Independent Auditors' Report

To the Honorable Mayor
And Members of the Town of Harrellsville
Harrellsville, North Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Harrellsville, North Carolina, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Harrellsville's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Harrellsville, North Carolina as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, and historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion to provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Harrellsville's basic financial statements. The introductory information, combining and individual nonmajor fund financial statements, budgetary schedules, other schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, budgetary schedules, and other schedules, are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with audit standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, budgetary schedules, and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory information and the statistical sections have not been subjected to the auditing procedures applied in the audit of basic financial statements, and accordingly, we do not express an opinion or provide assurance on them.

Management's Discussion and Analysis

As management of the Town of Harrellsville, we offer readers of the Town of Harrellsville's financial statements this narrative overview and analysis of the financial activities of the Town of Harrellsville for the fiscal year ended June 30, 2020. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

Financial Highlights

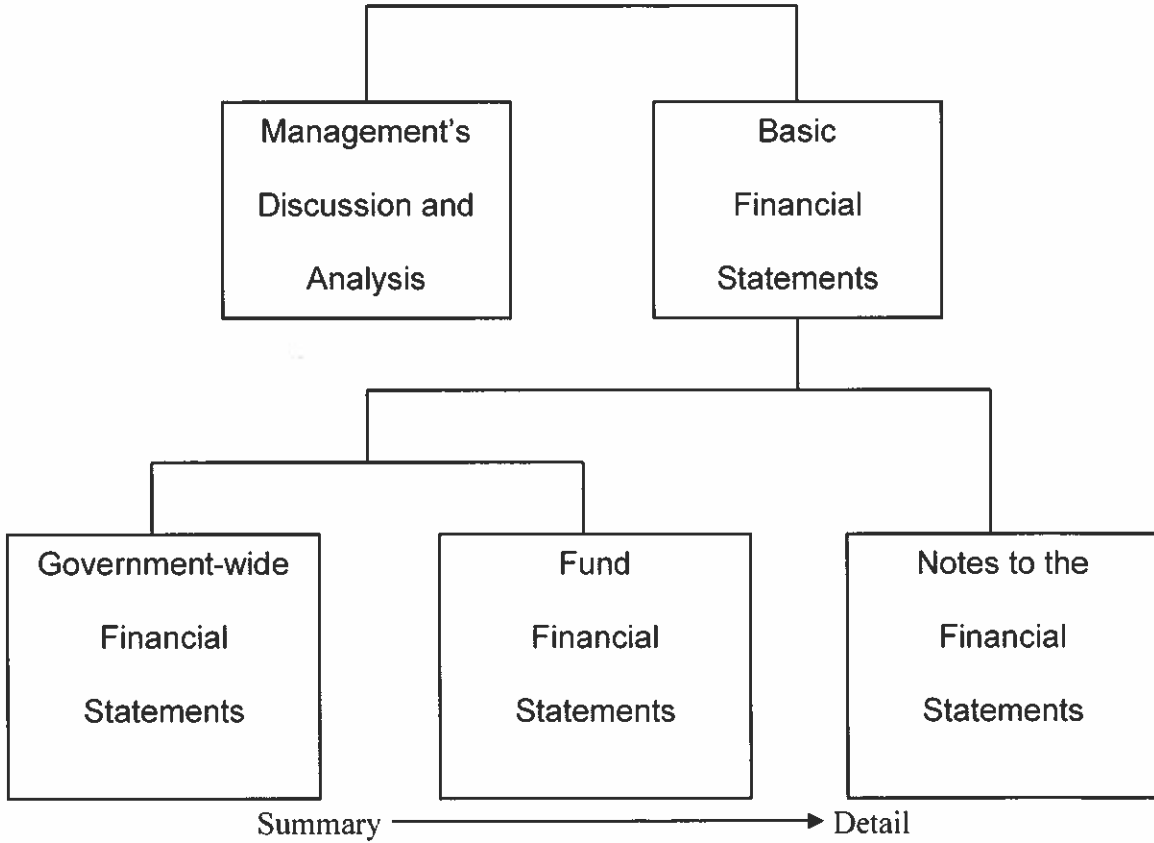

- The assets and deferred outflows of resources of the Town of Harrellsville exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$602,944 (*net position*).
- The government's total net position decreased by \$6,227.00, primarily due to N.C. Governor's Executive Order #124, creating a loss of revenue.
- As of the close of the current fiscal year, the Town of Harrellsville's governmental funds reported combined ending fund balances of \$135,006 with a net increase of \$3,368 in fund balance. Approximately 17.80% of this total amount, or \$24,026, is non-spendable or restricted.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$93,600, or 194.15% of total general fund expenditures and transfers out for the fiscal year.
- The Town of Harrellsville's total debt decreased by \$18,589 (5.87%) during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Town of Harrellsville's basic financial statements. The Town's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Harrellsville.

Required Components of Annual Financial Report

Figure 1

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Town's financial status.

The next statements (Exhibits 3 through 9) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are four parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; 3) the proprietary fund statements; and 4) the fiduciary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Town's individual funds. Budgetary information required by the North Carolina General Statutes also can be found in this part of the statements.

Government-Wide Financial Analysis

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how it has changed. Net position is the difference between the Town's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities; and 2) business-type activities. The governmental activities include most of the Town's basic services such as public safety, parks and recreation, and general administration. Property taxes and state and federal grant funds finance most of these activities. The business-type activities are those that the Town charges customers to provide. These include the water services offered by the Town of Harrellsville.

The government-wide financial statements are Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Harrellsville, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget

ordinance. All of the funds of Town of Harrellsville can be divided into two categories: governmental funds and proprietary funds..

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town’s basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town’s programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Harrellsville adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Funds – Town of Harrellsville has two different kinds of proprietary funds. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. Town of Harrellsville uses enterprise funds to account for its water operations. These funds are the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 11 of this report.

Interdependence with Other Entities: The Town depends on financial resources flowing from, or associated with, both the federal government and the State of North Carolina. Because of this dependency, the Town is subject to changes in specific flows of intergovernmental revenues based on modifications to federal and state laws and federal and state appropriations. It is also subject to changes in investment earnings and asset values associated with U.S. Treasury Securities because of actions by foreign governments and other holders of publicly held U.S. Treasury Securities.

Government-Wide Financial Analysis

Town of Harrellsville's Net Position

Figure 2

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Current and other assets	\$ 140,535	\$ 137,742	\$ 169,373	\$ 159,042	\$ 309,908	\$ 296,784
Capital assets	24,881	24,880	585,546	625,686	610,427	650,566
Total assets and deferred outflows of resources	165,416	162,622	754,919	784,728	920,335	947,350
Long-term liabilities outstanding			298,000	316,589	298,000	316,589
Other liabilities	2,652	3,688	16,739	17,907	19,391	21,595
Total liabilities and deferred inflows of resources	2,652	3,688	314,739	334,496	317,391	338,184
Net position:						
Net investment in capital assets	24,881	24,880	287,546	307,558	312,427	332,438
Restricted	19,337	21,825		-	19,337	21,825
Unrestricted	118,546	112,229	152,634	142,674	271,180	254,902
Total net position	\$ 162,764	\$ 158,934	\$ 440,180	\$ 450,232	\$ 602,943	\$ 609,165

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Town of Harrellsville exceeded liabilities and deferred inflows by \$602,943 as of June 30, 2020. The Town's net position decreased by \$6,222 for the fiscal year ended June 30, 2020. However, the largest portion reflects the Town's net investment in capital assets (e.g. land, buildings, machinery, and equipment). The Town of Harrellsville uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Harrellsville's net investment in capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Town's net position, \$19,337, represents resources that are subject to external restrictions on how they may be used.

Several particular aspects of the Town's financial operations positively influenced the total unrestricted governmental net position:

- Continued diligence in the collection of property taxes by maintaining a tax collection percentage of 98.03%. The statewide average in fiscal year 2019 was 98.78%.
- Continued efforts to cut costs and be more efficient with spending.

Governmental activities. Governmental activities increased the Town's net position by \$3,829. This amount was not enough to change the overall decrease.

Key elements of this overall decrease are as follows:

Business-type activities. Business-type activities decreased the Town of Harrellsville's net position by \$10,056, accounting for 161% of the total loss of growth in the government's net position. A key element of this decrease was due to COVID-19 and Governor Roy Cooper's Executive Order #124. The Town of Harrellsville averages \$385 each month in \$7 late fees. This revenue was a complete and total loss for the Town during the implementation of EO#124. The Town had to notify all customers of this EO, which meant purchasing notecards and stamps to mail the notification. This also caused increased

payroll expenses due to the meetings and increased reporting requirements. The Town works on an extremely trimmed budget and these restrictions caused permanent losses for the Town of Harrellsville. The lost late fees, penalties and postcard expenses alone totaled \$4,951.97. This loss does not include the increased payroll expenses incurred.

Financial Analysis of the Town's Funds

As noted earlier, the Town of Harrellsville uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town of Harrellsville's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town of Harrellsville's financing requirements.

The general fund is the chief operating fund of the Town of Harrellsville. At the end of the current fiscal year, Town of Harrellsville's fund balance available in the General Fund was \$93,600, while total fund balance reached \$135,006. The Governing Body of Town of Harrellsville has determined that the Town should maintain an available fund balance of 10% of general fund expenditures in case of unforeseen needs or opportunities, in addition to meeting the cash flow needs of the Town. The Town currently has an available fund balance of 194% of general fund expenditures, and total fund balance represents 280% of the same amount.

At June 30, 2020, governmental funds reported a combined fund balance of \$135,007 with a net increase in fund balance of \$3,368.

General Fund Budgetary Highlights. During the fiscal year, the Town revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

There were several reasons the Town revised its budget throughout the year. Although expenditures were compliant with budgetary requirements, the Town did amend the budget in the General Fund in General Government to account for unexpected expenditures.

Proprietary Funds. The Town of Harrellsville's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net position for the Water Fund at the end of the fiscal year amounted to \$152,634. The total change in net position for the Water Fund was \$10,056.

Capital Asset and Debt Administration

Capital assets. The Town of Harrellsville’s investment in capital assets for its governmental and business–type activities as of June 30, 2020, totals \$610,427 (net of accumulated depreciation). These assets include buildings, roads, land and vehicles.

**Town of Harrellsville’s Capital Assets
(net of depreciation)**

Figure 4

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019

Total	\$ 24,881	\$ 24,880	\$ 585,546	\$ 625,687	\$ 610,427	\$ 650,567

Additional information on the Town’s capital assets can be found in Notes to the Basic Financial Statements.

Long-term Debt. As of June 30, 2020, the Town of Harrellsville had total bonded debt outstanding of \$298,000. This debt is backed by the full faith and credit of the Town.

**Outstanding Debt
Figure 5**

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019
General obligation bonds	-	-	298,000	316,589	298,000	316,589
					-	-
Total	\$ -	\$ -	\$ 298,000	\$ 316,589	\$ 298,000	\$ 316,589

Town of Harrellsville’s Outstanding Debt. The Town of Harrellsville’s total debt decreased by \$18,589 (6%) during the current fiscal year.

North Carolina general statutes limit the amount of general obligation debt that a unit of government can issue to 8% of the total assessed value of taxable property located within that government’s boundaries. The legal debt margin for Town of Harrellsville is \$513,417.

Additional information regarding the Town of Harrellsville’s long-term debt can be found in Notes to the Financial Statements of this report.

Economic Factors and Next Year’s Budgets and Rates

The following key economic indicators reflect the growth and prosperity of the Town.

- The Town will continue, as always, to maintain services to its residents, as efficiently as possible, without causing financial strain.
- COVID-19 and the Governor’s EO#124 negatively affected the Town.

Budget Highlights for the Fiscal Year Ending June 30, 2021

Governmental Activities: Property taxes will remain the same. The Town increased the trash pickup fees charged to its residents. This allowed the property taxes to remain the same.

Budgeted expenditures in the General Fund are expected to rise slightly due to the increased payroll expenses incurred by the COVID-19 consequences.

The Town has chosen to appropriate \$770 in fund balance in the fiscal year 2021 budget. Management believes that continued restrictions on spending will maintain the Town’s financial position.

Business-type Activities: The water rates in the Town will remain the same for 2021. The expenditures are expected to increase due to the Governor's EO#124. The Town did not budget any revenues for fees and penalties, due to the uncertainty in the state and national governments. There were no employee increases, however, their pay will increase due to more hours needed to perform the additional duties.

Requests for Information

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Finance Officer, Town of Harrellsville, P.O. Box 37, Harrellsville, NC 27942. One can also call (252)-356-4499 or send an email to harrellsville@centurylink.net for more information.

TOWN OF HARRELLSVILLE
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2020

I. Summary of Significant Accounting Policies

The accounting policies of the Town of Harrellsville conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Town of Harrellsville is a municipal corporation, which is governed by an elected mayor and a five-member council.

B. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category – *governmental and proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. The Town of Harrellsville does not have nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The Town reports the following major governmental funds:

General Fund. The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for general government, street maintenance and construction, and sanitation services.

The Town reports the following major enterprise funds:

Water Fund. This fund is used to account for the Town's water and sewer operations.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are

**TOWN OF HARRELLSVILLE
NOTES TO THE FINANCIAL STATEMENTS**

levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental funds are reported using a current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as a revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the state of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the beer and wine tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Sales taxes are considered a shared revenue for the Town of Harrellsville because the tax is levied by Hertford County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes are reported as general revenues rather than program revenues. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then general revenues.

D. Budgetary Data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund and the Enterprise Funds. All annual appropriations lapse at the fiscal year-end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds and at the object level for the multi-year funds. Amendments are required for any revisions that alter total expenditures of any fund or that change functional appropriations by more than \$1,000. The Town Clerk is authorized to transfer appropriations within a fund; however, any revisions that alter the total expenditures of any fund must be approved by the governing board. During the year, amendments to the original budget were made. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Equity

1. Deposits and Investments

All deposits of the Town are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Town may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of

**TOWN OF HARRELLSVILLE
NOTES TO THE FINANCIAL STATEMENTS**

certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances; and the North Carolina Capital Management Trust (NCCMT).

The Town's investments are reported at fair value. Non-participating interest earning contracts are accounted for at cost. The NCCMT – Cash Portfolio, a SEC-registered (2a-7) external investment pool, is measured at amortized cost, which is the NCCMT's share price. The NCCMT – Term Portfolio's securities are valued at fair value.

2. Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

3. Restricted Assets

Powell Bill funds are classified as restricted cash because it can be expended only for the purposes of maintaining, repairing, constructing, reconstructing or widening of local streets per G.S. 136-41-1 through 136-41.4.

4. Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Town levies ad valorem taxes on property other than motor vehicles on July 1, the beginning of the fiscal year. The taxes are due on September 1 (lien date); however, interest does not accrue until the following January 6. These taxes are based on the assessed values as of January 1, 2019.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

6. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization costs are as follows: land, \$1,000; buildings, improvements, substations, lines, and other plant and distribution systems, \$1,000; infrastructure, \$5,000; furniture and equipment, \$1,000 and vehicles, \$1,000. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. General infrastructure assets acquired prior to July 1, 2004 consist of the road network and water and sewer system assets that were acquired or that received substantial improvements subsequent to July 1, 1980, and are reported at estimated historical cost using deflated replacement cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings	40 years
Improvements	20 years
Furniture & equipment	10 years
Computer equipment	10 years

7. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has no items that meet this criterion. In

**TOWN OF HARRELLSVILLE
NOTES TO THE FINANCIAL STATEMENTS**

addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has one item that meet the criterion for this category - property taxes receivable.

8. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

9. Compensated Absences

The Town does not provide for the accumulation of vacation or sick pay.

10. Net Position/Fund Balances

Net Position

Net assets in government-wide and proprietary fund financial statements are classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net assets represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of two classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute – portion of fund balance that is restricted by State Statute [G.S. 159-8(a)].

Restricted for Streets – Powell Bill portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds.

Assigned fund balance – portion of fund balance that the Town of Harrellsville intends to use for specific purposes as assigned by the Town Council.

Assigned for cemetery – portion of fund balance that has been assigned for maintenance of Mount Lawn Cemetery.

Unassigned fund balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

II. Stewardship, Compliance, and Accountability

A. Material Violations of Finance-Related Legal and Contractual Provisions

None

B. Excess of Expenditures Over Appropriations

None

**TOWN OF HARRELLSVILLE
NOTES TO THE FINANCIAL STATEMENTS**

III. Detail Notes on All Funds

A. Assets

1. Deposits

All the deposits of the Town are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's agents in this units' name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town, these deposits are considered to be held by the Town's agent in their name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Town has no policy regarding custodial credit risk of deposits.

At June 30, 2020, the Town's deposits had a carrying amount of \$169,303 and a bank balance of \$175,657. Of the bank balance, all was covered by federal depository insurance.

2. Investments

At June 30, 2020, the Town's investment balances were as follows:

<u>Investment by Type</u>	<u>Valuation Measurement Method</u>	<u>Bank Value 6-30-20</u>	<u>Maturity</u>	<u>Rating</u>
NC Capital Management Trust - Cash Portfolio Gov't	Amortized Cost	123,289	N/A	AAAm

All investments are measured using the market approach; using prices and other relevant information generated by market transactions involving identical or comparable assets or a group of assets.

Level of fair value hierarchy: Level 1: Debt securities valued using directly observable, quoted prices (unadjusted) in active markets for identical assets.

3. Receivables - Allowances for Doubtful Accounts

The amounts presented in the Balance Sheet and the Statement of Net Assets are net of the following allowances for doubtful accounts:

**TOWN OF HARRELLSVILLE
NOTES TO THE FINANCIAL STATEMENTS**

B. Liabilities

1. Pension Plan Obligations

The Town of Harrellsville does not participate in any type of retirement system.

2. Deferred Outflows and Inflows of Revenues

Deferred inflows of resources at year-end is composed of the following elements:

Taxes receivable	<u>\$ 2,104</u>
------------------	-----------------

3. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town carries commercial coverage for protection against loss of the Town's assets. The Town carries no liability coverage except that required for vehicles. The Town does not carry any flood insurance.

In accordance with G.S. 159-29, the Town's employees that have access to \$100 or more at any give time of the Town's funds are performance bonded through a commercial surety bond. The Finance Officer is bonded for \$100,000.

4. Long-Term Obligations

a. General Obligation Indebtedness

The Town's general obligation bonds serviced by the governmental funds were issued to finance the construction of facilities utilized in the operations of the water system and which are being retired by its resources are reported as long-term debt in the Water Fund. In the event of a default, the Town agrees to pay the purchaser, on demand, interest on any and all amounts due and owing by the Town under related agreements. All general obligation bonds are collateralized by the faith, credit, and taxing power of the Town. Principal and interest requirements are appropriated when due.

Bonds payable at June 30, 2020 are comprised of the following individual issues:

General Obligation Bonds

Serviced by the Water Fund:

\$620,000 water direct placement note issued November 11, 1996 and due in increasing annual installments from \$7,500 to \$25,500; plus interest at 4.2%; maturity date June 2034.

At June 30, 2020, the Town of Harrellsville had a legal debt margin of \$513,417.

Annual debt service requirements to maturity for general obligation bonds, including interest of \$440,474 are as follows:

Year Ending June 30	Business-type Activities		
	Payment Water Fund	Principal	Interest
2020 - 2021	36,232	17,500	18,732

b. Changes in Long-Term Liabilities

Business-type activities:

	<u>Beginning Balances</u>		<u>Increases</u>		<u>Decreases</u>		<u>Ending Balances</u>		<u>Current Portion</u>
General obligation bonds	\$ 316,589	\$		-	\$ 18,589	\$	298,000	\$	17,500

C. Interfund Balances and Activity

Balances Due to/from Other Funds

Balances due to/from other funds at June 30, 2020, consist of the following:

Due to/from other funds:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Enterprise Fund Water Fund	<u>\$ 4,689</u>

This interfund balance consisted of water expenses being paid by the general fund during the year.

IV. Summary Disclosure of Significant Contingencies

A. Federal and State Assisted Programs

The Town has received proceeds from State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

V. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

VI. Significant Effects of Subsequent Events

There have been no events that occurred between June 30, 2020 and the date of this report that have significant effect on the Town.
