Independent Auditors' Report

To the Honorable Mayor and
and Members of the Town Council
Cerro Gordo, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Cerro Gordo, North Carolina, as of and for the year then ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based upon our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Cerro Gordo, North Carolina as of June 30, 2020, and the respective changes in financial position and cash flows, where appropriate, thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Cerro Gordo's basic financial statements. The combining and individual fund statements, budgetary schedules, and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements, budgetary schedules, and other schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, the combining and individual fund financial statements, budgetary schedules, and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 15, 2021, on our consideration of the Town of Cerro Gordo's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of the report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Cerro Gordo's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Town of Cerro Gordo, we offer readers of the Town of Cerro Gordo's financial statements this narrative overview and analysis of the financial activities of the Town of Cerro Gordo for the fiscal year ended June 30, 2020. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

Financial Highlights

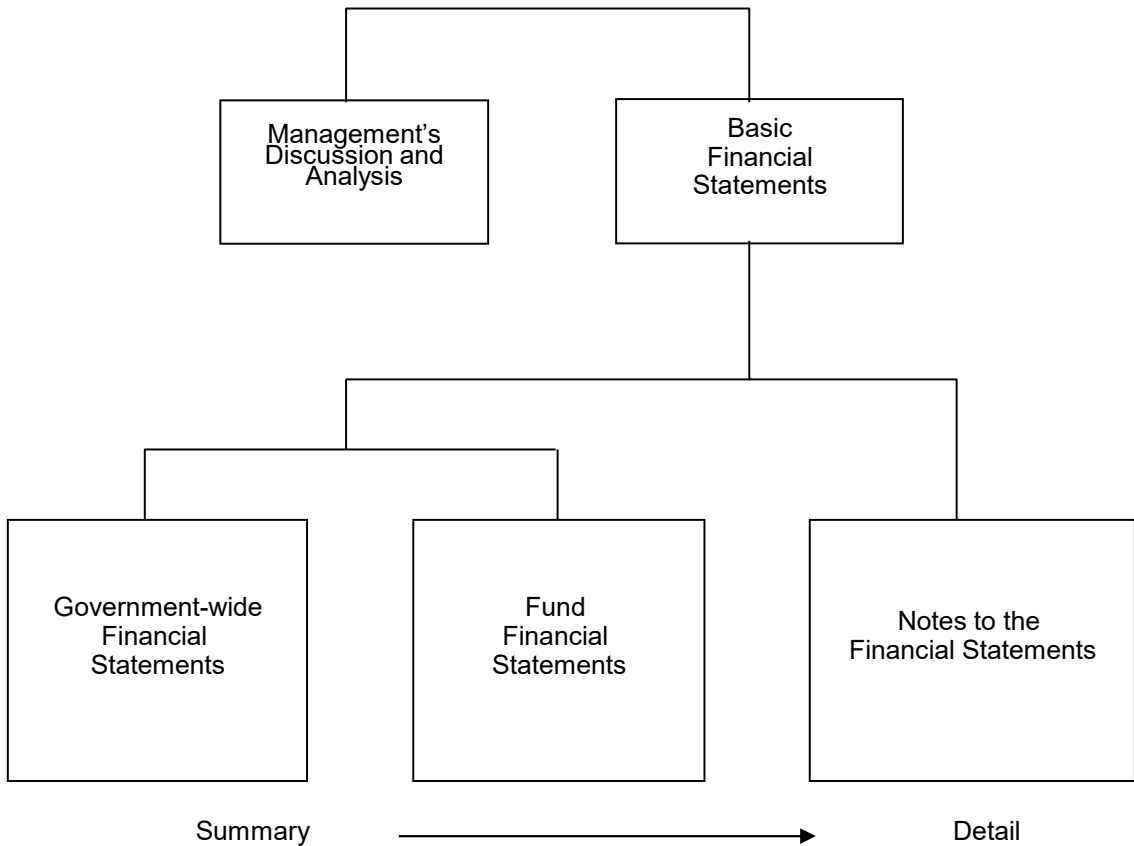

- The assets and deferred outflows of resources of the Town of Cerro Gordo exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$3,184,214 (*net position*).
- The government's total net position increased by \$9,239, due to an increased net position in governmental activities of \$101,921, and a decrease of \$92,682 in business-type activities net position. The increase in governmental activity was mainly due to receiving grants to finance the new Town Hall.
- At the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$177,539 with a net increase of \$18,969 in fund balance. Approximately 33.04 percent of this total amount, or \$58,667, is non spendable or restricted.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$118,872, or 82.80 percent of total general fund expenditures for the fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town of Cerro Gordo's basic financial statements. The Town's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Cerro Gordo.

Required Components of Annual Financial Report

Figure 1

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Town's financial status.

The next statements (Exhibits 3 through 9) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are three parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; and 3) the proprietary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Town's individual funds. Budgetary information required by the General Statutes also can be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how they have changed. Net position is the difference between the Town's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities; and 2) business-type activities. The governmental activities include most of the Town's basic services such as transportation, environmental protection, and general administration. Property taxes and state and federal grant funds finance most of these activities. The business-type activities are those that the Town charges customers to provide. These include the water and sewer services offered by Town of Cerro Gordo.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Cerro Gordo, like all other governmental entities, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance. All of the funds of Town of Cerro Gordo can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Cerro Gordo adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the Management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Funds – The Town of Cerro Gordo has one kind of proprietary fund. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town of Cerro Gordo uses enterprise funds to account for its water and sewer operations. These funds are the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements start after Exhibit 9.

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information. Required supplementary information can be found beginning at the schedules following directly after the notes.

Interdependence with Other Entities - The Town depends on financial resources flowing from, or associated with, both the Federal Government and the State of North Carolina. Because of this dependency, the Town is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State appropriations. It is also subject to changes in investment earnings and asset values associated with U.S. Treasury Securities because of actions by foreign government and other holders of publicly held U.S. Treasury Securities.

Government-Wide Financial Analysis

Other liabilities	358,801	33,997	7,895	5,073	366,696	39,070
Total liabilities and deferred inflows of resources	<u>\$ 358,801</u>	<u>\$ 33,997</u>	<u>\$ 7,895</u>	<u>\$ 5,479</u>	<u>\$ 366,696</u>	<u>\$ 39,070</u>
Net position:						
Net investment in capital assets related debt	\$ 708,350	\$ 625,497	\$ 2,229,850	\$ 2,304,063	\$ 2,938,200	\$ 2,929,560
Restricted	58,667	59,954	-	-	58,667	59,954
Unrestricted	119,786	99,431	67,561	86,030	187,347	185,461
Total net position	<u>\$ 886,803</u>	<u>\$ 784,882</u>	<u>\$ 2,297,411</u>	<u>\$ 2,390,093</u>	<u>\$ 3,184,214</u>	<u>\$ 3,174,975</u>

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Town of Cerro Gordo exceeded liabilities and deferred inflows by \$3,184,214 as of June 30, 2020. The Town's net position increased by \$9,239 for the fiscal year ended June 30, 2020. The Town's net investment in capital assets -- land, buildings, equipment and infrastructure totaling \$2,938,200 represents 92.27% of the total net position. The Town of Cerro Gordo uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. An additional portion of the Town of Cerro Gordo's net position, \$58,667, represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$187,347 is unrestricted, representing 5.88% of total net position.

Net position, June 30	\$ 919,940	\$ 784,882	\$ 2,264,274	\$ 2,390,093	\$ 3,184,214	\$ 3,174,975

Governmental activities. Governmental activities increased the Town's net position by \$135,058, mainly as a result of receiving grants to finance the construction of the new Town Hall.

Business-type activities: Business-type activities decreased Town of Cerro Gordo's net position by \$125,819. Key elements of this decrease are as follows:

* Depreciation Expense on Sewer Lines.

Financial Analysis of the Town's Funds

As noted earlier, the Town of Cerro Gordo uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town of Cerro Gordo's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town of Cerro Gordo's financing requirements.

The General Fund is the chief operating fund of the Town of Cerro Gordo. At the end of the current fiscal year, fund balance available in the General Fund was \$118,872, while total fund balance reached \$159,274. The Town currently has a available fund balance of 82.80% of general fund expenditures, while total fund balance represents 110.94% of the same amount. The Town does not have a fund balance policy.

At June 30, 2020, the governmental funds of Town of Cerro Gordo reported a fund balance of \$177,539 as compared to a fund balance of \$158,570 at June 30, 2019. The \$18,969 change in fund balance for the fiscal year ended June 30, 2020 represents an increase of 11.96% from the prior year balance.

General Fund Budgetary Highlights: During the fiscal year, the Town did not revise the budget. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Proprietary Fund. The Town of Cerro Gordo's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net position of the Water and Sewer Funds at the end of the fiscal year amounted to \$67,561. This represents a 21.47% decrease over the prior year balance of

Capital Asset and Debt Administration

Capital assets. The Town of Cerro Gordo's capital assets for its governmental and business – type activities as of June 30, 2020, totals \$2,938,200 (net of accumulated depreciation). These assets include land, buildings, infrastructure, equipment, and plant and distribution systems.

Town of Cerro Gordo's Capital Assets

Total	\$ 708,350	\$ 625,497	\$ 2,229,850	\$ 2,304,064	\$ 2,938,200	\$ 2,929,561

Major capital asset transactions during the year include the following:

- * Construction of a new Town Hall and Furniture and Equipment for new Town Hall

Additional information on the Town's capital assets can be found in the notes to the Financial Statements.

Long-term Debt. The Town of Cerro Gordo has no long-term debt as of June 30, 2020.

Economic Factors and Next Year's Budgets and Rates

Major changes for the economic outlook for the Town of Cerro Gordo are not anticipated, with the outlook generally unfavorable. Columbus County is currently experiencing an unemployment rate of approximately 7.7%, among the highest unemployment rates in the state. Two primary elements of the local economy, textiles and agriculture, have experienced significant losses in the past few years, resulting in a bleak economic outlook. The county administration is actively cultivating new alternatives to offset the dwindling impact of textiles and agriculture on the local economy. However, these efforts are more long range in nature and are not likely to produce significant improvements in the near term.

Budget Highlights for the Fiscal Year Ending June 30, 2021

Budgeted expenditures should roughly approximate 2019-2020 levels, with no major increases anticipated.

Business-type Activities: Both water and sewer rates will remain unchanged for fiscal year 2020-2021.

Requests for Information

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Finance Officer/Town Clerk, Town of Cerro Gordo, Post Office Box 26, Cerro Gordo, North Carolina 28430. One can also call (910)-654-5387 for more information.

The notes to the financial statements are an integral part of this statement.

Town of Cerro Gordo
Notes to the Financial Statements
For the Fiscal Year Ended June 30, 2020

I. Summary of Significant Accounting Policies

The accounting policies of the Town of Cerro Gordo conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Town of Cerro Gordo is a municipal corporation which is governed by an elected mayor and a five-member council. As required by generally accepted accounting principles, these financial statements present the Town.

B. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipient of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category – *governmental and proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies result from non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings.

The Town reports the following major governmental funds:

General Fund. The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, sanitation charges, State grants, and various other taxes and licenses. The primary expenditures are for street maintenance and construction, sanitation services and general governmental services.

Town Hall Project Fund. This fund is used to account for the FEMA and Golden Leaf grants received to assist in the construction of a new Town Hall after the damage from Hurricane Matthew.

The Town reports the following major enterprise funds:

Water Fund. This fund is used to account for the Town's water operations.

Sewer Fund. This fund is used to account for the Town's sewer operations.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the town's enterprise funds are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements. Governmental funds are reported under the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as a revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013, and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the beer and wine tax collected and held by the State at year-end on behalf of the Town are recognized as revenue. Sales taxes are considered a shared revenue for the Town because the tax is levied by Columbus County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes are reported as general revenues rather than program revenues. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. Budgetary Data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund and the Enterprise Funds. All annual appropriations lapse at the fiscal-year end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds. Amendments are required for any revisions that alter total expenditures of any fund or that change functional appropriations by more than \$1,000. All amendments must be approved by the governing board. The Budget Officer is authorized by the budget ordinance to transfer appropriations between line item expenditures within a department without limitation and without a report being required; however, these changes should not result in increases in recurring obligations such as salaries. The Budget Officer is also authorized to transfer appropriations up to \$1,000 between departments, including contingency appropriations, within the same fund. An official report of such transfers should be made at the next regular meeting of the Governing Board. The Budget Officer may not transfer appropriations between funds, except as approved by the Governing Board in the Budget Ordinance as amended. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

1. Deposits and investments

All deposits of the Town are made in board-designated official depositories and are secured as required by State law (G.S. 159-31). The Town may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers acceptances and the North Carolina Capital Management Trust (NCCMT).

2. Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income and considers all cash and investments to be cash and cash equivalents.

3. Restricted Assets

Powell Bill funds are classified as restricted cash because they can be expended only for the purposes of maintaining, repairing, constructing, reconstructing or widening of local streets per G.S. 136-41.1 through 136-41.4. Customer deposits held by the Town before any services are supplied are restricted to the service for which the deposit was collected.

Town of Cerro Gordo Restricted Cash

Governmental Activities	
General Fund	
Streets	\$ 22,051
Unspent Grant proceeds	357,736
Town Hall Project	
Unspent Grant proceeds	13,615
Total governmental activities	<u>393,402</u>
Business-type Activities	
Water Fund	
Customer Deposits	3,480
Total Business-type activities	<u>3,480</u>
Total Restricted Cash	<u>\$ 396,882</u>

4. Ad Valorem Taxes Receivable

In accordance with State law (G.S. 105-347 and G.S. 159-13(a)) the Town levies ad valorem taxes on property other than motor vehicles on July 1, the beginning of the fiscal year. The taxes are due on September 1st (lien date); however, interest does not accrue until the following January 6th. The taxes are based on the assessed values as of January 1, 2019.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

6. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements and expenses as the items are used.

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Due to very limited capital asset acquisition, minimum capitalization costs are \$500 for all items. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets received prior to June 30, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 30, 2015 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. There were no general infrastructure assets acquired prior to July 1, 2003. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated on a straight-line basis over the following estimated useful lives:

Infrastructure	25 years
Buildings	50 years
Furniture and equipment	10 years
Sewer lines	40 years

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has no items that meet this criterion. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has one item that meets the criterion for this category - property taxes receivable.

9. Compensated Absences

The vacation policy of the Town provides for the accumulation of up to two weeks earned vacation leave with such leave being fully vested when earned. Accumulated vacation pay is not considered to be material; therefore, no expenditure or liability has been reported in the government-wide financial statements.

The Town's sick leave policy provides for an accumulation of up to 16 days of sick leave. Sick leave does not vest and since the Town has no obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

10. Net Position/Fund Balances

Net Position

Net position in government-wide and proprietary fund financials statements are classified as net investment in capital assets, restricted; and unrestricted. Restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance - This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Prepaid expenses - portion of fund balance that is not an available resource because it represents the year-end balance of prepaid expenses, which are not spendable resources.

Restricted Fund Balance - This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute - North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget. Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as nonspendable. Outstanding Encumbrances are included within RSS. RSS is included as a component of Restricted Net position and Restricted fund balance on the face of the balance sheet.

Reserved for Streets – Powell Bill – portion of fund balance available for appropriation but legally segregated for street expenditures. It represents the balance of the total unexpended Powell Bill funds.

Reserved for Town Hall Capital Project - portion of fund balance restricted by grant agreement to build a new town hall as a result of Hurricane Matthew.

Committed Fund Balance - portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of Town of Cerro Gordo' governing body. Any changes or removal of specific purpose requires majority action by the governing body.

Assigned Fund Balance - portion of fund balance that the Town intends to use for specific purposes.

Subsequent year's expenditures - portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed. The governing body approves the appropriation.

Unassigned Fund Balance - the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

II. Stewardship, Compliance, and Accountability

Noncompliance with North Carolina General Statutes

The Town was in violation of NC General Statute 159-32. There were instances noted where the Town had more than \$500 on hand for up to a week. Also see the description in the findings section of this report.

III. Detail Notes on All Funds

A. Assets

1. Deposits

All the deposits of the Town are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's agents in these units' names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town, these deposits are considered to be held by the Town's agents in their names. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town or the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the Town under the Pooling Method, the potential exists for undercollateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Town has no formal policy regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Town complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2020, the Town's deposits had carrying amount of \$588,265 and a bank balance of \$619,094. \$250,000 of the bank balance was covered by federal depository insurance, the remaining \$369,094 is covered by the pooling method. Of the carrying amount, \$6 was cash on hand.

2. Receivables - Allowances for Doubtful Accounts

The amounts presented in the Balance Sheet and the Statement of Net Position are net of the following allowances for doubtful accounts:

Fund	6/30/2020
General Fund:	
Taxes receivable	\$ 1,241
Accounts receivable	40
Total	<u>\$ 1,281</u>
Enterprise Funds:	
Water	\$ 85
Sewer	64
Total	<u>\$ 149</u>

3. Capital Assets

Capital asset activity for the Town for the year ended June 30, 2020, was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
Governmental activities:				
Capital assets not being depreciated				
Land	\$ 30,500	\$ -	\$ -	30,500
Construction in Process	465,514	72,695	(507,980)	30,229

B. Liabilities

1. Pension Plan Obligations

The Town of Cerro Gordo does not participate in the Local Government Employees' Retirement System, nor do they participate in any other pension programs.

2. Deferred Outflows and Inflows of Resources

Deferred inflows of resources at year-end is composed of the following:

Source	Amount
Taxes Receivable, less penalties (General Fund)	\$ 843

3. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town carries commercial insurance for general liability of up to \$340,000 and workers compensation up to the statutory limits.

There have been no significant reductions in insurance coverage in the prior year, and settled claims have not exceeded coverage in any of the past three fiscal years.

The Town does not carry flood insurance as they are not considered to be in a high risk area.

In accordance with G.S. 159-29, the Town's employees that have access to \$100 or more at any given time of the Town's funds are performance bonded through a commercial surety bond. The Town clerk is bonded for \$50,000. The Town also has a temporary employee who provides services on an as-needed basis who is bonded for \$10,000.

4. Claims and Judgments

At June 30, 2020, the Town had no claims or judgments outstanding or pending.

C. Interfund Balances and Activity

Balances due to/from other funds at June 30, 2020, consist of the following:

Due to the Town Hall Project Fund for the allocation of cost from the:

General Fund	\$ 1,693
Water Fund	2,953
Sewer Fund	4
Total	<u>\$ 4,650</u>

All interfund receivables and payables resulted from transfers used to supplement other funding sources.

Transfers to / from other funds at June 30, 2020, consist of the following:

From the Sewer Fund to the General Fund to reimburse expenses paid from the wrong account.	\$ 78
From the Town Hall Project Fund to the General Fund to reimburse expenses paid from the wrong account.	15,109
From the Town Hall Project Fund to the Water Fund to reimburse expenses paid from the wrong account.	22,108
From the Town Hall Project Fund to the Sewer Fund to reimburse expenses paid from the wrong account.	11,108
From the Sewer Fund to the Water Fund to reimburse expenses paid from the wrong account.	<u>12</u>
Total Transfers	<u>\$ 48,415</u>

D. Fund Balance

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation:

Total fund balance - General Fund	\$ 159,275
Less:	
Stabilization by State Statute	18,026
Streets - Powell Bill	22,376
Appropriated Fund Balance in 2021 Budget	-
Remaining Fund Balance	<u>\$ 118,873</u>

The Town had no outstanding encumbrances at year-end.

IV. Summary Disclosure of Significant Contingencies

Federal and State Assisted Programs

The Town has received proceeds from several federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant monies.

V. Significant Effects of Subsequent Events

The Town has not had any significant events between June 30, 2020 and the date of this report.

Report On Internal Control Over Financial Reporting And On Compliance and
Other Matters Based On An Audit Of Financial Statements Performed In Accordance With
Government Auditing Standards

Independent Auditors' Report

To the Honorable Mayor
And Members of the Town Commissioners
Town of Cerro Gordo, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Cerro Gordo, North Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprises Town of Cerro Gordo's basic financial statements, and have issued our report thereon dated January 15, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Cerro Gordo's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Cerro Gordo's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

Our consideration of the internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses. [20-01] A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Report On Internal Control Over Financial Reporting
And On Compliance and Other Matters Based On An
Audit Of Financial Statements Performed In Accordance With
Government Auditing Standards

A significant deficiency is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompany schedule of findings and responses to be significant deficiencies [20-02].

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Cerro Gordo's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Town of Cerro Gordo's Response to Findings

The Town of Cerro Gordo's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The Town's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Town of Cerro Gordo, North Carolina
Schedule of Findings and Responses
For the Year Ended June 30, 2020

Section II. Financial Statement Findings

MATERIAL WEAKNESS

FINDING: 20-01 Lack of segregation of duties

Criteria: Internal controls are enhanced when the responsibilities for executing a transaction, recording the transaction, and maintaining custody of the assets resulting from the transaction are assigned to different individuals.

Condition: In reviewing internal control procedures within the Finance Department, we noticed a lack of segregation of duties since the Town only has one person that handles all financial transactions. Internal controls are enhanced when responsibilities for executing a transaction, recording the transaction, and maintaining custody of the assets resulting from the transaction are assigned to different individuals.

Effect: While it may be convenient to have one person authorized to handle multiple phases of a transaction, it does not provide the ideal internal control structure.

Cause: With only one employee within the Finance Department, it makes difficult to achieve an adequate segregation of duties.

Identification of a repeat finding: This is a repeat finding from the immediate previous audit, 19-01.

Recommendation: The duties should be separated as much as possible, and alternative controls should be used to compensate for lack of separation. The governing board should provide some of these controls.

Views of responsible officials and planned corrective actions: The Town agrees with this finding.

SIGNIFICANT DEFICIENCY

FINDING: 20-02 Inadequate design of internal control over the preparation of the financial statements being audited.

Criteria: There is not an individual within the Town's personnel that possess sufficient accounting knowledge and experience to be able to determine if the financial statements are prepared correctly.

Condition: There is a limited number of Town personnel.

Effect: The information within the annual audited financial statements could be materially misstated.

Cause: Town financial resources are limited and are not sufficient to have such a position.

Identification of a repeat finding: This is a repeat finding from the immediate previous audit, 19-02.

Recommendation: The Town should consider outsourcing this procedure.

Views of responsible officials and planned corrective actions: The Town agrees with this finding.

Corrective Action Plan

For the Year Ended June 30, 2020

Section II - Financial Statement Findings

MATERIAL WEAKNESS

20-01 Segregation of Duties

Name of Contact Person: Brandi Strickland, Town Clerk

Corrective Action: The duties will be separated as much as possible and alternative controls will be used to compensate for lack of separation. The governing board will become more involved in providing some of these controls.

Proposed Completion Date: The Board will implement the above procedure immediately.

20-02 Inadequate design of internal control over the preparation of financial statements being audited.

Name of Contact Person: Brandi Strickland, Town Clerk

Corrective Action: The Town will start evaluating this deficiency to determine what alternative controls could be used to compensate for this.

Proposed Completion Date: The Board will implement the above procedure immediately.

Town of Cerro Gordo, North Carolina
