**INDEPENDENT AUDITOR'S REPORT**

To the Mayor and Town Council  
Town of Grover  
Grover, North Carolina

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, business-type activities, and each major fund of Town of Grover, North Carolina as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, and each major fund of Town of Grover, North Carolina, as of June 30, 2020, and the respective changes in financial position thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

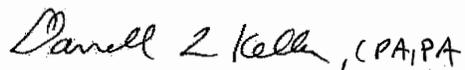

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3–12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary and Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Grover, North Carolina's basic financial statements. The individual fund financial statements, budgetary schedules, and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund financial statements, budgetary schedules, and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the procedures performed as described above, the individual fund financial statements, budgetary schedules, and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

# TOWN OF GROVER, NORTH CAROLINA

## Management's Discussion and Analysis

June 30, 2020

As management of the Town of Grover, we offer readers of the Town of Grover's financial statements this narrative overview and analysis of the financial activities of the Town of Grover for the fiscal year ended June 30, 2020. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative. All amounts, unless otherwise indicated, are expressed in dollars.

### Financial Highlights

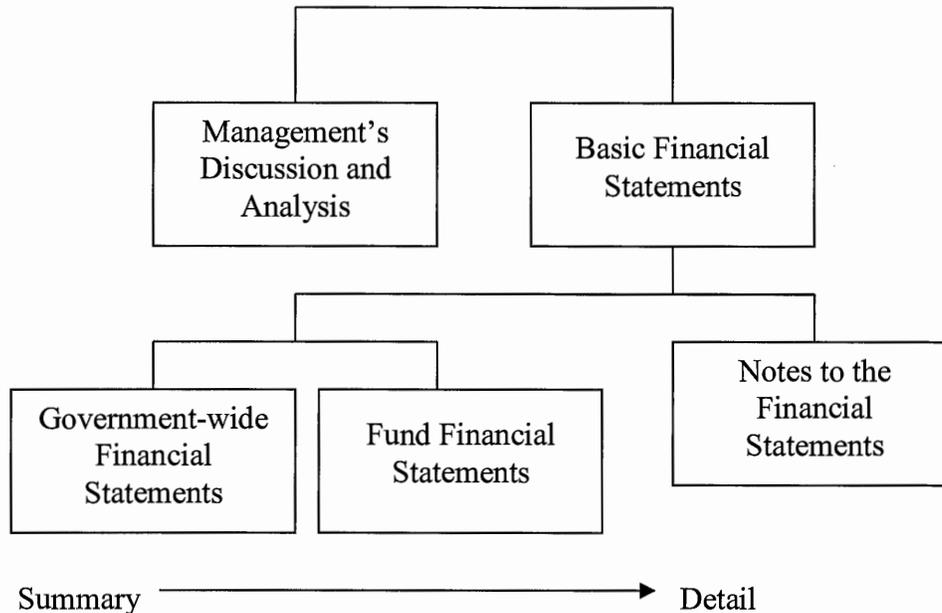

- The assets and deferred outflows of resources of the Town of Grover exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$2,359,701 (*net position*). Of this amount, \$470,332 (*unrestricted net position*) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net position decreased by \$32,564, primarily due to decreases in the business-type activities net position.
- As of the close of the current fiscal year, the Town of Grover's governmental funds reported combined ending fund balances of \$402,308, an increase of \$76,145 in comparison with the prior year. Approximately 75.2% of this total amount, or \$302,525, is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$302,525, or 107.8 % of total general fund expenditures for the fiscal year.
- The Town of Grover's total debt decreased by \$1,701 during the current fiscal year.

### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town of Grover's basic financial statements. The Town's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Grover.

## Required Components of Annual Financial Report

Figure 1

### **Basic Financial Statements**

The first two statements (Exhibits 1 and 2) in the basic financial statements are **Government-wide Financial Statements**. They provide both short and long-term information about the Town's financial status. The next statements (Exhibits 3-9) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are three parts to the Fund Financial Statements: 1) the governmental fund statements; 2) the budgetary comparison statements; and 3) the proprietary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Town's individual funds. Budgetary information required by the General Statutes also can be found in this part of the statements.

### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how it has changed. Net position is the difference between the Town's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities and 2) business-type activities. The governmental activities include most of the Town's basic services such as public safety, parks and recreation, and general administration. Property taxes and state and federal grant funds finance most of these activities. The business-type activities are those that the Town charges customers to provide. These include the water and sewer services offered by the Town of Grover.

The government-wide financial statements are Exhibits 1 and 2 of this report.

### **Fund Financial Statements**

The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Grover, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance. The Town of Grover has two funds: governmental fund and proprietary fund.

**Governmental Fund** – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in the governmental fund. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting*, which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is part of the fund financial statements.

The Town of Grover maintains one governmental fund. Information is presented in the governmental fund balance sheet and in the governmental fund statement of revenue, expenditures, and changes in fund balance for the General Fund, which is considered to be a major fund.

The Town of Grover adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the

board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the budgetary basis of accounting and the modified accrual basis, a reconciliation showing the differences in the reported activities is show at the end of the budgetary statement.

**Proprietary Fund** – The Town of Grover has one proprietary fund. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town of Grover uses an enterprise fund to account for its water and sewer activity. This fund is the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 22.

**Other Information** – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the Town's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found beginning on page 41 of this report.

**Interdependence with Other Entities:** The Town depends on financial resources flowing from, or associated with, both the Federal Government and the State of North Carolina. Because of this dependency, the Town is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State appropriations.

## Government-Wide Financial Analysis

### Grover Net Position

Total liabilities	<u>33,931</u>	<u>38,713</u>	<u>87,746</u>	<u>90,458</u>	<u>121,677</u>	<u>129,171</u>
Deferred inflows of resources	752	1,495	960	1,275	1,712	2,770
Net position:						
Net investment in capital assets	204,139	215,552	1,585,447	1,653,692	1,789,586	1,869,244
Restricted	99,783	98,396	-	-	99,783	98,396
Unrestricted	300,921	227,509	169,411	197,116	470,332	424,625
Total net position	<u>\$ 604,843</u>	<u>\$ 541,457</u>	<u>\$ 1,754,858</u>	<u>\$ 1,850,808</u>	<u>\$ 2,359,701</u>	<u>\$ 2,392,265</u>

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Town of Grover exceeded liabilities and deferred inflows by \$2,359,701 as of June 30, 2020. The Town's net position decreased by \$32,564 for the fiscal year ended June 30, 2020. However, the largest portion (75.84%) reflects the Town's net investment in capital assets (e.g. land, buildings, machinery, and equipment). The Town of Grover uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Grover' net investment in capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Town of Grover' net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$470,332 is unrestricted.

Several particular aspects of the Town's financial operations positively influenced the total unrestricted governmental net position:

- Increased property tax revenue due to increasing the tax rate with a tax collection percentage of 98.2%.
- The Town of Grover began working on contracts with Engineering Firms to design, fund and build an interconnection with neighboring City of Kings Mountain for the purposes of transferring its wastewater stream and closing its primary treatment facility. This action lowered the Town's fund balance substantially in FY 13-14. The project has not moved forward and other options are being discussed regarding the project and borrowing options. The issues with the current treatment facility still exist and the Town continues to search for viable options for treating its wastewater moving forward.

**The Town of Grover Changes in Net Position**

Figure 3

	<u>Governmental</u>		<u>Business-type</u>		<u>Total</u>	
	<u>Activities</u>		<u>Activities</u>			
	<u>2020</u>	<u>2019</u>	<u>2020</u>	<u>2019</u>	<u>2020</u>	<u>2019</u>

Increase in net position	<u>63,386</u>	<u>(1,310)</u>	<u>(95,950)</u>	<u>(13,323)</u>	<u>(32,564)</u>	<u>(14,633)</u>
Net position, beginning of year	541,457	542,767	1,850,808	1,864,131	2,392,265	2,406,898
Net position, end of year	<u>\$ 604,843</u>	<u>\$ 541,457</u>	<u>\$ 1,754,858</u>	<u>\$ 1,850,808</u>	<u>\$ 2,359,701</u>	<u>\$ 2,392,265</u>

**Governmental activities:** Governmental activities increased the Town's net position by \$63,386. This is primarily due to an increase in the property tax rate and no longer allocating property taxes to the Water/Sewer Fund.

**Business-type activities:** Business-type activities decreased the Town of Grover' net position by \$95,950. This is primarily due to property taxes no longer being allocated from the General Fund.

### **Financial Analysis of the Town's Funds**

As noted earlier, the Town of Grover uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the Town of Grover' governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town of Grover' financing requirements. Specifically, fund balance available for appropriation can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the Town of Grover. At the end of the current fiscal year, fund balance available in the General Fund was \$302,525, while total fund balance reached \$402,308. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 107.8% of total General Fund expenditures, while total fund balance represents 143.3% of that same amount.

**General Fund Budgetary Highlights:** During the fiscal year, the Town revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

The actual operating revenues for the General Fund were more than the budget amount by \$27,060. Factors concerning the finances of this fund have already been addressed in the discussion of the Town of Grover' governmental activities.

**Proprietary Fund:** The Town of Grover' proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net position at the fiscal year-end in the Water and Sewer Fund were \$169,411. Factors concerning the finances of this fund have already been addressed in the discussion of the Town of Grover' business-type activities.

## Capital Asset and Debt Administration

**Capital assets:** The Town of Grover's investment in capital assets for its governmental and business-type activities as of June 30, 2020 totals \$1,808,185 (net of accumulated depreciation). These assets include buildings, roads, land, machinery and equipment, park facilities, and vehicles.

### The Town of Grover Capital Assets

Figure 4

Improvements	47,218	58,625	1,436	2,010	48,654	60,635
Machinery and equipment	3,554	4,570	78,173	77,679	81,727	82,249
Vehicles and motorized equipment	10,620	3,700	-	-	10,620	3,700
Total capital assets (net of depreciation)	<u>✓\$ 204,139</u>	<u>✓\$ 215,552</u>	<u>\$ 1,604,046</u>	<u>✓\$ 1,673,992</u>	<u>\$ 1,808,185</u>	<u>\$ 1,889,544</u>

Additional information on the Town's capital assets can be found in note III. A. 4. of the Basic Financial Statements.

**Long-term Debt:** As of June 30, 2020, the Town of Grover had total outstanding debt of \$18,599.

**The Town of Grover Outstanding Debt**

Figure 5

	<b>Governmental</b>		<b>Business-type</b>		<b>Total</b>	
	<b>Activities</b>		<b>Activities</b>			
	<b><u>2020</u></b>	<b><u>2019</u></b>	<b><u>2020</u></b>	<b><u>2019</u></b>	<b><u>2020</u></b>	<b><u>2019</u></b>
General obligation bonds	\$ -	\$ -	\$ 18,599	\$ 20,300	\$ 18,599	\$ 20,300
	-	-	-	-	-	-
Total capital assets (net of accumulated depreciation)	\$ -	\$ -	\$ 18,599	\$ 20,300	\$ 18,599	\$ 20,300

The Town of Grover’s total debt decreased \$1,701 during the fiscal year due to timely payments of debt during the year.

North Carolina general statues limit the amount of general obligation debt that a unit of government can issue to 8% of the total assessed value of taxable property located within that government’s boundaries. The legal debt margin for the Town of Grover is \$2,853,455.

Additional information regarding the Town of Grover’ long-term debt can be found in note III. B. 5. of the basic financial statements.

**Economic Factors and Next Year’s Budgets and Rates**

The following key economic indicators reflect the growth and prosperity of the Town:

- The unemployment rate in the Cleveland County area has remained consistent.
- The Town of Grover’ reputation as a family-oriented, quiet town has made the Town a highly desired place to live in the last several years. This has resulted in higher property tax valuations and increased revenues for services provided.

## Impact of Coronavirus on Town

The town has been impacted in several ways due to Covid-19 restrictions. Direct revenues have been reduced by the inability to assess late fees and penalties and the inability to rent the community room. The town has also been impacted by a reduction of shared taxes passed on from the county and state. Many of these will continue to impact the town's revenues through the 2020-21 fiscal year.

		Estimated Loss Fiscal Year 2019- 20	Estimated Loss Fiscal Year 2020-21
30-340-15	Penalties	\$ 3,850	\$ 1,175
30-340-16	Admin Fees	\$ 750	\$ 265
10-300-00	Ad Valorem Taxes	\$ -	\$ 10,000
10-320-63	Community Room Rental	\$ 440	\$ 1800
10-301-00	Tax Penalties	\$ 385	\$ -
10-310-37	State Franchise Tax	\$ 2,900	\$ 1,400
10-310-45	Sales and Use Tax	\$ 1,400	\$ -
10-310-47	Alcohol Bev Tax	\$ -	\$ 500
<b>Totals</b>		<b>\$ 9,725</b>	<b>\$ 15,140</b>

## Budget Highlights for Fiscal Year Ending June 30, 2021

**Governmental Activities:** Due to the current economic climate, growth is expected to be minimal.

**Business-type Activities:** The Town of Grover has begun efforts to itemize and organize its capital needs in the water system in order to create a Capital Improvement Program.

## Requests for Information

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Finance Officer, Town of Grover, P.O. Box 189, Grover, NC 28073.

**Town of Grover**  
**Statement of Revenues, Expenditures, and Changes in Fund Balance**  
**Governmental Funds**  
**For the Year Ended June 30, 2020**

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ 76,145
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period	(11,412)
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities	3,452
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Change in unavailable revenue for tax revenues	(1,307)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	-
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Book value of Assets Abandoned	-
Pension Expense	(3,492)
Rounding	-
Total changes in net position of governmental activities	<u>\$ 63,386</u>

## **I. Summary of Significant Accounting Policies**

The accounting policies of the Town of Grover conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

### **A. Reporting Entity**

The Town of Grover is a municipal corporation that is governed by an elected mayor and a five-member council. As required by generally accepted accounting principles, these financial statements present the Town and its component unit, a legally separate entity for which the Town is financially accountable.

### **B. Basis of Presentation**

*Government-wide Statements:* The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

*Fund Financial Statements:* The fund financial statements provide information about the Town's funds. Separate statements for each fund category – *governmental and proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The Town reports the following major governmental funds:

**General Fund.** The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for public safety, street maintenance and construction, and sanitation services.

The Town reports the following major enterprise fund:

**Water and Sewer Fund.** This fund is used to account for the Town's water and sewer operations.

### C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

*Government-wide and Proprietary Fund Financial Statements.* The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise fund is charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

*Governmental Fund Financial Statements.* Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as a revenue because the amount is not

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Sales taxes are considered a shared revenue for the Town of Grover because the tax is levied by Cleveland County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes are reported as general revenues rather than program revenues. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then general revenues.

#### D. Budgetary Data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund and the Enterprise Fund. All annual appropriations lapse at the fiscal-year end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds and at the project level for the multi-year funds. Amendments are required for any revisions that alter total expenditures of any fund or that change functional appropriations by more than \$2,500. All amendments must be approved by the governing board and the board must adopt an interim budget that covers that time until the annual ordinance can be adopted. Transfers between line items or departments, within the same fund, may be made by the Town Clerk and/or Mayor, provided it is less than \$2,500. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

#### E. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

##### 1. Deposits and Investments

All deposits of the Town and the Authority are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Town and the Authority may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina.

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

Also, the Town and the Authority may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town and the Authority to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances and the North Carolina Capital Management Trust (NCCMT). The NCCMT Government Portfolio, a SEC-registered (2a-7) external investment pool, is measured at fair value. Because the NCCMT Government Portfolio has a weighted average maturity of less than 90 days, it is presented as an investment with a maturity of less than 6 months.

2. Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, the Town and the Authority consider that all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

3. Restricted Assets

Powell Bill funds are classified as restricted cash because they can be expended only for the purposes of maintaining, repairing, constructing, reconstructing or widening of local streets per G.S. 136.41.1 through 136-41.4. Cemetery funds held in the general fund are restricted for the purpose of maintaining the Town's cemetery. Customer deposits in the enterprise fund are held by the Town before any services are supplied and are restricted to the service for which the deposit was collected.

Total governmental activities		\$	<u>80,174</u>
Total business-type activities		\$	<u>35,295</u>
Total Restricted Cash		\$	<u>115,469</u>

4. Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Town levies ad valorem taxes on property other than motor vehicles on July 1, the beginning of the fiscal year. The taxes are due on September 1 (lien date); however, interest does not accrue until the following January 6. These taxes are based on the assessed values as of January 1, 2019. As allowed by State law, the Town has established a schedule of discounts that apply to taxes that are paid prior to the due date. In the Town's General Fund, ad valorem tax revenues are reported net of such discounts.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

6. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements and expensed as the items are used.

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Donated capital assets received prior to June 15, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 15, 2015 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Infrastructure	20
Buildings	50
Vehicles and Motorized Equipment	5
Furniture and equipment	5-8
Improvements	10-15

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has one item that meets this criterion, contributions made to the pension plan in the 2020 fiscal year and other pension related deferrals. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has two items that meet the criterion for this category-property taxes receivable and deferrals of pension expense that result from the implementation of GASB Statement 68.

## 9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Debt issuance costs are expensed in the reporting period in which they are incurred.

In the fund financial statements for governmental fund types, the face amount of debt issued is reported as another financing source.

## 10. Compensated Absences

The vacation policy of the Town provides for the accumulation of up to 15 days of earned vacation leave with such leave being fully vested when earned. Vacation days are accrued on a monthly basis and, until six months of employment have been fulfilled, no vacation days are actually paid. Accumulated earned vacation at June 30, 2020, was not material and, therefore, no expenditure or liability has been reported in the governmental funds or in the government-wide financial statements.

The Town's sick leave policy provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Town does not have any obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

## 11. Net Position/Fund Balances

### Net Position

Net position in government-wide and proprietary fund financial statements are classified as net investment in capital assets, restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

### Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Non-spendable Fund Balance-This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Prepaid expenses-portion of fund balance that is not an available resource because it represents the year-end balance of funds expended for future use.

Restricted Fund Balance-This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

Restricted for Stabilization by State statute – North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". *Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget.* Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as non-spendable. Outstanding Encumbrances are included within RSS. RSS is included as a component of restricted Net Position and Restricted Fund Balance on the face of the balance sheet.

Restricted for streets - Powell Bill - portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds.

Restricted for Cultural and Recreation-portion of fund balance that is restricted for cemetery maintenance expenditures. This amount represents the balance of the total unexpended Cemetery funds.

Committed Fund Balance-portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of Town of Grover governing body (highest level of decision making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned Fund Balance-portion of fund balance that Town of Grover intends to use for specific purposes.

Subsequent year's expenditures - portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed. The governing body approves the appropriation; however the budget ordinance authorizes the manager to modify the appropriations by resource or appropriation within funds up to \$2,500.

Unassigned - portion of total fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Town of Grover has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-city funds, city funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Town.

The Town of Grover has not officially adopted a minimum fund balance policy.

## 12. Defined Benefit Cost-Sharing Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Town of Grover' employer contributions are recognized when due and the Town of Grover has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

## **II. Stewardship, Compliance, and Accountability**

### A. Excess Expenditures over Appropriations

For the fiscal year ended June 30, 2020 the expenditures made in the Town's Water and Sewer Fund exceeded the authorized appropriations made by the governing board for operating expenditures by \$13,578 and Capital Outlay and Debt Service expenditures by \$12,063. This over expenditure was primarily due to payroll and benefits for operating the system. Management and the governing board will more closely review the budget reports to ensure compliance in the future.

## **III. Detail Notes on All Funds**

### A. Assets

#### 1. Deposits

All the deposits of the Town and the Authority are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's or the Authority's agents in the units' name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town and the Authority, these deposits are considered to be held by the Town's and the Authority's agents in their names. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town, the Authority, or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town and the Authority under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method.

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

The Town and the Authority have no policy regarding custodial credit risks for deposits but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance.

At June 30, 2020, the Town's deposits had a carrying amount of \$115,314 and a bank balance of \$130,246. Of the bank balance, \$130,246 was covered by federal depository insurance and the remainder was covered by collateral held under the pooling method. At June 30, 2020, the Town's petty cash fund totaled \$214.

	Total	Restricted Cash per Exhibit 1	Cash and Cash Equivalents per Exhibit 1	Investment in NCCMT per Exhibit 1
Cash	80,294	-	80,294	
Investment in NCCMT	489,110	(115,469)	-	373,641
<b>Total</b>	<b>569,404</b>	<b>(115,469)</b>	<b>80,294</b>	<b>373,641</b>

2. Investments

Investment Type	Valuation Measurement Method	Book Value at 6/30/20	Maturity	Rating
NC Capital Management Trust – Cash Portfolio	Fair Value Level 1	\$ 489,110	N/A	AAAm
Total:		\$ 489,110		

At June 30, 2020, the Town of Grover had \$489,110 invested with the North Carolina Capital Management Trust Government Portfolio which carried a credit rating of AAAm by Standard and Poor's. The Cash Portfolio was valued at Fair Value. The Town has no policy regarding credit risk of its investments.

3. Receivables - Allowances for Doubtful Accounts

The amounts presented in the Balance Sheet and the Statement of Net Position is net of the following allowances for doubtful accounts:

Fund	6/30/2020
General fund:	
Taxes Receivable	\$ 2,937
Accounts Receivable	2,000
Total	\$ 4,937
Enterprise Funds	6,300
Total	\$ 11,237

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

4. Capital Assets

**Primary Government**

Capital asset activity for the Primary Government for the year ended June 30, 2020, was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances

## B. Liabilities

### 1. Pension Plan Obligations

#### a. Local Governmental Employees' Retirement System

*Plan Description.* The Town of Grover is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members - nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454, or at [www.osc.nc.gov](http://www.osc.nc.gov).

*Benefits Provided.* LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement

benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

*Contributions.* Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Town of Grover employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Town of Grover's contractually required contribution rate for the year ended June 30, 2020, was 11.670% of compensation for law enforcement officers and 10.920% for general employees and firefighters, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Town of Grover were \$20,140 for the year ended June 30, 2020.

*Refunds of Contributions* – Town employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At June 30, 2020, the Town reported a liability of \$47,791 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2018. The total pension liability was then rolled forward to the measurement date of June 30, 2019 utilizing update procedures incorporating the actuarial assumptions. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2019, the Town's proportion was 0.001750%, which was an decrease of 0.00019% from its proportion measured as of June 30, 2018.

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

For the year ended June 30, 2020, the Town recognized pension expense of \$20,527. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 8,183	\$ -
Changes of assumptions	7,789	-
Net difference between projected and actual earnings on pension plan investments	1,166	-
Changes in proportion and differences between City contributions and proportionate share of contributions	2,491	1,712
City contributions subsequent to the measurement date	20,140	-
Total	<u>\$ 39,769</u>	<u>\$ 1,712</u>

\$20,140 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as an increase of the net pension asset in the year ended June 30, 2021. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Year ended June 30:**

2021	\$ 8,216
2022	3,304
2023	5,253
2024	1,144
2025	-
Thereafter	-
	<u>\$ 17,917</u>

*Actuarial Assumptions.* The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	3.50 to 8.10 percent, including inflation and productivity factor
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	<u>100%</u>	

The information above is based on 30 year expectations developed with the consulting actuary for the 2018 asset liability and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

*Discount rate.* The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Town's proportionate share of the net pension asset to changes in the discount rate.* The following presents the Town's proportionate share of the net pension asset calculated using the discount rate of 7.00 percent, as well as what the Town's proportionate share of the net pension asset or

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate:

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
City's proportionate share of the net pension liability (asset)	\$ 109,307	\$ 47,791	\$ (3,341)

*Pension plan fiduciary net position.* Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

**b. Supplemental Retirement Income Plan for Law Enforcement Officers**

*Plan Description.* The Town contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers employed by the Town. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

*Funding Policy.* Article 12E of G.S. Chapter 143 requires the Town to contribute each month an amount equal to five percent of each officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan.

Contributions for the year ended June 30, 2020 were \$0, which consisted of \$0 from the Town and \$0 from the law enforcement officers.

The Town has elected to contribute to the Supplemental Retirement Income for general employees as well as for law enforcement officers. Contributions for the year ended June 30, 2020 for general employees were \$6,162 which consisted of \$6,162 from the Town and \$0 from the general employees.

**d. Other Employment Benefits**

The Town has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Government Employees Retirement System (Death Benefit Plan), a multi-employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest months' salary in a

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

row during the 24 months prior to the employee's death, but the benefit may not exceed \$50,000 or be less than \$25,000. Because all death benefit payments are made from the Death Benefit Plan and not by the Town, the Town does not determine the number of eligible participants. The Town has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. Contributions are determined as a percentage of monthly payroll based upon rates established annually by the State. Separate rates are set for employees not engaged in law enforcement and for law enforcement officers. The Town considers these contributions to be immaterial.

2. Deferred Outflows and Inflows of Resources

Deferred outflows of resources at year-end is comprised of the following:

Source	Amount
Contributions to pension plan in current fiscal year	\$ 20,140
Other Pension related deferrals	19,629

	Statement of Net Position	General Fund Balance Sheet
Prepaid taxes (General Fund)	\$ -	
Taxes receivable (General Fund)	-	3,480
Pension deferrals	2,027	

3. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates in three self-funded risk-financing pools administered by the North Carolina League of Municipalities. Through these pools, the Town obtains general liability and auto liability coverage of \$2 million per occurrence, property coverage up to the total insurance values of the property policy, workers' compensation coverage up to the statutory limits, and employee health coverage up to a \$1 million lifetime limit. The pools are reinsured through commercial companies for single occurrence claims against general liability, auto liability and property in excess of \$500,000 and \$300,000 up to statutory limits for workers' compensation. The pools are reinsured for annual employee health claims in excess of \$150,000. The property liability pool has an aggregate limit for total property losses in a single year, with the reinsurance limit based upon a percentage of the total insurance values.

Town of Grover, North Carolina  
Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

There have been no significant reductions in insurance coverage in the prior year, and settled claims have not exceeded coverage in any of the past three fiscal years.

The Town does not have flood insurance.

The finance officer is covered by a \$50,000 fidelity bond. Other employees are covered under a \$50,000 blanket bond through the NC League of Municipalities Risk Management Services/Interlocal Risk Financing Fund of NC.

**4. Claims, Judgments and Contingent Liabilities**

At June 30, 2020, the Town was not involved in any lawsuits.

**5. Long-Term Obligations**

a. During the fiscal year ended June 30, 2019 the Town entered into a direct borrowing with the USDA for a loan to purchase a 2018 Ford F250 Service Truck. The loan requires 10 annual payments of \$2,488 which includes interest at 3.875% and a maturity date of 2/11/29. The debt is secured by the Service Truck.

Annual debt service payments of the direct borrowing as of June 30, 2020 are as follows:

Year Ending June 30	Governmental Activities		Business Activities	
	Principal	Interest	Principal	Interest
2021	\$ -	\$ -	\$ 1,767	\$ 721
2022	-	-	1,836	652
2023	-	-	1,907	581

Notes to the Financial Statements  
For the Fiscal Year Ended June 30, 2020

C. Net Investment in Capital Assets

	Governmental Activities	Business-Type Activities
Capital Assets, net of depreciation	\$ 204,139	\$ 1,604,046
Debt	-	(18,599)
Unspent Bond Proceeds	-	-
Accounts Payable-related to capital outlay	-	-
	\$ 204,139	\$ 1,585,447

D. Interfund Balances and Activity

Balances due to/Due from other funds at June 30, 2020 consist of the following:

Due to the Proprietary Fund from the General Fund: \$7,390

The interfund balances resulted from expenses paid from the pooled checking account by the Proprietary Fund on behalf of the General Fund. These funds will be repaid.

E. Fund Balance

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation:

<b><u>Total fund balance-General Fund</u></b>	<b><u>\$402,308</u></b>
Less;	
Prepaid Expenses	-
Stabilization by State Statute	19,609
Streets - Powell Bill	39,577
Cemetery	40,597
Appropriated Fund Balance in 2021 budget	-
<b>Remaining Fund Balance</b>	<b>302,525</b>

#### **IV. Summary Disclosure of Significant Contingencies**

##### **Federal and State Assisted Programs**

The Town has received proceeds from several federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

#### **V. Significant Effects of COVID-19 Pandemic**

The COVID-19 pandemic developed rapidly in 2020, with a significant number of cases. Measures taken by Federal, State, and Local governments to contain the virus have affected economic activity. From March 19, 2020 through July 31, 2020, penalties for late payments on utilities were waived and payment plans up to six months could be utilized with no cut-offs for utility customers per the Governor's executive order. The impact of COVID-19 has reduced receipts from utility customers and other intergovernmental revenues received from governments due to stay at home orders to prevent the spread of the virus. Depending on the duration of the COVID-19 crisis and continued government restrictions, the Town may experience further negative results. The exact impact of the Town's activities cannot be predicted and no adjustment has been made to the financial statements for this uncertainty.
