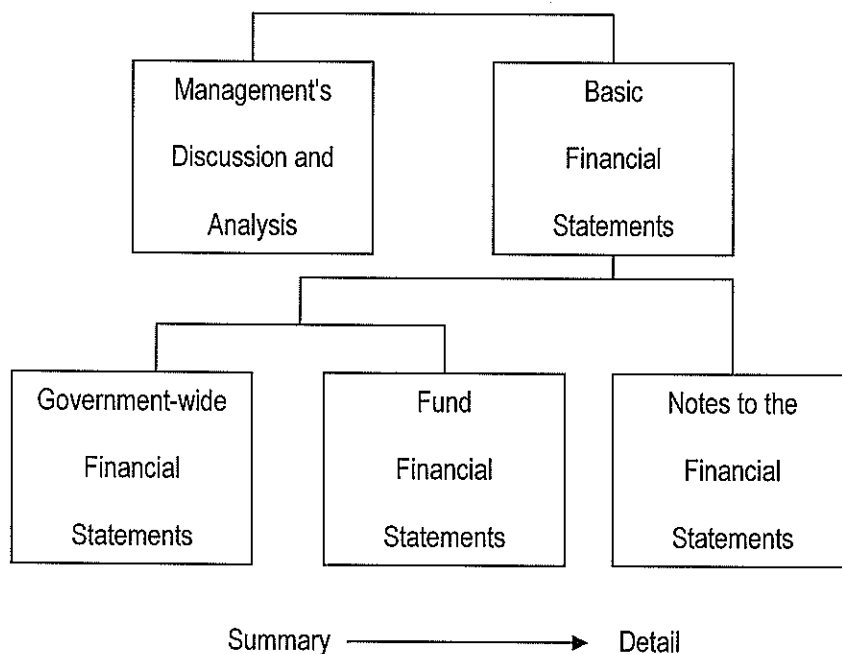

Financial highlights

- The assets of the Town of Marshville exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$9,365,547 (*net position*).
- The Town's total net position increased by \$291,257 primarily due to increases in the business-type activities net position.
- As of the close of the current fiscal year, the Town of Marshville's governmental fund reported combined ending fund balance of \$1,479,879 with a net increase of \$88,220 in fund balance. Approximately 43 percent of this total amount, or \$627,890, is restricted or assigned.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$851,989, or 47 percent of total General Fund expenditures for the fiscal year.
- The Town's total debt and long-term liabilities increased by \$76,166 due to principal payments of \$42,173 on installment loans, proceeds from installment loans of \$53,139, decrease in compensated absences of \$6,325, decrease in LEO pension liability of \$8,646 and increase in LGERS pension liability of \$80,171.

Overview of the Financial Statements

This discussion and analysis is intended to serve as introduction to the Town of Marshville's basic financial statements. The Town's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Marshville.

Required Components of Annual Financial Report
Figure 1

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Town's financial status.

The next statements (Exhibit 3 through 8) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are two parts to the Fund Financial Statements: 1) the governmental fund statements; and 2) the proprietary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Town's individual funds. Budgetary information required by the General Statutes also can be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how they have changed. Net position is the difference between the Town's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are divided into three categories: 1) governmental activities, 2) component units and 3) business-type activities. The governmental activities include most of the Town's basic services such as public safety, parks and recreation, and general administration. Property taxes finance most of these activities. The component unit reports the activities of the ABC Board. The business-type activities are those that municipalities generally charge fees for.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Marshville, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as General Statutes or the Town's budget ordinance. All of the funds of the Town of Marshville are reported under governmental funds. All of the funds of the Town of Marshville can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him determine if there are more or less financial resources available to finance the Town's programs. The relationship between governmental activities (reported in the Statement of Net position and the Statement of Activities) and governmental funds is described in a reconciliation that is part of the fund financial statements.

The Town of Marshville adopts an annual budget for the General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance the current period activities.

Management Discussion and Analysis
Town of Marshville

The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented in the same format, language and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the Board; 2) the final budget as amended by the Board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the differences or variance between the final budget and actual resources and charges. To account for the difference between the budgetary basis of accounting and the modified accrual basis, a reconciliation showing the differences in the reporting activities is shown at the end of the budgetary statement.

Proprietary Funds – The Town of Marshville has only one kind of proprietary fund. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town of Marshville uses enterprise funds to account for its sewer activity and operations. These funds are the same as those functions shown in the business-type activities in the Statement of Net position and the Statement of Activities.

Notes to the Financial Statements – The notes provide additional information that is essential to the full understanding of data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 23 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain required supplemental information concerning the Town of Marshville's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found beginning on page 48 of this report.

Interdependence with Other Entities – The Town depends on financial resources flowing from, or associated with, both the Federal Government and the State of North Carolina. Because of this dependency, the Town is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State appropriations. It is also subject to changes in investment earnings and asset values associated with U.S. Treasury Securities because of actions by foreign government and other holders of publicly held U.S. Treasury Securities.

Management Discussion and Analysis
Town of Marshville

Town of Marshville's Net Position (Figure 2)

Deferred inflows of resources	19,990	8,478	2,480	1,209	22,470	9,687
Total liabilities and deferred inflows of resources	620,336	549,940	1,537,886	1,511,085	2,158,222	2,061,025
Net position:						
Net investment in capital assets	1,472,576	1,517,805	3,957,525	3,846,259	5,430,101	5,364,064
Restricted	342,368	302,315	-	-	342,368	302,315
Unrestricted	862,122	794,412	2,730,957	2,613,498	3,593,079	3,407,910
Total net position	\$ 2,677,066	\$ 2,614,532	\$ 6,688,481	\$ 6,459,757	\$ 9,365,547	\$ 9,074,289

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets of the Town of Marshville exceeded liabilities and deferred inflows by \$9,365,547 as of June 30, 2019. The Town's net position increased by \$291,257 for the fiscal year ended June 30, 2019. However, the largest portion (58%) reflects the Town's net investment in capital assets (e.g. land, buildings, machinery, and equipment). The Town of Marshville uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Marshville's net investment in capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Town of Marshville's net position, \$342,368, represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$3,593,079 is unrestricted.

Several particular aspects of the Town's financial operations positively influenced the total unrestricted governmental assets:

- Steady property tax collection continued for FY 2019
- Expenditures were consistently monitored and held in check.

Increase (decrease) in net position						
before special item and transfers	62,534	(143,101)	228,724	342,312	291,258	199,211
Transfers	-	-	-	-	-	-
Increase (decrease) in net position	62,534	(143,101)	228,724	342,312	291,258	199,211
Net position July 1	2,614,532	2,757,633	6,459,757	6,117,445	9,074,289	8,875,078
Net position June 30	\$ 2,677,066	\$ 2,614,532	\$ 6,688,481	\$ 6,459,757	\$ 9,365,546	\$ 9,074,289

Governmental activities – Governmental activities increased the Town's net position by \$62,534, thereby accounting for 21% of the total increase in net position of the Town. The increase in net position was the result of a concerted effort to control costs and manage expenditures. Management believes healthy investment in the Town will result in additional revenues, and in that vein added to the Town's net position by investing in capital assets. Increased efforts to maximize tax collections also contributed to the favorable net position. Tax revenue did not appreciably decline in the current year. Town management acknowledges that 2019 was a successful year and plans on improving upon these approaches as a long-term strategy to realize continued fiscal health.

Management Discussion and Analysis
Town of Marshville

Governmental activities (continued)

Key elements of this increase are as follows:

- Increase in property taxes and other taxes and licenses.
- Efforts to reduce spending at the department level.

Business-type activities – Business-type activities increased the Town's net position by \$228,724, accounting for 79% of the total increase in the Town's net position. Key elements of this increase are as follows:

- Decrease in overall expenses

Financial Analysis of the Town's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town's financing requirements. Specifically, unreserved fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the chief operating fund of the Town. At the end of the current fiscal year, the Town of Marshville's fund balance available in the General Fund was \$851,989, while total fund balance reached \$1,479,879. The Town currently has an available fund balance of 47% of general fund expenditures, while total fund balance represents 81% of the same amount.

At June 30, 2019, the governmental funds of the Town of Marshville reported a combined fund balance of \$1,479,879, a 6% percent increase from last year. The General Fund is included in this combined amount.

General Fund Budgetary Highlights: Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

The Town made several amendments to the original budget to reflect changes in economic conditions.

Proprietary Funds. The Town of Marshville's proprietary fund provides the same type of information found in the government-wide statements but in more detail. Unrestricted net position of the Water / Sewer Fund at the end of the fiscal year amounted to \$2,730,957. The total change in net position for the Water / Sewer fund was \$228,724. The change in net position in the Water / Sewer Fund is a result of actual revenues exceeding expenses, which includes depreciation.

Management Discussion and Analysis
Town of Marshville

Capital Asset and Debt Administration

Capital Assets. The Town's investment in capital assets for its governmental activities and business-type activities as of June 30, 2019, totals \$6,119,473 (net of accumulated depreciation). These assets include buildings, streets, land, machinery and equipment, park facilities, and vehicles.

Management Discussion and Analysis

Town of Marshville

North Carolina general statutes limit the amount of general obligation debt that a unit of government can issue to 8 percent of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for the Town of Marshville is \$15,505,443

Economic Factors and Next Year's Budget and Rates

The following key economic indicators reflect growth and prosperity of the Town

- The Charlotte region is projected to continue to experience economic growth
- Construction of the Monroe Bypass/Connector is complete. Marshville is the eastern terminal community of this project which will likely focus development toward Marshville and the surrounding area.

Budget Highlights for the Fiscal Year Ending June 30, 2020

Governmental Activities: Property tax revenue is expected to remain steady this year and the Town will use that to finance programs currently in place.

Budgeted expenditures are not expected to rise significantly.

The town has chosen to appropriate fund balance in the 2019-2020 budget. Management believes that increased revenues and continued restrictions on spending will maintain the Town's financial position. As the Town considers future revenue sources, it has determined that a \$0.01 increase in property tax rate will result in additional revenues of approximately \$19,130 at current values and collection rate. Though management believes current growth will generate enough revenue to support Town operations, a careful analysis of property tax revenue will be considered in future years' budgets.

Business-type Activities: The water and sewer rates in the Town will remain constant for 2019-2020. The Town has entered into an agreement to transfer assets and liabilities of the business-type activities to Union County as of January 1, 2020.

Requests for Information

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Finance Officer, Town of Marshville, 118 E. Union St, Marshville, NC 28103.

Town of Marshville, North Carolina

***NOTES TO FINANCIAL STATEMENTS
As of or for the Year Ended June 30, 2019***

I. Summary of Significant Accounting Policies

The accounting policies of the Town of Marshville conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies.

A. Reporting entity

The Town of Marshville is a municipal corporation governed by an elected mayor and a four-member council. As required by generally accepted accounting principles, these financial statements present the Town and its component unit, a legally separate entity for which the Town is financially accountable. The discretely presented component unit presented below is reported in a separate column in the Town's financial statements in order to emphasize that it is legally separate from the Town.

Marshville ABC Board

The members of the ABC Board's governing board are appointed by the Town. In addition, the ABC Board is required by State statute to distribute its surpluses to the General Fund of the Town. The ABC Board, which has a June 30 year-end, is presented as if it were a proprietary fund. Complete financial statements for the ABC Board may be obtained from the entity's administrative offices at the Marshville ABC Board, Marshville, North Carolina.

B. Basis of presentation

Government-wide Statements: The statement of net position and the statement of activities display the information about the government and its component unit. These statements include the activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. The statements distinguish between the *governmental* and *business-type activities* of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational and capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category – *governmental* and *proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. The Town of Marshville has no non-major governmental or enterprise funds.

Notes to the Financial Statements (continued)

B. Basis of presentation (continued)

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially the same values. Non-operating revenues, such as subsidies result from non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings.

The Town reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in other funds. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for public safety, street maintenance and construction, and sanitation services.

The Town reports the following major enterprise funds:

Water and Sewer Fund – This fund is used to account for the Town's water and sewer operations. Anderson Health Care, Inc. – Water & Sewer Infrastructure Grant Fund, Inflow Elimination Project Fund, Water System Improvements WIF-1915 Project Fund, CDBG Carelock - Water & Sewer Infrastructure Grant Fund, CDBG Outfall - Water & Sewer Infrastructure Grant Fund and Booster Replacement - Water & Sewer Infrastructure Grant Fund are consolidated with the Water and Sewer Fund for financial reporting purposes.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified basis of accounting.

Government-wide and Proprietary Fund Financial Statements: The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses recorded at the time liabilities are incurred regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, including property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town enterprise fund are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the sewer system. Operating expenses for enterprise funds include the cost of sales and services,

Notes to the Financial Statements (continued)

C. Measurement Focus and Basis of Accounting (continued)

administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financial sources.

The Town considers all revenues available if they are collected within 90 days after year end, except for property taxes. Ad valorem taxes receivable are not accrued as revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the beer and wine tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Sales taxes are considered shared revenue for the Town because the tax is levied by Union County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes are reported as general revenues rather than program revenues. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then general revenues.

D. Budgetary data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund and the Enterprise Fund. All annual appropriations lapse at the fiscal-year end. Project ordinances are adopted as needed. The enterprise fund projects are consolidated with the Water and Sewer Fund for reporting purposes. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the departmental level for all annually budgeted funds and at the object level for any multi-year funds. During the year, several amendments to the original budget were necessary. All amendments must be approved by the governing board and the Board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

Notes to the Financial Statements (continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity:

1. Deposits and Investments

All deposits of the Town and the ABC Board are made in board-designated official depositories and are secured as required by State law (G.S. 159-31). The Town and ABC Board may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town and ABC Board may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town and the ABC Board to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States, obligations of the State of North Carolina, bonds and notes of any North Carolina local government or public authority, obligations of certain non-guaranteed federal agencies, certain high quality issues of commercial paper and bankers' acceptances, and the North Carolina Capital Management Trust (NCCMT). The Town's and the ABC Board's investments are reported at fair value. Non-participating interest earning investment contracts are accounted for at cost. The NCCMT Government Portfolio, a SEC-registered (2a-7) external investment pool, is measured at fair value. The NCCMT- Term Portfolio is bond fund, has no rating and is measured at fair value. As of June 30, 2019, The Term portfolio has a duration of 11 years. Because the NCCMT Government and Term Portfolios have a weighted average maturity of less than 90 days, they are presented as an investment with a maturity of less than 6 months.

2. Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursements and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents. The ABC Board considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

3. Restricted Cash

Restricted cash and cash equivalents in the Water and Sewer Fund customer deposits held by the Town before any services are supplied are restricted to the service for which the deposit was collected. Powell Bill funds are classified as restricted cash because it can be expended only for the purposes of maintaining, repairing, constructing, reconstructing or widening of local streets per G.S. 136-41.1 through 136-41.4.

Town of Marshville Restricted Cash

Governmental Activities		
General Fund	Streets	\$164,145
	Law Enforcement	8,618
Total governmental activities		<u>172,763</u>
Business-type Activities		
Water and Sewer Fund	Customer deposits	64,038
Total Business-type Activities		<u>64,038</u>
Total Restricted Cash		<u>\$236,801</u>

Notes to the Financial Statements (continued)

4. Ad Valorem Taxes Receivable

In accordance with State law (G.S. 105-347 and G.S. 159-13(a)), the Town levies ad valorem taxes on July 1, the beginning of the fiscal year. The taxes are due on September 1; however, interest does not accrue until the following January 6. These taxes are based on the assessed values as of January 1, 2018. As allowed by State law, the Town has established a schedule of discounts that apply to taxes which are paid prior to the due date. In the Town's General Fund, ad valorem tax revenues are reported net of such discounts.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This account is estimated by analyzing the percentage of receivables that were written off in prior years as well as the receivables at year-end deemed to be uncollectible.

6. Inventories and Prepaid Items

Inventories are maintained for the Enterprise Fund supplies and the ABC Board. The inventories are valued at cost (first-in, first-out). The costs of these inventories are expensed when consumed rather than when purchased. Prepaid items are expensed as consumed.

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization costs are as follows: depreciable capital assets, \$5,000; real estate, \$1. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets received prior to June 30, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 30, 2015 are recorded at acquisition value. General infrastructure assets acquired prior to July 1, 2003, consist of the road network and have not been capitalized. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets of the Town are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life - Years</u>
Plant and distribution systems	10 - 50
Buildings	20 - 55
Equipment	5 - 50
Vehicles	5 - 20
Land improvements	10 - 30
Infrastructure	20 - 30

Capital assets of the ABC Board are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life - Years</u>
Buildings	31.5
Building improvements	10 - 15
Land improvements	15
Furniture and equipment	5-10

Notes to the Financial Statements (continued)

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has one item that meets this criterion – pensions deferral for the 2019 fiscal year. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has three items that meet the criterion for this category – prepaid taxes (when applicable), property taxes receivable, and pension deferrals.

9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net position. In the fund financial statements for governmental fund types, the face amount of debt issued is reported as other financing sources.

10. Compensated Absences

The vacation policy of the Town provides for the accumulation of up to thirty days earned vacation leave with such leave being fully vested when earned. For the Town's government-wide and proprietary funds, an expense and a liability for compensated absences and the salary-related payments are recorded as the leave is earned. The Town has assumed a first-in, first-out method of using accumulated compensated time. The portion of that time that is estimated to be used in the next fiscal year has been designated as a current liability in the government-wide financial statements.

The Town's sick leave policy provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Town does not have any obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

11. Net Position/ Fund Balances

Net Position

Net position in government-wide and proprietary fund financial statements are classified as net investment in capital assets, net of related debt; restricted and unrestricted. Restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

Notes to the Financial Statements (continued)

11. Net Position/ Fund Balances (continued)

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute - North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". *Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget.* Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as nonspendable. Outstanding Encumbrances are included within RSS. RSS is included as a component of Restricted Net position and Restricted fund balance on the face of the balance sheet.

Restricted for Streets - Powell Bill portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds.

Restricted for Law Enforcement - portion of fund balance that is restricted by revenue source for law enforcement. This amount represents unexpended controlled substance tax from the State.

Committed Fund Balance –portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of Town of Marshville's governing body (highest level of decision-making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned fund balance – portion of fund balance that Town of Marshville intends to use for specific purposes.

Subsequent year's expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed. The governing body approves this appropriation.

Unassigned fund balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed by in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance.

Notes to the Financial Statements (continued)

11. Net Position/ Fund Balances (continued)

The Town has not adopted a formal minimum fund balance policy but follows the State Treasurer's guidance.

12. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Town's employer contributions are recognized when due and the Town has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

II. Stewardship, Compliance, and Accountability:

A. Material Violations of Finance-Related Legal and Contractual Provisions:

1. *Noncompliance with North Carolina General Statutes:* None
2. *Contractual Violations:* None

III. Detail Notes on All Funds:

A. Assets:

1. Deposits

All the deposits of the Town and the ABC Board are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's or the ABC Board's agents in these units' names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town and the ABC Board, these deposits are considered to be held by the Town's and the ABC Board's agents in their names. The amount of the pledged collateral is based on an approval averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town and ABC Board under the Pooling Method, the potential exists to undercollateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Town has no formal policy regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Town complies with provisions of GS 159-31 when designating official depositories and verifying that deposits are properly secured. The ABC Board has no formal policy regarding custodial risk for deposits.

Notes to the Financial Statements (continued)

1. Deposits (continued)

At June 30, 2019, the Town's deposits had a carrying amount of \$3,872,772 and a bank balance of \$3,962,956. At June 30, 2019, the Town's bank balances were covered by FDIC insurance of \$287,940. All excess deposits of the Town are insured or collateralized under the Pooling Method. At June 30, 2019, the Town's petty cash totaled \$325. At June 30, 2019, the ABC Board's deposits had a carrying amount of \$19,831 and a bank balance of \$17,928. All of the bank balance was covered by Federal Depository insurance. The Board had change funds of \$1,200.

2. Investments

At June 30, 2019, the Town had \$749,046 invested with the North Carolina Capital Management Trust's Government Portfolio which carried a credit rating of AAAm by Standard and Poor's. The Town has no policy regarding credit risk.

3. Receivable - Allowances for Doubtful Accounts

The amounts presented in the Balance Sheet and the Statement of Net Position for the year ended June 30, 2019 is net of the following allowances for doubtful accounts:

<u>Fund</u>	<u>Amount</u>
General Fund	\$ -
Enterprise Fund	<u>54,000</u>
Total	<u>\$ 54,000</u>

Notes to the Financial Statements (continued)

4. Capital assets

Primary Government

Construction Commitments

The government has active construction projects as of June 30, 2019. At year-end, the government's commitments with contractors are as follows:

Project	Spent-to-date	Remaining Commitment
Anderson Health Care, Inc. Water and Sewer Infrastructure Grant Fund	\$ 1,066,233	\$ 118,086
Inflow Elimination Project Fund	520,946	485,406
Water System Improvements WIR-1915 Project Fund	110,206	1,016,119
CDBG Carelock - Water and Sewer Infrastructure Grant Fund	9,799	197,751
CDBG Outfall - Water and Sewer Infrastructure Grant Fund	9,685	526,165
Booster Pump Replacement - Water and Sewer Infrastructure Grant Fund	56,259	162,341
Total	<u>\$ 1,773,127</u>	<u>\$ 2,505,868</u>

B. Liabilities:

1. Pension Plan Obligations

a. Local Governmental Employees' Retirement System

Plan Description. The Town is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Notes to the Financial Statements (continued)

a. Local Governmental Employees' Retirement System (continued)

The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Town employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Town's contractually required contribution rate for the year ended June 30, 2019, was 8.50% of compensation for law enforcement officers and 7.94% for general employees and firefighters, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Town were \$66,557 for the year ended June 30, 2019.

Refunds of Contributions – Town employees, who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Town reported a liability of \$313,149 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017. The total pension liability was then rolled forward to the measurement date of June 30, 2018 utilizing update procedures incorporating the actuarial assumptions. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2019 (measured as of June 30, 2018), the Town's proportion was 0.01320%, which was a decrease of 0.00205% from its proportion measured as of June 30, 2018 (measured as of June 30, 2017).

For the year ended June 30, 2019, the Town recognized pension expense of \$87,749. At June 30, 2019, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Notes to the Financial Statements (continued)

a. Local Governmental Employees' Retirement System (continued)

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 48,311	\$ 1,621
Changes of assumptions	83,098	-
Net difference between projected and actual earnings on pension plan investments	42,986	-
Changes in proportion and differences between Town contributions and proportionate share of contributions	7,338	13,687
Town contributions subsequent to the measurement date	66,557	-
Total	<u>\$ 248,290</u>	<u>\$ 15,308</u>

\$66,557 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as an increase of the net pension asset in the year ended June 30, 2020. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2020	\$ 83,269
2021	52,892
2022	8,610
2023	21,654
2024	-
	<u>\$ 166,425</u>

Actuarial Assumptions. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	3.50 percent
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

The plan actuary currently uses mortality rates based on the RP-2014 Total Data Set for Healthy Annuitants Mortality Table that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements

The actuarial assumptions used in the December 31, 2017 valuation were based on the results of an actuarial experience as of December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

Notes to the Financial Statements (continued)

a. Local Governmental Employees' Retirement System (continued)

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2019 are summarized in the following table:

Notes to the Financial Statements (continued)

a. Local Governmental Employees' Retirement System (continued)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	100%	

The information above is based on 30 year expectations developed with the consulting actuary for the 2017 asset, liability, and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town's proportionate share of the net pension asset to changes in the discount rate. The following presents the Town's proportionate share of the net pension asset calculated using the discount rate of 7.00 percent, as well as what the Town's proportionate share of the net pension asset or net pension

Notes to the Financial Statements (continued)

a. Local Governmental Employees' Retirement System (continued)

liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate:

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
Town's proportionate share of the net pension liability (asset)	\$ 752,211	\$ 313,149	\$ (53,738)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

b. Law Enforcement Officers Special Allowance

1. Plan description.

The Town administers a public employee retirement system (the "Separation Allowance"); a single-employer defined benefit pension plan that provides retirement benefits to the Town's qualified sworn law enforcement officers. The Separation Allowance is equal to .85% of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of GS Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

All full-time law enforcement officers of the Town are covered by the Separation Allowance. At December 31, 2017 the Separation Allowance's membership consisted of:

Retirees receiving benefits	2
Terminated plan members entitled to but not yet receiving benefits	0
Active plan members	8
	<u>10</u>

A separate report was not issued for the plan.

2. Summary of significant accounting policies:

Basis of accounting. The Town has chosen to fund the Separation Allowance on a pay as you go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

The Separation Allowance has no assets accumulated in a trust that meets the criteria which are outlined in GASB Statements 73

Notes to the Financial Statements (continued)

b. Law Enforcement Officers Special Separation Allowance (continued)

3. Actuarial Assumptions

The entry age actuarial cost method was used in the December 31, 2016 valuation. The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent
Salary increases	3.50 to 7.35 percent, including inflation and productivity factor
Discount rate	3.64 percent

The discount rate is based on the yield of the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2017.

Mortality rates are based on the RP-2000 Mortality tables with adjustments for mortality improvements based on Scale AA.

4. Contributions.

The Town is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the amounts necessary to cover the benefits earned on a pay as you go basis through appropriations made in the General Fund operating budget. There were no contributions made by employees. The Town's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Administration costs of the Separation Allowance are financed through investment earnings. The Town paid \$27,705 as benefits came due for the reporting period.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Town reported a total pension liability of \$232,753. The total pension liability was measured as of December 31, 2018 based on a December 31, 2017 actuarial valuation. The total pension liability was then rolled forward to the measurement date of December 31, 2018 utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2019, the Town recognized pension expense of \$19,974.

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 7,117	\$ -
Changes of assumptions	6,280	7,162
Benefit payments and plan administrative expense made subsequent to the measurement date	-	-
Total	<u>\$ 13,397</u>	<u>\$ 7,162</u>

Notes to the Financial Statements (continued)

b. Law Enforcement Officers Special Separation Allowance (continued)

\$0 reported as deferred outflows of resources related to pensions resulting from benefit payments made and administrative expenses incurred subsequent to the measurement date will be recognized as a decrease of the total pension liability in the year ended June 30, 2020. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	Deferred Outflow of Resources	Deferred Inflow of Resources	Amount recognized in Pension Expense as an Increase or (decrease) to Pension Expense
2020	\$ 3,599	\$ 1,916	\$ 1,683
2021	3,599	1,916	1,683
2022	3,599	1,672	1,927
2023	2,133	1,264	869
2024	467	394	73
Thereafter	-	-	-

Sensitivity of the Town's total pension liability to changes in the discount rate. The following presents the Town's total pension liability calculated using the discount rate of 3.64 percent, as well as what the Town's total pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.64 percent) or 1-percentage-point higher (4.64 percent) than the current rate:

	1% Decrease (2.64%)	Discount Rate (3.64%)	1% Increase (4.64%)
Total pension liability	\$ 247,050	\$ 232,753	\$ 219,628

**Schedule of Changes in Total Pension Liability
Law Enforcement Officers' Special Separation Allowance**

	2019	2018
Beginning balance	\$ 241,399	\$ 240,602
Service Cost	10,601	8,639
Interest on the total pension liability	7,190	8,753
Changes of benefit terms	-	-
Differences between expected and actual experience in the measurement of the total pension liability	7,982	1,024
Changes of assumptions or other inputs	(6,714)	10,086
Benefit payments	(27,705)	(27,705)
Other changes	-	-
Ending balance of the total pension liability	\$ 232,753	\$ 241,399

Notes to the Financial Statements (continued)

b. Law Enforcement Officers Special Separation Allowance (continued)

The plan currently uses mortality tables that vary by age, and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2017 valuation were based on the results of an actuarial experience study as of December 31, 2014.

Total Expense, Liabilities, and Deferred Outflows and Inflows of Resources of Related to Pensions

Following is information related to the proportionate share and pension expense for all pension plans:

	LGERS	LEOSSA	Total
Pension Expense	\$ 87,749	\$ 19,974	\$ 107,723
Pension Liability	313,149	232,753	545,902
Proportionate share of the net pension liability	0.01320%	na	
Deferred of Outflows of Resources			
Differences between expected and actual experience	48,311	7,117	55,428
Changes of assumptions	83,098	6,280	89,378
Net difference between projected and actual earnings on plan investments	42,986	-	42,986
Changes in proportion and differences between contributions and proportionate share of contributions	7,338	-	7,338
Benefit payments and administrative costs paid subsequent to the measurement date	66,557	-	66,557
Deferred of Inflows of Resources			
Differences between expected and actual experience	1,621	-	1,621
Changes of assumptions	-	7,162	7,162
Net difference between projected and actual earnings on plan investments	-	-	-
Changes in proportion and differences between contributions and proportionate share of contributions	13,687	-	13,687

c. Supplemental Retirement Income Plan for Law Enforcement Officers and Other Employees

Plan description. The Town contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers and other employed by the Town. Article 5 of GS Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina

Notes to the Financial Statements (continued)

c. Supplemental Retirement Income Plan for Law Enforcement Officers and Other Employees (cont)

General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy. Article 12E of GS Chapter 143 requires the Town to contribute each month an amount equal to five percent of each officer's salary and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan.

The Town has elected to make the Supplemental Retirement Income Plan available to other employees. The Town contributes each month an amount equal to four percent of other employees' salaries, and all amounts contributed are vested immediately. Also, the other employees may make voluntary contributions to the plan.

The Town made contributions of \$26,559 for the reporting year. No amounts were forfeited.

d. Other Employment Benefits

The Town has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Governmental Employees' Retirement System (Death Benefit Plan), a multiple-employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest months' salary in a row during the 24 months prior to the employee's death, but the benefit may not exceed \$50,000 or be less than \$25,000. Because all death benefit payments are made from the Death Benefit Plan and not by the Town, the Town does not determine the number of eligible participants. The Town has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. Contributions are determined as a percentage of monthly payroll based upon rates established annually by the State. Separate rates are set for employees not engaged in law enforcement and for law enforcement officers. The Town considers these contributions to be immaterial.

For the fiscal year ended June 30, 2019, the Town made contributions to the State for death benefits of \$1,110. The Town's required contributions for employees not engaged in law enforcement and for law enforcement officers represented .12% and .14% of covered payroll, respectively. The contributions to the Death Benefit Plan cannot be separated between the postemployment benefit amount and the other benefit amount.

Notes to the Financial Statements (continued)

2. Deferred Outflows and Inflows of Resources

Deferred outflows of resources at year-end are comprised of the following:

Source	Amount
Pension deferrals (LGRS)	\$ 214,351
Pension deferrals (LEOSSA)	40,218
Total	<u>\$ 254,569</u>

Deferred inflows of resources at year-end are comprised of the following:

	Statement of Net Position	General Fund Balance Sheet
Taxes Receivable, less penalties (General Fund)	\$ -	\$ 56,801
Pension deferrals (LGRS)	19,990	-
Pension deferrals (LEOSSA)	2,480	-
Total	<u>\$ 22,470</u>	<u>\$ 56,801</u>

3. Risk Management

The Town is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates in two self-funded risk financing pools administered by the North Carolina League of Municipalities. Through these pools, the Town obtains general liability and auto liability coverage of \$5 million per occurrence, property coverage up to the total insurance values of the property policy, and workers' compensation coverage up to the statutory limits. The pools are reinsured through commercial companies for single occurrence claims against general liability, auto liability and property liability in excess of \$500,000 and \$300,000 up to statutory limits for workers' compensation. The property liability pool has an aggregate limit for the total property losses in a single year with the reinsurance limit based upon a percentage of the total insurance values.

The Town carries commercial coverage for employee health coverage all other risks of loss. There have been no significant reductions in insurance coverage in the prior year and settled claims have not exceeded coverage in any of the past three fiscal years.

The Town does not currently participate in the National Flood Insurance Plan (NFIP). There is only one small parcel of land within the incorporated limits of the Town designated as a Flood Hazard Area. As additional Flood Hazard Areas are designated within the limits of the Town due to Extra Territorial Jurisdiction and re-mapping of the Yadkin-Pee Dee river system, the Town will consider the need for participation in the NFIP.

In accordance with G.S. 159-29, the Town's employees that have access to \$100 or more at any given time of the Town's funds are performance bonded through a commercial surety bond. The finance officer and tax collector are each individually bonded for \$50,000 and \$10,000, respectively. The remaining employees that have access to funds are bonded under a blanket bond for \$10,000.

Notes to the Financial Statements (continued)

4. Claims and Judgments

The Town of Marshville and Union County entered into a 30 year sewer treatment contract in October 1978. That contract was superseded and replaced by another 30 year sewer treatment contract in October 1994. The Town and County are currently involved in legal proceedings. The Town has not paid Union County for sewer treatment since February 2014, until January 2017. The Town began paying current invoices to Union County in January 2017 per a Consent Order. All unpaid amounts billed by Union County have been accrued and are included in due to other governments. The amount accrued to Union County as of June 30, 2019 total \$634,753.

The matter has gone before a judge resulting in several orders, all of which have been appealed to the North Carolina Court of Appeals. The Town is vigorously contesting the County's claims. At this point, any effect on the Town's financial statements cannot be determined other than the accrued sewer treatment fees.

5. Long-Term Obligations:

a. Installment Purchase Payable

Installment purchase payable at June 30, 2019 are comprised of the following individual issues:

Direct placement obligations serviced by the Water and Sewer fund

On May 19, 2016, the Town entered into a revolving loan agreement for \$348,992 with the NC Department of Environmental Quality for a water project. The financing contract requires 20 annual payments of \$17,450 at 0% interest beginning May 1, 2017. The obligation is collateralized by the full faith and credit of the Town and is callable if payments are substantially past due.

On May 19, 2016, the Town entered into a revolving loan agreement for \$986,620 with the NC Department of Environmental Quality for a water project. The financing contract requires 20 annual payments of \$49,331 at 0% interest beginning May 1, 2019. At June 30, 2019, \$494,452 had been advanced. A principal payment of \$24,773 was made during the year, based on loan draws. The obligation is collateralized by the full faith and credit of the Town and is callable if payments are substantially past due

Annual debt service requirements to maturity for long-term obligation, including \$0 of interest are as follows:

Year Ending June 30	Water and Sewer Fund		
	<u>Note 1</u> Principal	<u>Note 2</u> Principal	Interest
2020	\$ 17,450	\$ 24,773	\$ -
2021	17,450	24,773	-
2022	17,450	24,773	-
2023	17,449	24,773	-
2024	17,449	24,773	-
2025-29	87,248	123,865	-
2030-34	87,248	123,865	-
2035-36	34,899	122,857	-
	<u>\$ 296,643</u>	<u>\$ 494,452</u>	<u>\$ -</u>

Notes to the Financial Statements (continued)

b. Changes in Long-term Liabilities

Compensated absences have typically been liquidated in the General and Water and Sewer Funds.

	Balance June 30, 2018	Increases	(Decreases)	Balance June 30, 2019	Current Portion of Balance
Governmental activities:					
Compensated absences	\$ 61,404		\$ (1,372)	\$ 60,032	\$ -
Total pension liability (LEO)	241,399	-	(8,646)	232,753	-
Net pension liability (LGERS)	194,518	67,907	-	262,425	-
Total	<u>\$ 497,321</u>	<u>\$ 67,907</u>	<u>\$ (10,018)</u>	<u>\$ 555,210</u>	<u>\$ -</u>
Business-type activities:					
Installment purchase	\$ 314,093	\$ -	\$ (17,450)	\$ 296,643	\$ 17,450
Installment purchase	441,313	53,139	(24,723)	469,729	24,723
Compensated absences	11,196	-	(4,953)	6,243	-
Net pension liability (LGERS)	38,460	12,264	-	50,724	-
Total	<u>\$ 805,062</u>	<u>\$ 65,403</u>	<u>\$ (47,126)</u>	<u>\$ 823,339</u>	<u>\$ 42,173</u>

At June 30, 2019, the Town of Marshville had bonds authorized but un-issued of \$-0- and a legal debt margin of \$15,505,443.

C. Operating Lease Revenue

The Town leases space to various parties under noncancellable operating leases with initial terms of one year or more. The Town has also entered into a lease with a communications company granting the company the right to install communications equipment on the Town's water tank. The initial lease was for five years, with four automatic renewal terms of five years each. Lease revenue under these leases for the year ended June 30, 2019 was \$37,497. The total future minimum rental payments receivable under these leases (excluding any unexercised renewal options) are as follows at June 30, 2019, reflecting the above noted termination agreement:

Year Ending June 30,	
2020	\$ 39,226
2021	39,030
	<u>\$ 78,256</u>

The Town entered into a lease with the Marshville ABC Board July 1, 2019 for the lease of the old Town Hall building. The lease is for \$2,000 per month with an escalating agreement upon reaching certain sales objectives by the ABC Board.

Notes to the Financial Statements (continued)

D. Operating Leases

The Town leases office equipment under a noncancellable operating lease. The annual minimum lease payments as of June 30, 2019 are as follows:

Year Ending June 30,		
2020	\$	4,020
2021		4,020
2022		1,005
	\$	<u>9,045</u>

Rent expense for the year ended June 30, 2019 was \$4,020.

E. Interfund Receivables and Activity

Transfers are used to move unrestricted revenues to finance various programs that the Town must account for in other funds in accordance with budgetary authorizations including amounts providing matching funds for grant programs.

There were no transfers during the year ended June 30, 2019.

F. Net Investment in Capital Assets

	Governmental	Business-type
Capital Assets	\$ 1,472,576	\$ 4,723,897
less: long-term debt	-	766,372
add: unexpended debt proceeds	-	-
Net investment in capital assets	<u>\$ 1,472,576</u>	<u>\$ 3,957,525</u>

Notes to the Financial Statements (continued)

G. Fund Balance

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation:

Total fund balance - General Fund	\$ 1,479,879
Less:	
Stabilization by State Statute	169,605
Subsequent year's expenditures	285,522
Law enforcement	8,618
Streets - Powell Bill	164,145
Remaining Fund Balance	<u><u>\$ 851,989</u></u>

The outstanding encumbrances are amounts needed to pay any commitments related to purchase orders and contracts that remain unperformed at year-end.

Encumbrances	General Fund	Non-Major Funds
	\$0	

IV. Jointly Governed Organization

The Town, in conjunction with nine counties and sixty-five other municipalities is a member of the Centralina council of Government (Council). The Council coordinates various funding received from Federal and State agencies. Each participating government appoints one member to the Council's governing body. The Town paid \$750 to the Council during the fiscal year ended June 30, 2019 for membership fees.

V. Summary Disclosure of Significant Contingencies

Federal and State Assisted Programs

The Town has received proceeds from several federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

VI. Significant Effects of Subsequent Events

Subsequent events occurring after the statement of financial position date have been evaluated through October 15, 2019, which is the date the financial statements were available to be issued.

The Town has entered into an agreement to transfer all assets and liabilities of the Water / Sewer Fund as of January 1, 2020 to Union County.

**Report On Internal Control Over Financial Reporting And On Compliance and Other Matters Based
On An Audit Of Financial Statements Performed In Accordance With *Government Auditing
Standards***

Independent Auditor's Report

To the Honorable Mayor and
Town Board
Town of Marshville, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund of the Town of Marshville, North Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprises the Town of Marshville's basic financial statements, and have issued our report thereon dated October 15, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Marshville's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Marshville's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Marshville's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in the accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
