Independent Auditor's Report

To the Honorable Mayor and Members of the Board Spring Lake, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Spring Lake, North Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information of the Town of Spring Lake, North Carolina as of June 30, 2019, and the respective changes in financial position and cash flows, where appropriate, thereof and the respective budgetary comparison for the General Fund for the year ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 through 10, the Other Postemployment Benefits' Schedules of Changes in the Total OPEB Liability and Related Ratios, on page 61, the Local Government Employee's Retirement System's Schedules of the Proportionate Share of the Net Pension Liability and Contributions, on pages 57 and 58, respectively, the Law Enforcement Officers' Special Separation Allowance schedules of the changes in total Pension Liability and Total Pension Liability as a Percentage of covered Payroll on pages 59 and 60 be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of the Town of Spring Lake, North Carolina. The combining and individual fund statements, budgetary schedules and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements, budgetary schedules, and other schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the procedures performed as described above, the combining and individual fund financial statements, budgetary schedules, and other schedules are fairly stated in, all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

S. Prestra Douglas ; Vossouta, Lel

In accordance with Government Auditing Standards, we have also issued our report dated August 10, 2020 on our consideration of the Town of Spring Lake's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements, and other matters. The purpose of the report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Town of Spring Lake's internal control over financial reporting and compliance.

Lumberton, North Carolina

August 10, 2020

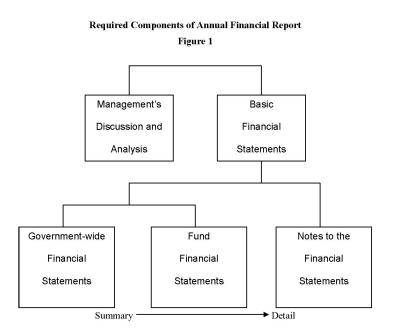

As management of the Town of Spring Lake, we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town of Spring Lake for the fiscal year ending June 30, 2019. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

Financial Highlights

- The assets and deferred outflows of resources of the Town of Spring Lake exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$9,848,222 (net position).
- The government's total net position increased in the amount of \$118,907, primarily due to net position increase of \$219,025 in business-type activities.
- As of the close of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$1,984,112, with a net decrease of \$817,894. Approximately 52.18% of this total amount, or \$1,035,271, is available for spending at the government's discretion.
- Attributing factors causing the decrease in the General Fund's fund balance for the fiscal year ended June 30, 2019 consisted of the following: 1) the Town spent \$359,532 for completion of the splash pad, 2) the Town spent \$303,159 for nondepartmental capital outlay purchases, and 3) unreimbursed Hurricane Florence-related expenditures.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$1,142,016 or 14.08% of total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Spring Lake's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report also contains other supplementary information that will enhance the reader's understanding of the financial condition of the Town of Spring Lake.

Financial Statements

The first two statements in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Town's financial status.

The next statements are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements.

There are three parts to the Fund Financial Statements: 1) the governmental funds statements, 2) the budgetary comparison statements, and 3) the proprietary fund statements.

The next section of the basic financial statements is the **Notes to the Financial Statements**. The notes explain in detail some of the data contained in those statements. After the notes, additional information is provided to show details about the Town's individual funds. Budgetary information required by the N.C. General Statutes can also be found in this part of the statements.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, in a manner similar to the private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how they have changed. Net position is the difference between the Town's total assets and deferred outflows and total liabilities and deferred inflows. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities, 2) business-type activities. The governmental activities include most of the Town's basic services such as general government, public safety, highways/streets, sanitation, economic development, culture and recreation, and debt service. Property taxes and State and federal grant funds finance most of these activities. The business-type activities are those that the Town charges customers to provide. This includes the water and sewer services offered by the Town of Spring Lake.

The government-wide financial statements can be found on pages 11 and 12 of this report.

Fund Financial Statements. The fund financial statements provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Spring Lake, like other state and local governments, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance. All of the funds of the Town can be divided into two categories, governmental funds and proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and monies that are unexpended at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting*, which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps determine if there are more or less financial resources available to finance the Town's programs. The relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Spring Lake adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities.

Governmental Funds (continued). The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document.

The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Funds. The Town of Spring Lake maintains one type of proprietary fund called an Enterprise Fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses the enterprise fund to account for its water, sewer, sanitation, and stormwater activity.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer Fund, Sanitation Fund, and Stormwater Fund, which are considered major funds of the Town.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21-56 of this report.

Supplementary Information. The combining statements, referred to earlier about non-major governmental funds and details of the enterprise funds, can be found on pages 62-81 of this report.

Government-Wide Financial Analysis (continued)

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The assets of the Town exceeded liabilities by \$9,848,222 at the close of the current fiscal year.

By far the largest portion of the Town's net position, 104.75%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, and infrastructure); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should note that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of net position, 9.10%, represents the Town's resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position is \$(1,980,484) or (20.11)% of the total.

Ad valorem taxes were the largest revenue contributor for the governmental funds with 44.85% of total revenues. Unrestricted intergovernmental revenues were the next largest at 43.94%.

Government-Wide Financial Analysis (continued)

Capital and operating grants for governmental activities furnished resources to support the five functions of the Town: general government, public safety, transportation, cultural and recreation, and non-departmental.

Business-type activities. Business-type activities increased the Town's net position by \$219,025. In the prior fiscal year, business-type activities net position decreased by \$8,850. Key elements of the change in net position compared to prior year are as follows:

- Transfers to other funds decreased by \$387,938 compared to the prior year.
- Total revenues increased by \$501,225 compared to the prior year.
- Total expenses increased by \$661,288 compared to the prior year.

Financial Analysis of the Government's Funds

As noted earlier, the Town of Spring Lake uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported a combined fund balance of \$1,984,112. Of this total amount, \$1,035,271 constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that funds are not available for spending because these funds have already been committed 1) to liquidate contracts and purchase orders of the prior year, or 2) for a variety of other restricted purposes.

The General Fund is the principal operating fund of the Town of Spring Lake. At the end of the fiscal year, unassigned fund balance for the General Fund was \$1,142,016 with a total fund balance of \$1,796,644. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 14.08% of total General Fund expenditures.

Proprietary Funds. The Town of Spring Lake's proprietary fund provides the same type of information found in the governmental-wide financial statements, but in more detail.

Unrestricted net position of the Water and Sewer Fund at the end of the fiscal year amounted to \$897,244. Unrestricted net position of the Sanitation Fund at the end of the fiscal year amounted to \$337,067. Unrestricted net position of the Stormwater Fund at the end of the fiscal year amounted to \$410,007. Other factors concerning this fund have been discussed in the Town's business-type activities.

General Fund Budgetary Highlights

During the fiscal year, the Town revised the budget on several occasions. Generally, budget amendments fall into one of three categories:

- Amendments that adjust for the estimates that are prepared for the original budget ordinance, which reflect actual cost.
- Amendments that recognize new funding from external sources, such as federal and State grants.
- Amendments that appropriate increases that becomes necessary to maintain services and obligations from prior years not completed.

Capital Assets and Debt Administration

The Town of Spring Lake's investments in capital assets for its governmental and business-type activities as of June 30, 2019, totals \$17,037,046 (net of accumulated depreciation). The investments in capital assets includes buildings, land, infrastructure, machinery and equipment, park facilities, and vehicles.

Additional information on the Town's capital assets can be found in the notes on page 31 of this report.

Long-term debt. At the end of the current fiscal year, the Town of Spring Lake had total bonded debt outstanding of \$6,157,182.

North Carolina's General Statutes limit the amount of general obligation debt that a governmental unit can issue to 8 percent of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for the Town of Spring Lake is presently at \$37,463,004 (the amount of additional debt the town could obligate itself to under NC General Statute).

Additional information pertaining to the Town of Spring Lake's long-term debt can be found in the notes on page 49 of this report.

Economic Factors and Next Year's Budgets and Rates

The following economic indicators reflect the growth of the Town:

- Courtyard by Marriott, a 61,885 square foot full service, four (4) story, one hundred (100) room hotels on North Fifth Street, opened in late December 2016. The total cost of construction was approximately \$8,050,000, with an approximate land value of \$157,000. Out of town visitors to the area and to Fort Bragg are the most frequent users.
- Major Roadway improvements related to the U-4444B DOT Project are just about completed with only
 small landscaping and signage issues remaining. The NCDOT is in the planning phase with officials of the
 Fort Bragg Military Reservation to provide a new access gate in the vicinity of Odell Road within the
 corporate limits for the Town of Spring Lake. This new access will allow a more direct access from Fort
 Bragg into the Spring Lake commercial corridor when completed.
- Freedom Plaza, a 7,306 square foot commercial strip center was recently completed on North Bragg Boulevard for use by restaurants, retail shops and other business purposes. The total cost of construction is approximately \$287,500 (shell only), with an approximate land value of \$205,481.
- Trojan Plaza, a 4,400 square foot commercial strip center has been completed on North Bragg Boulevard for use by restaurants, retail shops and other business purposes. The total cost of construction was \$300,000, with an approximate land value of \$165,000.
- Construction continues in the Balsawood Development, the Town's first "green community". Currently, fourteen (14) of the twenty (20) single family dwellings have been completed and certificates of occupancies issued. The cost of construction for each single-family dwelling is approximately \$115,000, not including land value. There are six (6) remaining single-family dwellings to be built. In addition, future plans also call for eight (8) condominium units to be constructed.
- Green Construction is a continuing theme is this community; new construction is beginning on Elizabeth and Morehead Streets respectively. There will be a total of 15 homes and will have a market sales value of over \$115,000 thus raising the land value of an area which was previously owned by the Town of Spring Lake. This is a \$1,500,000 investment into the community.
- Shoppes at the Waterford and Trades at the Waterford strip mall has been erected on Hwy 210. This space has over 9,600 square feet of rentable retail as well as manufacturing spaces with a construction cost of \$1,000,000. Currently the owners of this facility are working with the Economic Development Nonprofit program to help aid in the recruiting of 5 named projects into the Town of Spring Lake. This will be \$6,500,000 investment over five years and will create 280 jobs.
- A regional grocery store chain, Compare Foods, has completed renovation efforts at the Southwind Plaza Shopping Center on North Bragg Boulevard with an approximate location size of 25,000 square feet.
- A regional fast food restaurant, Cookout, has been completed on Highway 210. The total cost of construction is approximately \$820,862, with an approximate land value of \$175,247.

Budget Highlights for the Fiscal Year Ended June 30, 2020

Governmental Activities. In order to continue the Town's current level of service to its citizens, the Town's ad valorem tax rate remained the same at \$0.70. In addition, the budget included continued funding for an additional part time Senior Center Assistant position. A Cost of Living Adjustment (COLA) of 1.5% for all Governmental Town employees will be instituted beginning with the January 7, 2020 pay period.

Technology improvements will continue to be at the forefront of future Town budgets. The Town is currently continuing to review upgrading its existing financial software. All software purchased will be and fully integrated with improved reporting and document imaging and archiving capabilities.

Business-Type Activities. The Water and Sewer Fund will include a project to support the annual replacement of 1 (one) of 6 (six) aerators at the waste water treatment plant on an annual basis.

The Stormwater Fund has a proposed Flooding Remediation Project that had been placed on hold. The cost is between \$70k and \$100k.

The Sanitation Fund does not have any new projects planned at the present time.

Request for Information

This financial report is designed to provide a general overview of the Town of Spring Lake's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Director of Finance, Town of Spring Lake, P.O. Box 617, Spring Lake, NC 28390.

Town of Spring Lake, North Carolina Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds		\$ (817,894)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		
Capital outlay expenditures which were capitalized \$ Depreciation expense for governmental assets	735,544 (272,905)	462,639
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities		460,157
Benefit payments paid and administrative expense for the LEOSSA are not included on the Statement of Activities		54,748
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. Change in unavailable revenue for tax revenues		(1,360)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has an effect on net position Also, governmental funds report the effect of issuance costs, premium discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activitic This amount is the net effect of these differences in the treatment of long-term debt and related items. Principal payments on long-term debt	ns,	
(Increase) decrease in accrued interest payable	61,084	249,297
Consolidation adjustment for the Internal Service Fund Net revenue (expense) of the internal service fund		19,362
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Compensated absences LEO revenue (expense) OPEB plan expense	184,044 11,918 (252,578)	
Pension revenue (expense)	(470,451)	 (527,067)
Total changes in net position of governmental activities		\$ (100,118)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Spring Lake, North Carolina ("the Town") conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A - Reporting Entity

The Town of Spring Lake is a municipal corporation that is governed by an elected mayor and a five-member Board of Aldermen. As required by generally accepted accounting principles, these financial statements include all funds, account groups, agencies, boards, commissions, and authorities that are controlled by or are financially independent upon the Town.

B - Basis of Presentation

Government-wide Statements: The Statement of Net Position and Statement of Activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the Statement of Activities. Program revenues include (a) fees and charges paid by the recipients of goods and services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of the fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from the exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The Town reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, state grants, and various other taxes and licenses. Primary expenditures are for public safety, general governmental services, and street maintenance.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B - Basis of Presentation - Fund Accounting (continued)

The Town reports the following non-major governmental funds:

Spring Fling Fund - This fund accounts for the receipt of donations and expenditures on the celebration of the opening of baseball season.

Public Safety Grants and Projects Fund - This fund accounts for the receipt of public safety operating and capital grants and the related expenditures.

Recreation Capital Projects Fund - This fund accounts for the receipt of capital grants and the related expenditures.

Street Capital Projects Fund - This fund accounts for the receipt of installment purchase proceeds and the related expenditures for street projects.

The Town reports the following major enterprise funds:

Water and Sewer Fund - This fund is used to account for the Town's water and sewer operations.

Sanitation Fund - This fund is used to account for those operations involved in the collection and disposal of solid waste for the citizens of the Town.

Stormwater Fund - This fund is used to account for the design, construction, and operations of drainage and stormwater services for the Town.

The Town reports the following fund types:

Internal Service Fund - This fund is used to account for the accumulation and allocation of costs associated with the Town's vehicle maintenance needs.

C - Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C - Measurement Focus and Basis of Accounting (continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town enterprise funds are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad Valorem taxes receivable are not accrued as a revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2015, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts.

Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2015 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Sales taxes are considered shared revenue for the Town of Spring Lake because the tax is levied by Cumberland County and then remitted to and distributed by the State. Most intergovernmental revenue and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. Grant revenue that is unearned at year-end is recorded as deferred revenue.

D - Budgetary Data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General and the Enterprise Funds. All annual appropriations lapse at the fiscal-year end. Project ordinances are adopted for Special Revenue Funds and Capital Projects Funds. The Enterprise Fund projects are consolidated with their respective operating funds for reporting purposes. The Fleet Maintenance Fund, an internal service fund, operates under a financial plan that was adopted by the governing board at the time the Town's budget ordinance was approved, as is required by the General Statutes. Expenditures may not legally exceed appropriations at the departmental level for all annually budgeted funds and at the object level for the multi-year funds. The Town Manager is authorized to transfer up to 10 percent of any department's appropriation to any other department within the same fund. Any interfund transfer must be approved by the governing board. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E - Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

1. Deposits and Investments

All deposits of the Town are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Town may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain nonguaranteed federal agencies; certain high quality issues of commercial paper and banker's acceptances and the North Carolina Capital Management Trust (NCCMT).

The Town of Spring Lake's investments with a maturity of more than one year at acquisition and non-money market investments are reported at fair value as determined by quoted market prices. The NCCMT Government Portfolio, a SEC-registered (2a7) money market mutual fund, are valued at fair value, which is the NCCMT's share price. The NCCMT Term Portfolio's securities are valued at fair value.

Money market investments that have a remaining maturity at the time of purchase of one year or less are reported at amortized cost. Non-participating interest earnings and investment contracts are reported at cost.

In accordance with State law, the Town of Spring Lake has invested in securities that are callable and which provide for periodic interest rate increases in specific increments until maturity. These investments are reported at fair value as determined by quoted market prices.

2. Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

3. Restricted Assets

Customer deposits held by the Town before any services are supplied are restricted to the service for which the deposit was collected.

Town of Spring Lake's Restricted Cash

Business-type activities:

Water and Sewer Fund	
Customer deposits	\$ 349,521
Total business-type activities	 349,521
Total restricted cash	\$ 349,521

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E - Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (continued)

4. Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Town levies ad valorem taxes other than motor vehicles on July 1, the beginning of the fiscal year. The taxes are due on September 1 (lien date); however, interest does not accrue until the following January 6th. These taxes are based on the assessed values as of January 1, 2018. As allowed by State law, the Town has established a schedule of discounts that apply to taxes that are paid prior to the due date. In the Town's General Fund, ad valorem tax revenue is reported net of such discounts.

5. Allowance for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

6. Inventories

Inventories are maintained for all enterprise fund material and supplies held for subsequent use. The inventories are valued at the lower of cost or net realizable value (first-in, first-out method), and the cost is expensed when consumed rather than when purchased.

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain threshold and an estimated life in excess of two years. Minimum capitalization costs are \$5,000 for all asset categories. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Estimated Useful Lives
Buildings	40
Other improvements	5 - 40
Furniture and equipment	5 - 10
Vehicles	5 - 10

8. <u>Deferred Outflows/Inflows of Resources</u>

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has one item that meet this criterion – pension related deferrals for the 2019 fiscal year. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has two items that meet the criteria for this category – property taxes receivable and pension related deferrals.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E - Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (continued)

9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method that approximates the effective interest method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Compensated Absences

The vacation policy of the Town provides for the accumulation of up to thirty (30) days of earned vacation leave with such leave being fully vested when earned. For the Town's government-wide and proprietary funds, an expense is recorded and a liability for compensated absences and the salary-related payments are recorded as the leave is earned. The Town has assumed a first-in, first-out method of using accumulated compensated time. The portion of that time that is estimated to be used in the next fiscal year has been designed as a current liability in the government-wide financial statements.

The Town's sick leave policy provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Town does not have any obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

11. Net Position / Fund Balances

Net Position

Net position in government-wide and proprietary fund financial statements are classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E - Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (continued)

11. Net Position / Fund Balances (continued)

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State Statute – North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget. Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as nonspendable. Outstanding Encumbrances are included within RSS. RSS is included as a component of Restricted Net Position and Restricted fund balance on the face of the balance sheet.

Restricted for Streets – Powell Bill portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds.

Restricted for Public Safety – portion of fund balance that is associated with public safety grants.

Restricted for Capital Projects – portion of fund balance that is restricted for capital projects (Street Capital Project and Recreation Capital Project).

Committed Fund Balance – portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of the Town's governing body. The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken to remove or revise the limitation.

Assigned fund balance – portion of fund balance that the Town intends to use for specific purposes.

Unassigned Fund Balance – portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Town of Spring Lake has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Director will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-town funds, town funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and, lastly, unassigned fund balance. The Finance Director has the authority to deviate from this policy if it is in the best interest of the Town.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E - Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (continued)

12. Defined Benefit Cost-Sharing Plans

For purposes of measuring the net pension asset, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Town of Spring Lake's employer contributions are recognized when due and the Town of Spring Lake has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A - Noncompliance with North Carolina General Statutes

None

B - Deficit in Fund Balance or Net Position of Individual Funds

None

C - Excess of Expenditures over Appropriations

Recreation Capital Projects Fund:				
Expenditures		892,550	898,801	(6,251)

These over-expenditures occurred because of unplanned operating expenditures. Management and the Board will more closely review the budget reports to ensure compliance in future years.

NOTE 3 - DETAIL NOTES ON ALL FUNDS

A - Assets

1. Deposits

All the deposits of the Town are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the Federal Deposit Insurance Coverage level are collateralized with securities held by the Town's agents in this unit's names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town, these deposits are considered to be held by the Town. The amount of the pledged collateral is based on an approved averaging method for non-interest-bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town under the Pooling Method, the potential exists for under collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Town has no policy regarding custodial risk for deposits.

At June 30, 2019, the Town's deposits had a carrying amount of \$698,709 and a bank balance of \$603,705. Federal Deposit Insurance covered the bank balance of the Town. At June 30, 2019, the Town's petty cash amounted to \$1,014.

2. <u>Investments</u>

Investments by Type	Valuation Meas urement Method	Book Value at 6/30/2019	Maturity	Rating
NC Capital Management Trust -			,	8
Government Portfolio	Amortized Cost	\$ 2,266,287	N/A	AAAm
NC Capital Management Trust -				
Term Portfolio	Fair Value Level 1	1,053,485	June 30, 2019	Unrated
Total:		\$ 3,319,772		

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

A - Assets (continued)

2. <u>Investments (continued)</u>

All investments are measured using the market approach: using prices and other relevant information generated by market transactions involving identical or comparable assets or a group of assets.

Level of fair value hierarchy: Level 1: Debt securities valued using directly observable, quoted prices (unadjusted) in active markets for identical assets.

Investment Rate Risk. The Town has no policy regarding investment rate risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Town's internal investment policy limits at least half of the Town's investment portfolio to maturities of less than 12 months. Also, the Town's internal management policy requires purchases of securities to be laddered with staggered maturity dates and limits all securities to a final maturity of no more than two years.

Credit Risk. The Town has no policy regarding credit risk. The Town's investment in the NC Capital Management Trust Government Portfolio carried a credit rating of AAAm by Standard & Poor's as of June 30, 2019. The Town's investment in the NC Capital Management Trust Term Portfolios is unrated. The Term Portfolio is authorized to invest in obligations of the U.S. government and agencies, and in high grade money market instruments as permitted under North Carolina General Statutes 159-30 as amended.

Custodial Credit Risk. The Town has no policy on custodial credit risk.

Concentration of Credit Risk. The Town places no limit on the amount that the Town may invest in any one issuer.

3. Receivables - Allowance for Doubtful Accounts

The amounts presented in the Balance Sheet and the Statement of Net Position for the year ended June 30, 2019 are net of the following allowance for doubtful accounts:

General Fund:	
Taxes receivable	\$ 120,000
Total General Fund	 120,000
Enterprise Fund:	
Water and Sewer Fund - accounts receivable	569,804
Total Enterprise Fund	569,804
Total	\$ 689,804

B - Liabilities

1. Pension Plan and Postemployment Obligations

a. Local Governmental Employees' Retirement System

Plan Description. The Town of Spring Lake is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Town of Spring Lake employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Town of Spring Lake's contractually required contribution rate for the year ended June 30, 2019, was 8.50% of compensation for law enforcement officers and 7.75% for general employees, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Town of Spring Lake were \$575,196 for the year ended June 30, 2019.

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

1. Pension Plan and Postemployment Obligations (continued)

a. Local Governmental Employees' Retirement System (continued)

Refunds of Contributions – Town employees, who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Town reported a liability of \$1,502,640 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017. The total pension liability was then rolled forward to the measurement date of June 30, 2018 utilizing update procedures incorporating the actuarial assumptions. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2018, the Town's proportion was 0.06334%, which was a decrease of 0.00666% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the Town recognized pension expense (revenue) of \$588,066. At June 30, 2019, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred utflows of	_	ferred lows of	
	R	esources	Resources		
Differences between expected and actual experience	\$	231,822	\$	7,779	
Changes of assumptions		398,743		-	
Net difference between projected and actual earnings on					
pension plan investments		206,268		-	
Changes in proportion and differences between Town					
contributions and proportionate share of contributions		441,125		-	
Town contributions subsequent to the measurement date		575,196		-	
Total	\$	1,853,154	\$	7,779	

\$575,196 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as an increase of the net pension asset in the year ended June 30, 2020. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2019	\$ 575,748
2020	396,053
2021	143,213
2022	155,165
2023	-
Thereafter	-

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

- 1. Pension Plan and Postemployment Obligations (continued)
- a. Local Governmental Employees' Retirement System (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Actuarial Assumptions. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.0 percent

Salary increases 3.50 to 8.10 percent, including inflation and

productivity factor

Investment rate of return 7.00 percent, net of pension plan investment

expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2017 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2018 are summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	100.0%	
Alternatives Credit Inflation Protection	8.0% 7.0% 6.0%	8.9% 6.0%

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

- 1. Pension Plan and Postemployment Obligations (continued)
- a. Local Governmental Employees' Retirement System (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The information above is based on 30 year expectations developed with the consulting actuary for the 2017 asset, liability, and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town's proportionate share of the net pension asset to changes in the discount rate. The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the Town's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate:

	1%		Discount		1%		
	Decrease (6.00%)		Rate (7.00%)		Increase (8.00%)		
Town's proportionate share of the net							
pension liability (asset)	\$	3,609,475	\$	1,502,640	\$	(257,862)	

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

- 1. Pension Plan and Postemployment Obligations (continued)
- b. Law Enforcement Officers' Special Separation Allowance
- 1. Plan Description.

The Town of Spring Lake administers a public employee retirement system (the Separation Allowance), a single-employer defined benefit pension plan that provides retirement benefits to the Town's qualified sworn law enforcement officers under the age of 62 who have completed at least 30 years of creditable service or have attained 55 years of age and have completed five or more years of creditable service. The Separation Allowance is equal to 0.85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

All full-time County law enforcement officers are covered by the Separation Allowance. At December 31, 2017, the Separation Allowance's membership consisted of:

Retirees and dependents receiving benefits	5
Active plan members	27
Total	32

2. Summary of Significant Accounting Policies

Basis of Accounting. The Town has chosen to fund the Separation Allowance on a pay-as-you-go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

The Separation Allowance has no assets accumulated in a trust that meets the following criteria which are outlined in GASB Statements 73:

3. Actuarial Assumptions

The entry age actuarial cost method was used in the December 31, 2017 valuation. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50 percent

Salary increases 3.50 to 7.35 percent, including inflation and

productivity factor

Discount rate 3.64 percent

The discount rate is based on the yield of the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2017. Mortality rates are based on the RP-2000 Mortality tables with adjustments for mortality improvements based on Scale AA.

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

- 1. Pension Plan and Postemployment Obligations (continued)
- b. Law Enforcement Officers' Special Separation Allowance (continued)

4. Contributions

The Town is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the amounts necessary to cover the benefits earned on a pay as you go basis through appropriations made in the General Fund operating budget. There were no contributions made by employees. The Town's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Administration costs of the Separation Allowance are financed through investment earnings. The Town paid \$54,748 as benefits came due for the reporting period.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Town reported a total pension liability of \$306,294. The total pension liability was measured as of December 31, 2018 based on a December 31, 2017 actuarial valuation. The total pension liability was then rolled forward to the measurement date of December 31, 2018 utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2019, the Town recognized pension expense of \$4,588.

	Deferred		Deferred	
	Ou	Outflow of		iflows of
Defferences between expected and actual experience	\$	-	\$	168,038
Changes of assumptions		18,870		12,789
Town benefit payments and plan administrative				
expense made subsequent to the measurement date		54,748		
Total	\$	73,618	\$	180,827

\$0 reported as deferred outflows of resources related to pensions resulting from benefit payments made and \$0 administrative expenses incurred subsequent to the measurement date will be recognized as a decrease of the total pension liability in the year ended June 30, 2020. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2020	\$ (36,434)
2021	(36,434)
2022	(36,310)
2023	(35,935)

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

1. Pension Plan and Postemployment Obligations (continued)

c. Supplemental Retirement Income Plan for Law Enforcement Officers

Plan Description. The Town contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers employed by the Town. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy. Article 12E of G.S. Chapter 143 requires the Town to contribute each month an amount equal to five percent of each officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan. Contributions for the year ended June 30, 2019 were \$73,431, which consisted of \$56,871 from the Town and \$16,560 from the law enforcement officers. No amounts were forfeited.

d. Supplemental Retirement Income Plan for Non-Law Enforcement Employees

Plan Description. The Town contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to non-law enforcement officers employed by the Town.

Funding Policy. The Town's plan requires the Town to contribute each month an amount equal to two percent of each eligible employee's salary, and all amounts contributed are vested immediately. Also, employees may make voluntary contributions to the plan. Contributions for the year ended June 30, 2019 were \$85,037, which consisted of \$54,687 from the Town and \$30,350 from the employees. No amounts were forfeited.

e. Firefighters' and Rescue Squad Workers' Pension Fund

Plan Description. The State of North Carolina contributes, on behalf of the Town of Spring Lake, to the Firefighters' and Rescue Squad Workers' Pension Fund (FRSWPF), a cost-sharing multiple-employer defined benefit pension plan with a special funding situation administered by the State of North Carolina. FRSWPF provides pension benefits for eligible fire and rescue squad workers who have elected to become members of the fund. Article 86 of G.S. Chapter 58 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the state Senate, one appointed by the state House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Firefighters' and Rescue Squad Workers' Pension Fund is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for the Firefighters' and Rescue Squad Workers' Pension Fund. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

1. Pension Plan and Postemployment Obligations (continued)

e. Firemen's and Rescue Squad Workers' Pension Fund (continued)

Benefits Provided. FRSWPF provides retirement and survivor benefits. The present retirement benefit is \$170 per month. Plan members are eligible to receive the monthly benefit at age 55 with 20 years of creditable service as a firefighter or rescue squad worker, and have terminated duties as a firefighter or rescue squad worker. Eligible beneficiaries of members who die before beginning to receive the benefit will receive the amount paid by the member and contributions paid on the member's behalf into the plan. Eligible beneficiaries of members who die after beginning to receive benefits will be paid the amount the member contributed minus the benefits collected.

Contributions. Plan members are required to contribute \$10 per month to the plan. The State, a non-employer contributor, funds the plan through appropriations. The Town does not contribute to the plan. Contribution provisions are established by General Statute 58-86 and may be amended only by the North Carolina General Assembly. For the fiscal year ending June 30, 2019, the State contributed \$17,952,000 to the plan.

Refunds of Contributions. Plan members who are no longer eligible or choose not to participate in the plan may file an application for a refund of their contributions. Refunds include the member's contributions and contributions paid by others on the member's behalf. No interest will be paid on the amount of the refund. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by FRSWPF.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Town reported no liability for its proportionate share of the net pension liability, as the State provides 100% pension support to the Town through its appropriations to the FRSWPF. The total portion of the net pension liability that was associated with the Town and supported by the State was \$9,144. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017. The total pension liability was then rolled forward to the measurement date of June 30, 2019 utilizing update procedures incorporating the actuarial assumptions. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers. As the Town is not projected to make any future contributions to the plan, its proportionate share at June 30, 2019 was 0%.

For the year ended June 30, 2019, the Town recognized pension expense of \$2,001 and revenue of \$2,001 for support provided by the State. At June 30, 2019, the Town reported no deferred outflows of resources and no deferred inflows of resources related to pensions.

Actuarial Assumptions. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.0 percent
Salary increases Not applicable

Investment rate of return 7.00 percent, net of pension plan investment

expense, including inflation

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

1. Pension Plan and Postemployment Obligations (continued)

e. Firemen's and Rescue Squad Workers' Pension Fund (continued)

For more information regarding actuarial assumptions, including mortality tables, the actuarial experience study, the consideration of future ad hoc COLA amounts, the development of the projected long-term investment returns, and the asset allocation policy, refer to the discussion of actuarial assumptions for the LGERS plan in Section a. of this note.

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

f. Other Postemployment Benefits

Healthcare Benefits

Plan Description. Under the terms of a Town resolution, the Town administers a single-employer defined benefit Healthcare Benefits Plan (the HCB Plan). The plan provides postemployment healthcare benefits to retirees of the Town, provided they have at least 15 years of creditable service with the Town and at least 60 years of age, or 20 years of service and at least 60 years of age. Those employees retiring under disability must have 15 years of service with the Town. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

Membership of the HBC Plan consisted of the following at December 31, 2018, the date of the latest actuarial valuation:

	Employees	Consider the Law Enforcement Officers	Firefighters
Retirees and dependents receiving benefits	13	-	-
Active plan members	54	28	17
Total	67	28	17

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

1. Pension Plan and Postemployment Obligations (continued)

f. Other Postemployment Benefits (continued)

Funding policy: The Town currently charges Pre-65 retirees \$25 per month for healthcare and prescription drug coverage. The Town pays the remainder of the retirees' coverage. The Town also pays 100% of dental, vision, and life insurance for pre-65 and post-65 retirees. The Town pays the full cost of the Medicare supplemental policy, which includes Medicare Part D prescription drug coverage. The Town has chosen to fund the healthcare benefits on a pay-as-you-go basis.

Total OPEB Liability

The Town's total OPEB liability of \$4,693,525 was measured as of June 30, 2018 and was determined by an actuarial valuation as of that date. *Actuarial assumptions and other inputs*. The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation 2.50 percent

Salary increases 3.50 percent average, including inflation

Discount rate 3.89 percent

Healthcare cost trend rates Medical - 5.5%

Prescription - 7.50%

The discount rate is based on the yield of the S&P Municipal Bond 20 Year High Grade Rate Index as of the measurement date.

Changes in the Total OPEB Liability

	Total C	Total OPEB Liability		
Balance at June 30, 2018	\$	4,619,325

1. Pension Plan and Postemployment Obligations (continued)

f. Other Postemployment Benefits (continued)

Changes in assumptions and other inputs reflect a change in the discount rate from 3.56% to 3.89%.

Mortality rates were based on the RP-2014 Total Data Set for Healthy Annuitants Mortality Table.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period January 2010 through December 2014.

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the Town, as well as what the Town's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.89 percent) or 1-percentage-point higher (4.89 percent) than the current discount rate:

	1	% Decrease	Disco	ount Rate (3.89%)	1% Increase
Total OPEB liability	\$	3,842,667	\$	4,693,525	\$ 5,837,420

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The following presents the total OPEB liability of the Town, as well as what the Town's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	(Me	dical - 4.5% ,	Discour	nt Rate (Medical -	(Me	dical - 6.5% ,	
	Prescription - 6.50%, Admin Expenses - 2.00%)		5.5% , Prescription - 7.50% , Admin Expenses - 3.00%)		Prescription - 8.50%, Admin Expenses - 4.00%)		
Total OPEB liability	\$	5,676,818	\$	4,693,525	\$	3,933,140	

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the Town recognized OPEB expense of \$377,342. At June 30, 2019, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows		Deferred Inflows of	
	of R	esources	R	esources
Differences between expected and actual experience	\$	-	\$	60,194
Changes of assumptions		-		655,270
Total	\$	-	\$	715,464

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

1. Pension Plan and Postemployment Obligations (continued)

f. Other Postemployment Benefits (continued)

\$0 reported as deferred outflows of resources related to pensions resulting from benefit payments made and administrative expenses incurred subsequent to the measurement date will be recognized as a decrease of the total pension liability in the year ended June 30, 2020. Other amounts reported as deferred inflows of resources related to Pensions will be recognized in pension expense as follows:

2020	\$ (99,031)
2021	(99,031)
2022	(99,031)
2023	(99,031)
2024	(99,031)
Thereafter	(223,585)

2. Other Employment Benefits

The Town has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Government Employees' Retirement System (Death Benefit Plan), a multi-employer, State-administered, cost sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits, Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest months' salary in a row during the 24 months prior to the employees death, but the benefit may not exceed \$50,000 or be less than \$25,000. All death benefit payments are made from the Death Benefit Plan. The Town has no liability beyond the payment of the contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. The Town considers these contributions to be immaterial.

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

3. Deferred Outflows and Inflows of Resources

The Town has several deferred outflows of resources. Deferred outflows of resources is comprised of the following:

Source	-	Amount
Contributions to pension plan in current fiscal year	\$	575,196
Benefit payments made and administrative		
expenses for LEOSSA		54,748
Differences between expected ad actual experience		231,822
Changes of assumptions		417,613
Net difference between projected and actual		206,268
Changes in proprtion and differences between		
employer contributions and proportionate share		
of contributions		441,125
Total	\$	1,926,772

Deferred inflows of resources at year-end is comprised of the following:

	State	ment of Net	Gen	eral Fund
	P	osition	Bala	ince sheet
Taxes Receivable, less penalties (General Fund)	\$	-	\$	124,679
Changes in assumptions		668,059		=
Differences between expected and actual experience		236,011		-
Total	\$	904,070	\$	124,679

4. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates in three self-funded risk-financing pools administered by the North Carolina League of Municipalities. Through these pools, the Town obtains general liability and auto liability coverage of \$1 million per occurrence, property coverage up to the total insured values of the property policy, workers' compensation coverage up to statutory limits, and employee health coverage. The liability and property exposures are reinsured through commercial carriers for claims in excess of retentions as selected by the Board of Trustees each year. Stop loss insurance is purchased by the Board of Trustees to protect against large medical claims that exceed certain dollar cost levels. Specific information on the limits of the reinsurance, excess and stop loss policies purchased by the Board of Trustees can be obtained by contacting the Risk Management Services Department of the NC League of Municipalities. The pools are audited annually by certified public accountants, and the audited financial statements are available to the Town upon request.

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

B - Liabilities (continued)

4. Risk Management (continued)

In accordance with G.S. 159-29, the Town's employees that have access to \$100 or more at any given time of the Town's funds are performance bonded through a commercial surety bond. The Finance Director is individually bonded for \$135,000 and the tax collector is bonded for \$25,000. The remaining employees that have access to cash are covered under a blanket insurance policy for \$50,000.

The Town carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage in the prior year, and settled claims have not exceeded coverage in any of the past three fiscal years.

The Town does not carry flood insurance, as the Town does not feel that, based on the location of their assets, the added cost of flood insurance is justifiable.

5. Claims, Judgments and Contingent Liabilities

At June 30, 2019, the Town was a defendant to various lawsuits. In the opinion of the Town's management and the Town attorneys, the ultimate effect of these legal matters will not have a material adverse effect on the Town's financial position.

6. Long-Term Obligations

a. Installment Purchase

The Town has entered into various direct placement installment purchase contracts to finance the purchase of equipment, police cars, and fire protection equipment.

Notes payable included in the accompanying financial statements include the purchase of various equipment and construction of water lines. The Town's notes payable at June 30, 2019 are comprised of the following individual notes:

Governmental Activities:

Note payable to finance the Community Center due in annual installments of	
\$131,240 including interest at 4.125%.	\$ 2,155,703
Note payable to finance street paving project due in annual installments of	
\$150,000 including interest at 2.43%.	750,000
Total governmental activites	\$ 2,905,703

amount of \$234,241, closed on 7-27-16. Annual installments due for \$49,063 including					
interest at 1.56%.					
Total business-type activites		142,714			
Total installment purchases	\$	3,048,417			

b. General Obligation Indebtedness

The general obligation bonds and non-general obligation bonds issued to finance the construction of water and sewer systems facilities are being retired by the resources of the enterprise fund. Accordingly, these bonds are recorded as long-term debt in the Enterprise Fund. All general obligation bonds are collateralized by the full faith; credit, and taxing power of the Town. Principal and interest requirements are appropriated when due.

Bonds payable at June 30, 2019 are comprised of the following individual issues:

Serviced by the Water and Sewer Fund:

Water, Series 2008 Bonds (general obligation), issued February 19, 2008; principal installments ranging from \$9,000 to \$36,000, beginning June 1, 2008 through June 1, 2047; interest at 4.625%, payable annually.	\$ 693,000

As June 30, 2019, the Town had a legal debt limit margin of approximately \$37,463,004.

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

C - Interfund Balances and Activity

Transfers from/to other funds consist of the following:

	Amount
From the General Fund to the Fleet Maintenance Fund	\$ 149,983
From the Stormwater Fund to the General Fund	111,191
From the Sanitation Fund to the General Fund	75,000
From the Water and Sewer Fund to the Fleet Maintenance Fund	57,038
From the Stormwater Fund to the Fleet Maintenance Fund	28,868
From the Sanitation Fund to the Fleet Maintenance Fund	21,672
From the Water and Sewer Fund to the Post Retirement Insurance Fund	13,031
From the Water and Sewer Fund to the Stormwater Fund	8,596
	\$ 465,379

Interfund Transfers are used to move unrestricted revenues to programs in other funds in accordance with budgetary authorizations.

During FY 2018-2019, the Town made a budgeted interfund transfer of \$149,983 from the General Fund to the Water and Sewer Fund for overall and shared operations/expenses.

During FY 2018-2019, the Town made a budgeted interfund transfer of \$111,191 from the Stormwater Fund to the General Fund for overall and shared operations/expenses.

During FY 2018-2019, the Town made a budgeted interfund transfer of \$75,000 from the Sanitation Fund to the General Fund for overall and shared operations/expenses.

During FY 2018-2019, the Town made a budgeted interfund transfer of \$57,038 from the Water and Sewer Fund to the Fleet Maintenance Fund for overall and shared operations/expenses provided for the Water and Sewer Fund.

During FY 2018-2019, the Town made a budgeted interfund transfer of \$28,868 from the Stormwater Fund to the Fleet Maintenance Fund for operations/expenses provided for the Stormwater Fund.

During FY 2018-2019, the Town made a budgeted interfund transfer of \$21,672 from the Sanitation Fund to the Fleet Maintenance Fund for operations/expenses provided for the Sanitation Fund.

During FY 2018-2019, the Town made a budgeted interfund transfer of \$13,031 from the Water and Sewer Fund to the Post Retirement Insurance Fund for overall and shared operations/expenses.

During FY 2018-2019, the Town made a budgeted interfund transfer of \$8,596 from the Water and Sewer Fund to the Stormwater Fund for overall and shared operations/expenses.

NOTE 3 - DETAIL NOTES ON ALL FUNDS (continued)

D - Net Investment in Capital Assets

	Go	<u>vernmental</u>	<u> </u>	siness-Type
Capital assets	\$	7,238,257	\$	9,798,789
less: long-term debt		(2,905,703)		(3,251,479)
Net investment in capital asset	\$	4,332,554	\$	6,547,310

E - Fund Balance

The following schedule provides management and citizens with information on the portion of General Fund balance that is available for appropriation:

Total fund balance - General Fund	\$ 1,796,644
Less:	
Stabilization by State Statute	654,628
Remaining fund balance	\$ 1,142,016

The outstanding encumbrances are amounts needed to pay any commitments related to purchase orders and contracts that remain unperformed at year-end. There were no outstanding encumbrances at June 30, 2019.

NOTE 4 - JOINT VENTURES

The Town and the members of the Town's fire department each appoint two members to the five-member local board of trustees for the Firemen's Relief Fund. The State Insurance Commissioner appoints one additional member to the local board of trustees. The Firemen's Relief Fund is funded by a portion of the fire and lightening insurance premiums that insurers remit to the State. The State passes these monies to the local board of the Firemen's Relief Fund. The funds are used to assist fire fighters in various ways. The Town obtains an ongoing financial benefit from the Fund for the on-behalf of payments for salaries and fringe benefits made to members of the Town's fire department by the board of trustees. The participating governments do not have an equity interest in the joint venture, so no equity has been reflected in the financial statements at June 30, 2019. The Firemen's Relief Fund does not issue separate audited financial statements. Instead, the local board of trustees files an annual financial report with the State Firemen's Association. This report can be obtained from the Association at 323 West Jones Street, Suite 401, Raleigh, North Carolina 27603.

NOTE 5 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Federal and State Assisted Programs

The Town has received proceeds from several Federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant monies.

NOTE 6 - SUBSEQUENT EVENTS

Subsequent events were evaluated through August 10, 2020, which is the date the financial statements were available to be issued.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To the Honorable Mayor and Members of the Board Town of Spring Lake, North Carolina

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Spring Lake, North Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprises the Town of Spring Lake's basic financial statements and have issued our report thereon dated August 10, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Spring Lake's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Spring Lake's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be material weaknesses (item 2019-001, 2019-002, and 2019-003).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Spring Lake's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as item 2019-002.

The Town's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs and corrective action plan. The Town of Spring Lake's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Lumberton, North Carolina

Financial Statements							
Type of auditor's report issued:	Unmodified.						
Internal control over financial reporting:							
 Material weakness(es) identified? 	Xyes	no					
 Significant deficiency(s) identified that are not considered to be material weaknesses 	yes <u>X</u>	none reported					
Noncompliance material to financial statements	X yes	no					

Town of Spring Lake, North Carolina Schedule of Findings and Questioned Costs (continued) For the Year Ended June 30, 2019

Section II. Financial Statement Findings

MATERIAL WEAKNESS

Finding 2019-001 Segregation of Duties

Criteria: Duties should be segregated to provide reasonable assurance that transactions are handled

appropriately.

Condition: There is a lack of segregation among Town personnel.

Effect: The Town's internal control process cannot ensure that errors will be detected by

employees in the normal course of performing their assigned functions.

Cause: Two main causes include 1) the finance officer resigned in March, 2020 and 2) during fiscal

year FY18-19, accounting assistant position was eliminated. Both of these factors effected

the Town's ability to adequately segregate duties.

Repeat Finding: This was not reported as a finding in prior fiscal years.

Recommendation: The duties should be separated as much as possible, and alternative controls should be used

to compensate for lack of separation. If resources are available, the Town should consider

hiring additional staff or contracting with a reputative accounting firm.

Views of responsible officials and planned corrective actions:

The Town agrees with the finding and agrees to adhere to the correction action plan on page

89.

MATERIAL WEAKNESS

Finding 2019-002 Material Noncompliance

Excess of Expenditures over Appropriations

Criteria: N.C. General Statute 159-8(a) states that all moneys received and expended by a local

government should be included in the budget ordinance.

Condition: Various budget over-expenditures occurred in the General Fund, Water and Sewer Fund,

Public Safety Grants and Projects Fund, and Recreation Capital Projects Funds.

Effect: Expenditures were incurred that had not been budgeted.

Cause: The Town did not monitor reports at frequent intervals to ensure budgetary compliance.

Repeat Finding: This is a repeat finding, 2018-002.

Recommendation: Management should closely monitor the budget versus actual statements to ensure actual

expenditures are within budgetary constraints.

Views of responsible officials and planned corrective actions:

The Town agrees with the finding and agrees to adhere to the correction action plan on page

89.

Town of Spring Lake, North Carolina Schedule of Findings and Questioned Costs (continued) For the Year Ended June 30, 2019

Section II. Financial Statement Findings (continued)

MATERIAL WEAKNESS

Finding 2019-003 Bank Reconciliations

Criteria: The bank reconciliations were not performed on a timely basis during the fiscal year ended

June 30, 2019.

Condition: All 12-months of bank reconciliations for the fiscal year June 30, 2019 were not performed

on a timely basis.

Effect: Bank reconciliations serve as an important internal control over cash and can identify

errors, irregularities and other adjustments to improve accuracy of accounting records. When bank reconciliations are not performed on a timely basis there is a potential that the Town does not identify errors, irregularities and other adjustments to accounting records on

a timely basis.

Cause: During fiscal year FY18-19, accounting assistant position was eliminated. The accounting

assistance's primary responsibility was performing the bank reconciliations. After this position was eliminated, the previous Finance Director did not reassign this task until late in the fiscal year. The previous Finance Director used Hurricane Florence as the excuse for many finance-related tasks not getting completed on a timely basis. The previous Finance

Director left in March, 2020.

Repeat Finding: This was a previous finding, 2017-001.

Recommendation: We recommend that the Town consider hiring additional staff so that the current finance

staff will have the sufficient time to perform the bank reconciliations in a timely manner.

Views of responsible officials and planned corrective actions:

The Town agrees with the finding and agrees to adhere to correction action plan on page 89.

Corrective Action Plan
For the Year Ended June 30, 2019

MATERIAL WEAKNESS

Finding 2019-001 Segregation of Duties

Name of contact person: Daniel B. Gerald, Town Manager

Corrective Action During this auditing process the Town Finance Director resigned; so now the Town

has an employee doing the coding and handling the purchase orders as well as managing the balancing of accounts and bank statements while another employee that is responsible for accounts payable and payroll. We are also cross training so we can still function if one employee is out. By improving our processes, more than one employee knows what is going on and errors can be detected by the employees in the normal course of performing their assigned functions. The Town will continue to monitor its internal controls in an effort to alleviate inherent limitations placed on

small towns.

Proposed Completion Date: The Town will implement the above procedures immediately.

MATERIAL WEAKNESS

Finding 2019-002 Excess of Expenditures over Appropriations

Name of Contact Person: Daniel B. Gerald, Town Manager

Corrective Action: The Town will monitor the budget and expenditures and make amendments

accordingly. Additionally, the Town has implemented a spending freeze for the entire

budget year 2020-2021. Only essential equipment and utilities will be paid out.

Proposed Completion Date: The Town will implement the above procedures immediately.

MATERIALWEAKNESS

Finding 2019-003 Bank Reconciliations

Name of contact person: Daniel B. Gerald, Town Manager

Corrective Action: The responsible individual for completing the bank reconciliations will be the

interim Finance Director. As I stated earlier, the previous Finance Director eliminated the position responsible for performing bank reconciliations. As for a Town this size, when fund balance/net position improves, the accounting assistant position will be added back to the Town's approved position list. Lastly, current staff will take any available Local Government Financial courses and any upcoming School of Government Governmental Accounting and Financial Reporting Courses.

Proposed Completion Date: The Town has implemented the above procedures.
