Independent Auditor's Report

To the Honorable Mayor
and Members of the Town Council
Oak Island, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Oak Island, North Carolina, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Oak Island ABC Board, which represents 100 percent of the assets, net position, and revenues of the discretely presented component units. Those financial statements were audited by another auditor whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Oak Island ABC Board, is based solely on the report of another auditor. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Oak Island ABC Board were not audited in accordance with Government Auditing Standards.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Oak Island, North Carolina as of June 30, 2020, and the respective changes in financial position and cash flows, where appropriate, thereof and the respective budgetary comparison for the General Fund and the Beach Renourishment Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Other Post Employment Benefits' Schedule of Changes in the Total OPEB Liability and Related Ratios, the Local Government Employees' Retirement System's Schedules of the Proportionate Share of the Net Pension Asset (Liability) and Contributions, and the Law Enforcement Officers' Special Separation Allowance Schedules of Changes in Total Pension Liability and Total Pension Liability as a Percentage of Covered Payroll, respectively, be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of the Town of Oak Island, North Carolina. The introductory information, combining and individual fund statements, budgetary schedules, and other schedules and statistical section, as well as the accompanying Schedule of Expenditures of Federal and State Awards, as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purpose of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements, budgetary schedules, other schedules and the schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us. In our opinion, based on our audit, the procedures performed as described above, the combining and individual fund statements, budgetary schedules, other schedules and the schedule of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Governmental Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 24, 2020 on our consideration of Town of Oak Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, and other matters. The purpose of the report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Oak Island's internal control over financial reporting and compliance.

Management's Discussion and Analysis

**Town of Oak Island, North Carolina
Management's Discussion and Analysis
June 30, 2020**

Management's Discussion and Analysis

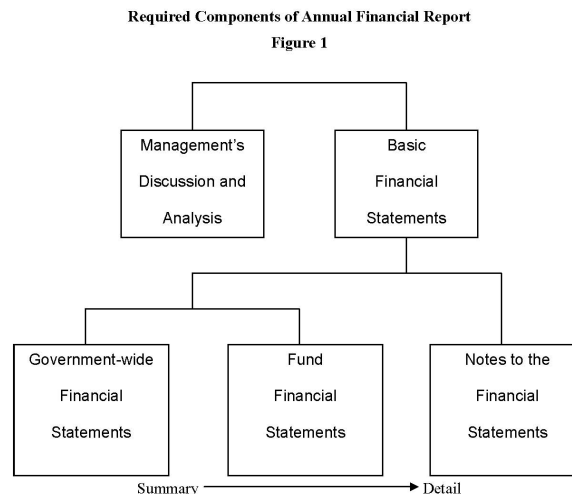

As management of the Town of Oak Island, we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town of Oak Island for the fiscal year ending June 30, 2020. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

Financial Highlights

- The assets and deferred outflows of resources of the Town of Oak Island exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$103,985,140(*net position*).
- The government's total net position increased by \$8,125,959 during the period
- As of the close of the current fiscal year, the Town of Oak Island's governmental funds reported combined ending fund balances of \$28,509,351 with an increase of \$8,998,723 in fund balance.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$15,755,572 or 102.80% percent of total governmental fund expenditures for the fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Town of Oak Island's basic financial statements. The Town's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Oak Island.

Town of Oak Island, North Carolina
Management's Discussion and Analysis (continued)
June 30, 2020

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Government-Wide Financial Statements**. They provide both short and long-term information about the Town's financial status.

The next statements (Exhibits 3 through 9) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements.

There are four parts to the Fund Financial Statements: 1) the governmental funds statements, 2) The budgetary comparison statements, 3) The proprietary fund statements, and 4) the fiduciary fund statements.

The next section of the basic financial statements is the **Notes to the Financial Statements**. The notes explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show additional details about the Town's individual funds. Budgetary information required by the North Carolina General Statutes can also be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, in a manner similar to the private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how it has changed. Net position is the difference between the Town's total assets, deferred outflows of resources, and total liabilities and deferred inflows of resources. Measuring net position is one way to gage the Town's financial condition.

The government-wide statements are divided into three categories: 1) governmental activities, 2) business-type activities, and 3) component unit. The governmental activities include most of the Town's basic services such as general government, public safety, parks and recreation, and general administration. Property taxes and State shared revenues finance most of these activities. The business-type activities are those that the Town charges customers to provide. These include the water and wastewater, solid waste, and storm water services offered by the Town of Oak Island as well as the South Harbour golf course activities. The final category is the component unit. Although legally separate from the Town, the ABC Board is important to the Town. The Town exercises control over the Board by appointing its members and the Board is required to distribute its profits to the Town.

Fund Financial Statements. The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Oak Island, like all other state and local governments, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance. All of the funds of Town of Oak Island can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Town of Oak Island, North Carolina
Management's Discussion and Analysis (continued)
June 30, 2020

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. The Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and monies that are unexpended at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting*, which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the Statement of Net position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Oak Island adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities.

The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Funds. The Town of Oak Island uses only one type of proprietary fund. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. Town of Oak Island uses enterprise funds to account for its water and wastewater, solid waste, storm water, and golf course operations. These funds are the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities. The water and wastewater funds are presented as major funds for the Town, while the solid waste, storm water, and golf course funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for these non-major funds is provided in the form of combining statements elsewhere within this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found following the financial statements of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the Town of Oak Island's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found beginning on Exhibit A-1 of this report.

Town of Oak Island, North Carolina
Management's Discussion and Analysis (continued)
June 30, 2020

Interdependence with Other Entities. The Town depends on financial resources flowing from, or associated with, both the Federal Government and the State of North Carolina. Because of this dependency, the Town is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State appropriations. It is also subject to changes in investment earnings and asset values associated with U.S. Treasury Securities because of actions by foreign government and other holders of publicly held U.S. Treasury Securities.

Total net position	\$ 48,542,988	\$ 38,956,357	\$ 55,442,152	\$ 56,902,824	\$ 103,985,140	\$ 95,859,181

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The assets and deferred outflows of the Town exceeded liabilities and deferred inflows by \$103,985,140 at the close of the current fiscal year. The Town's net position increased by \$8,125,959 for the fiscal year ended June 30, 2020. By far the largest portion of the Town's net position, 45.06%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, and infrastructure); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Town of Oak Island, North Carolina
Management's Discussion and Analysis (continued)
June 30, 2020

Although the Town's investment in its capital assets is reported net of related debt, it should note that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of net position, \$12,791,866 or 12.30%, represents the Town's resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position is \$44,333,678 or 42.63% of the total.

Management's Discussion and Analysis (continued)
June 30, 2020

Governmental activities. Governmental activities increased the Town's net position by \$9,586,631. An increase in grants and contributions are the main factors in the increase in net position.

Business-type activities. The business-type activities decreased the Town of Oak Island's net position. Net position of business activities decreased by \$1,460,672. A decrease in contributions and an increase in expenditures were the key components of the decrease in net position.

Financial Analysis of the Government's Funds

As noted earlier, the Town of Oak Island uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2020, the governmental funds of Town of Oak Island reported a combined fund balance of \$28,509,351 with a net increase in fund balance of \$8,998,723. Included in this change in fund balance are decreases in the fund balance of the General Fund and the Town's Other Governmental Funds. The General Fund is the chief operating fund of the Town of Oak Island. At the end of the 2020 fiscal year, the fund balance for the Town of Oak Island's General Fund reached \$16,749,248. Of this, \$929,536 was restricted, \$64,140 represented non-spendable inventories and prepaid expenditures leaving an unassigned fund balance of \$15,755,572 available for spending at the Town's discretion. The Governing Body of Town of Oak Island has determined that the Town should maintain an available fund balance of no less than 25% of general fund expenditures in case of unforeseen needs or opportunities, in addition to meeting the cash flow needs of the Town. The Town's general fund currently has an available fund balance of 102.80% of governmental fund expenditures.

General Fund Budgetary Highlights

During the fiscal year, the Town revised the budget on several occasions. Generally, budget amendments fall into one of three categories:

1. Amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available.
2. Amendments made to recognize new funding from external sources, such as federal and State grants.
3. Increases in appropriates that become necessary to maintain services and obligations from prior years not completed.

Proprietary Funds. The Town of Oak Island's proprietary funds provide the same type of information found in the government-wide statements, but in more detail. Unrestricted net position of the Town's proprietary funds at the end of the fiscal year amounted to \$33,026,268. The change in net position for the Water, Wastewater and Other Enterprise Funds was \$1,430,326, (\$2,839,873) and (\$51,125) respectively. The change in net position in the Water Fund is a result of excess charges for service producing revenues that exceed the expenditures in the fund. Since the Water and Wastewater operations together form the Town's Enterprise System, the excess Water Fund revenues help to offset those in the Wastewater Fund for bond covenant coverage test purposes.

Town of Oak Island, North Carolina
Management's Discussion and Analysis (continued)
June 30, 2020

Capital Assets and Debt Administration Capital Assets

The Town of Oak Island's investments in capital assets for its governmental and business-type activities as of June 30, 2020, totals \$123,862,786 (net of accumulated depreciation). The investments in capital assets includes land, buildings, improvements, furniture and equipment, infrastructure (including distribution systems), and vehicles.

Additional information on the Town's capital assets can be found in Note 5 of the Basic Financial Statements.

Long-term debt. As of June 30, 2020, the Town of Oak Island had total bonded debt outstanding of \$75,260,217. 100% of that amount represents bonds secured solely by specified revenue sources (e.g. revenue bonds.) The Town of Oak Island has no outstanding bonded debt backed by the full faith and credit of the Town.

Town of Oak Island Outstanding Debt

North Carolina's general statutes limit the amount of general obligation debt that a governmental unit can issue to 8% of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for the Town of Oak Island is presently at \$264,894,290 (the amount of additional debt the town could obligate itself to under NC General Statute).

Additional information pertaining to the Town of Oak Island's long-term debt can be found in the notes of this report.

Economic Factors and Next Year's Budgets and Rates

The following key economic indicators reflect the growth and prosperity of the Town.

- The Town over the last three years has had continued growth in the number of new building permits issued. This growth will result in an increase to the Town's tax base and in an increase in water and wastewater revenues.
- All debt service payments are fully funded as required by North Carolina State Law. In the last few years, the Town has refinanced outstanding debt to reduce terms, utilize lower interest rates and in turn, save funds for the Town.

Budget Highlights for the Fiscal Year Ending June 30, 2021

Governmental Activities: Town management will continue to prepare budgets to maintain spending where possible. The Town anticipates the funds produced by the increase in its tax base due to the increased building and an effort to reduce expenditures will be able to fund programs currently budgeted for and to build on reserves to fund future capital or operational needs.

Business-type Activities. The Sewer District Fee for utility system users (and potential users) remained the same with no increase. The Town continues to collect Wastewater Assessments to supplement the operations of the wastewater system. Management will continue to examine future rate increases for the generating of system revenues and to continue to reduce operating expenditures where feasible to enable the Town's system to maintain its services to the Town's utility customers.

Future Expenditures and Budget Priorities

The Town has signed a contract with an engineering firm to begin planning for the implementation of a long-term Beach Nourishment program. The funding of the Beach Nourishment program is still undetermined. Possible funding options are from multiple sources including ad valorem taxes, grants, assessments, etc.

Request for Information

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to:

TOWN OF OAK ISLAND, NORTH CAROLINA
Statement of Revenues, Expenditures, and Changes in Fund Balances
Governmental Funds
For the Year Ended June 30, 2020

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds \$ 8,998,723

Governmental funds report outlays for capital assets as expenditures. However, in the Statement of Activities the cost of those assets is allocated over the assets' estimated lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital outlay expenditures which were capitalized	\$ 814,981	
Depreciation expense for governmental assets	(1,249,810)	(434,829)

Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities		459,329
--	--	---------

Benefit payments paid and administrative expense for the LEOSSA are not included on the Statement of Activities		35,690
---	--	--------

OPEB benefit payments and administrative costs made in the current fiscal year are not included on the Statement of Activities		191,589
--	--	---------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.		
Change in unavailable revenue for property tax revenues		(8,466)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal payments on long-term debt		1,633,628
Decrease in accrued interest payable		

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Compensated absences	(40,357)	
Pension Expense LGERS	(879,396)	
Pension Expense LEOSSA	(72,620)	
OPEB plan expense	(296,660)	(1,289,033)

Change in net position of governmental activities		<u>\$ 9,586,631</u>

TOWN OF OAK ISLAND, NORTH CAROLINA

Notes to the Financial Statements

For the Fiscal Year Ended June 30, 2020

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Oak Island and its discretely presented component unit conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Town of Oak Island is a municipal corporation that is governed by an elected mayor and a five-member council. As required by generally accepted accounting principles, these financial statements present the town and its component unit, a legally separate entity for which the Town is financially accountable. The discretely presented component unit presented below is reported in a separate column in the Town's financial statements in order to emphasize that it is legally separate from the Town.

Town of Oak Island ABC Board

The Town of Oak Island ABC Board is a municipal corporation, which is governed by a Board appointed by the town. In addition, the ABC Board is required by State statute to distribute its surpluses to the General Fund of the Town. The Town of Oak Island ABC Board, which has a June 30 year-end, is presented as if it were a proprietary fund (discrete presentation). Complete financial statements for the Town may be obtained from the entity's administrative offices at Oak Island ABC Board, 5402 East Oak Island Drive, Oak Island, NC 28465.

B. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government and its component unit. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements include the financial activities of the overall government. These statements distinguish between the *governmental* and *business-type activities* of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds, including the fiduciary fund. Separate statements for each fund category – *governmental, proprietary, and fiduciary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation (Continued)

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies, result from non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings.

The Town reports the following major governmental funds:

General Fund. The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants and various other taxes and licenses. The primary expenditures are for administration, police, inspections, and parks and recreation. Additionally, the Town has legally adopted Capital Reserve Fund. Under GASB 54 guidance the Capital Reserve Fund is consolidated in the General Fund. The budgetary comparison for the Capital Reserve fund has been included in the supplemental information.

Beach Renourishment Special Revenue Fund. This fund is used to account for the continued environmental protection projects for our beaches

Accommodations Tax Special Revenue Fund. This fund is used to account for part of the accommodations tax revenues that are restricted for use for a particular purpose.

The Town reports the following non-major governmental funds:

Beach Tax Special Revenue Fund. This fund was developed after a Council approved split of the Accommodations tax fund and is used to account for the restricted tax revenues for beach re-nourishment.

Beach Preservation Special Revenue Fund. This fund is used to account for the donations that are restricted for publicizing and preserving the beach.

Pier Project Capital Projects Fund. This fund is used to account for the rebuilding of the Oak Island pier.

COVID-19 Fund. This fund is used to account for the grant contributions and expenses associated with COVID-19 issues and preparations.

The Town reports the following major enterprise funds:

Water Fund. This fund is used to account for the Town's water fund operations.

Wastewater Fund. This fund is used to account for the Town's wastewater operations.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation (Continued)

The Town reports the following non-major enterprise funds:

Solid Waste Fund. This fund is used to account for the Town's solid waste operations.

South Harbour Golf Course Fund. This fund is used to account for the Town's maintenance and operation of the golf course.

Sewer District Fee Fund. This fund is used to account for fees charged for the availability of sewer service. These fees can only be used for payment of debt of the wastewater system. The Sewer District Fee Fund is consolidated with the Wastewater Fund for presentation purposes.

Storm Water Fund. This fund is used to account for fees charged for the Town's storm water operations.

Pier Complex Fund. This fund is used to account for the Town's maintenance and operation of the pier complex.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-wide, Proprietary, and Fiduciary Fund Financial Statements. The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide, proprietary, and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's general ongoing operations. The principal operating revenues of the Town enterprise funds are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. Uncollected taxes that were billed in periods prior to September 1, 2013 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Sales taxes are considered shared revenue for the Town of Oak Island because the tax is levied by Brunswick County and then remitted to and distributed by the State. Most Intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes are reported as general revenues rather than program revenues. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net positions available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. Budgetary Data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund, Capital Reserve Fund, Accommodations Tax Fund, Beach Preservation Fund, Beach Tax Fund, Pier Project Fund, Water Fund, Wastewater Fund, Solid Waste Fund, South Harbour Golf Course Fund, Stormwater Fund, and Sewer District Fee Fund. All annual appropriations lapse at the fiscal year-end. Project budget ordinances are adopted for the Capital Project funds. The Wastewater Capital Project Fund and the Sewer District Fee Fund are consolidated with the Wastewater Fund for reporting purposes. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds and at the project level for the multi-year funds. The Town Manager is authorized to transfer appropriations within a fund as he sees necessary; however, the governing board must approve any revisions that alter the total expenditures of any fund or change functional appropriations by more than \$1,000. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

1. Deposits and Investments

All deposits of the Town and the ABC Board are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Town and the ABC Board may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town and the ABC Board to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances, and the North Carolina Capital Management Trust (NCCMT). The Town's and the ABC Board's investments are generally reported at fair value. The NCCMT Government Portfolio, a SEC-registered (2a-7) money market mutual fund, is measured at fair value. As of June 30, 2020, the Term portfolio has a duration of .15 years. Because the NCCMT Government and Term Portfolios have a weighted average maturity of less than 90 days, they are presented as an investment with a maturity of less than 6 months.

In accordance with State law, the Town has invested in securities which are callable, and which provide for periodic interest rate increases in specific increments until maturity. These investments are reported at fair value as determined by quoted market prices.

2. Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income and considers all cash and investments to be cash and cash equivalents. The ABC Board considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash and cash equivalents.

3. Restricted Assets

Certain proceeds of the Town's enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. As a part of the 2011 Series, 2015 Series, and 2017 Series Enterprise System Bond issuances, the Town established funds that could be drawn from as an assurance of the system's ability to meet annual debt payments. Those funds are held in special accounts that may be only used for this purpose should system revenues not be adequate to provide for the payments. These accounts are designated Debt Service Reserve accounts. Additionally, there are Interest Accounts where the interest drawn on these reserve accounts is deposited. The earnings in these accounts offset a portion of the interest expense associated with the related bond's next scheduled debt service payment. Customer deposits in the held by the Town before any services are supplied are restricted to the service for which the deposit was collected. Powell Bill funds are also classified as restricted cash because they can be expended only for the purposes of maintaining, repairing, constructing, reconstructing or widening of local streets per NC G.S. 136-41.1 through 136-41-4.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

3. Restricted Assets (Continued)

Town of Oak Island's Restricted Cash

Governmental Activities

General Fund	Streets	\$	463,663
	Stabilization by State Statute		<u>465,873</u>
Total Governmental Activities		\$	<u>929,536</u>

Business-type Activities

Water Fund	Customer Deposits	\$	102,427
Wastewater Fund	Unexpended Bond Revenue		<u>6,697,150</u>
Total Business-type Activities		\$	<u>6,799,577</u>

Total Restricted Cash		\$	<u><u>7,729,113</u></u>
-----------------------	--	----	-------------------------

4. Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Town levies ad valorem taxes on property other than motor vehicles on July 1st, the beginning of the fiscal year. The taxes are due on September 1st (lien date); however, interest does not accrue until the following January 6th. These taxes are based on the assessed values as of January 1, 2019. As allowed by state law, the Town has established a schedule of discounts that apply to taxes that are paid prior to the due date. In the Town's General Fund, ad valorem tax revenues are reported net of such discounts.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

6. Inventory and Prepaid Items

The inventories of the Town are valued at cost (first-in, first-out), which approximates market. The Town's General Fund inventory consists of expendable supplies that are recorded as expenditures as used rather than when purchased.

The inventories of the Town's general and enterprise funds consist of expendable supplies held for subsequent use. The cost of these inventories is expensed when consumed rather than when purchased. The cost of these inventories is expensed when sold rather when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements and expensed as the items are used.

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization cost is \$5,000. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets received prior to June 30, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 30, 2015 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. General infrastructure assets acquired prior to July 1, 2003, consisting mainly of road networks, are not reported, because the Town is a Phase III town under GASB 34, and is not required to report those assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Infrastructure	30
Utility Systems I	40
Utility Systems II	50
Utility Systems III	60
Buildings	40
Improvements	10-25
Motor Vehicles	5
Heavy Motor Vehicles	10
Computer and Electric Equipment	5
Office Equipment	10
Equipment	10
Intangible Assets	30

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

7. Capital Assets (Continued)

Property, plant and equipment of the ABC Board are depreciated over their useful lives on a straight-line basis as follows:

Asset Class	Estimated Useful Lives
Buildings	30-40
Furniture and Equipment	5-10
Paving	15

The Town and ABC Board evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. A capital asset is generally considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstance is outside the normal life cycle of the capital asset. Impaired capital assets that will no longer be used by the Town are reported at the lower of carrying value or fair value. Impairment losses on capital assets that will continue to be used by the Town are measured using the method that best reflects the diminished service utility of the capital asset. Any insurance recoveries received as a result of impairment events or changes in circumstances resulting in the impairment of a capital asset are netted against the impairment loss.

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town currently has two items that meet this criterion, contributions made to the pension plan in the 2018 fiscal year and OPEB benefits paid. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The town has several items that meet the criterion for this category - prepaid taxes, property taxes receivable, prepaid assessments, assessments receivable, and pension deferrals.

9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premiums or discount. Bond issuance costs, except for prepaid insurance costs, are expensed in the reporting period in which they are incurred. Prepaid insurance costs are expensed over the life of the debt.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

9. Long-Term Obligations (Continued)

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Compensated Absences

The vacation policy of both the Town and the ABC Board provides for the accumulation of up to two hundred forty (240) hours earned vacation leave with such leave being fully vested when earned. For the Town's government-wide and proprietary funds, an expense and a liability for compensated absences and the salary-related payments are recorded as the leave is earned. The Town has assumed a first-in, first-out method of compiling accumulated compensated time. The portion of that time that is estimated to be used in the next fiscal year has been designated as a current liability in the government-wide financial statements.

Both the Town and the ABC Board's sick leave policies provide for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since neither the Town nor the ABC Board has any obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

11. Net Position/Fund Balances

Net Position

Net position in government-wide and proprietary fund financial statements are classified as investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

11. Net Position/Fund Balances (Continued)

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Inventories – portion of fund balance that is not an available resource because it represents the year-end balance of ending inventories, which are not spendable resources.

Prepays – portion of fund balance that is not an available resource because it represents the year-end balance of prepaid expenses, which are not spendable resources.

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute – portion of fund balance that is restricted by State Statute [G.S. 159-8(a)]. North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. This calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". *Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget.* Per GASB guidance, RSS is considered a resource upon which is restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as nonspendable. Outstanding Encumbrances are included within RSS. RSS is included as a component of Restricted Net position and Restricted fund balance on the face sheet.

Restricted for Streets – Powell Bill portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds.

Restricted for Tourism – portion of fund balance that is restricted by revenue source for certain tourism related purposes. This amount represents the balance of the unexpended accommodations tax receipts.

Restricted for Cultural and Recreation – portion of fund balance that is restricted by revenue source for certain cultural and recreation related purposes. This amount represents the balance of funds restricted by donors for beach preservation as well as the pier project.

Restricted for Environmental Protection – portion of fund balance that is restricted by revenue source for certain environmental protection related purposes. This amount represents the balance of funds restricted for beach re-nourishment.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

11. Net Position/Fund Balances (Continued)

Committed Fund Balance – portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of the Town of Oak Island’s governing body (highest level of decision-making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Committed for Capital Projects - portion of fund balance committed by Town Council for certain capital project related purposes. This amount represents the balance in the legally budgeted capital reserve fund.

Committed for Transportation – portion of fund balance committed by Town Council for upcoming vehicle purchases.

Assigned Fund balance – portion of fund balance that the Town of Oak Island intends to use for specific purposes.

Unassigned Fund Balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Town of Oak Island has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-town funds, town funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed by in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it in the best interest of the Town.

12. Defined Benefit Cost-Sharing Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees’ Retirement System (LGERS) and additions to/deductions from LGERS’ fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Town of Oak Island’s employer contributions are recognized when due and the Town of Oak Island has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

None

III. DETAIL NOTES ON ALL FUNDS

A. Assets

1. Deposits

All the deposits of the Town and the ABC Board are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's or the ABC Board's agents in these units' names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town and the ABC Board, these deposits are considered to be held by the Town's and the ABC Board's agents in their names. The amount of the pledged collateral is based on an approved averaging method for non-interest-bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town, the ABC Board, or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town or the ABC Board under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Town and the ABC Board have no formal policy regarding custodial risk for deposits but rely on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Town complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2020, the Town's deposits had a carrying amount of \$57,250,302 and a bank balance of \$54,954,307. Of the bank balance, \$250,000 was covered by federal depository insurance and the remainder was covered by collateral held under the pooling method. At June 30, 2020, the Town's petty cash funds totaled \$2,010. The carrying amount of deposits for the ABC Board was \$1,012,437 and the bank balance was \$973,475. Of the bank balance, \$360,181 was covered by federal depository insurance and the remainder was maintained in institutions collateralizing deposits using the pooling method. At June 30, 2020, the ABC Board's cash on hand totaled \$1,500.

III. DETAIL NOTES ON ALL FUNDS (Continued)

A. Assets (Continued)

2. Cash and Cash Equivalents

The Town and the ABC Board have no formal policy regarding credit risk. At June 30, 2020 The Town's investment balances were as follows:

Investments by Type	Valuation Measurement Method	Book Value at 6/30/2020	Maturity	Rating
NC Capital Management Trust - Government Portfolio	Market	\$ 2,852,414	N/A	AAAm
US Bank	Market	\$ 6,346,073	N/A	AAAm
Total:		\$ 9,198,487		

All investments were measured using the market approach: using prices and other relevant information generated by market transactions involving identical or comparable assets or a group of assets.

Level of fair value hierarchy: Level 1 debt securities are valued using directly observable, quoted prices (unadjusted) in active markets for identical assets. Level 2 debt securities are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' benchmark quoted prices.

3. Receivables - Allowances for Doubtful Accounts (Continued)

The amounts presented in the Balance Sheet and the Statement of Net Position for the year ended June 30, 2020 are net of the following allowances for doubtful accounts:

General Fund:	
Taxes Receivable	10,456
Total General Fund	<u>10,456</u>
Enterprise Funds:	
Water Fund -Accounts Receivable	80,630
Wastewater Fund:	
Accounts Receivable	75,963
Sewer District Fees	1,408
Stormwater Fund	16
Solid Waste Fund	29,881
Total Enterprise Funds	<u>187,898</u>
Total	<u>\$ 198,354</u>

B. Liabilities

1. Pension Plan and Post Employment Obligations

a. Local Governmental Employees' Retirement System

Plan Description. The Town of Oak Island and the ABC Board is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local government entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

III. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

1. Pension Plan and Postemployment Obligations (Continued)

a. *Local Governmental Employees' Retirement System (Continued)*

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Town of Oak Island employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Town of Oak Island's contractually required contribution rate for the year ended June 30, 2020, was 9.70% of compensation for law enforcement officers and 9.03% for general employees and firefighters, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Town of Oak Island were \$606,649 for the year ended June 30, 2020.

Refunds of Contributions – Town employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60-day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions, or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Town reported a liability of \$2,525,010 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018. The total pension liability was then rolled forward to the measurement date of June 30, 2019 utilizing update procedures incorporating the actuarial assumptions. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2019, the Town's proportion was .09246%, which was an increase of 0.00445% from its proportion measured as of June 30, 2018.

III. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

1. Pension Plan and Postemployment Obligations (Continued)

a. Local Governmental Employees' Retirement System (Continued)

For the year ended June 30, 2020, the Town recognized pension expense of \$1,125,411. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 432,346	\$ -
Changes of assumptions	411,535	-
Net difference between projected and actual earnings on pension plan investments	61,588	-
Changes in proportion and differences between Town contributions and proportionate share of contributions	56,023	13,548
Town contributions subsequent to the measurement date	<u>606,649</u>	<u>-</u>
Total	<u>\$ 1,568,141</u>	<u>\$ 13,548</u>

\$606,649 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2020	\$ 455,425
2021	151,821
2022	259,814
2023	80,885
2024	-
Thereafter	-
	<u>\$ 947,945</u>

III. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

1. Pension Plan and Postemployment Obligations (Continued)

a. *Local Governmental Employees' Retirement System (Continued)*

Actuarial Assumptions. The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	3.5 to 8.10 percent, including inflation and productivity factor
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns, and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

III. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

1. Pension Plan and Postemployment Obligations (Continued)

a. *Local Governmental Employees' Retirement System (Continued)*

The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2019 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	100.0%	

The information above is based on 30-year expectations developed with the consulting actuary for the 2018 asset, liability, and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town's proportionate share of the net pension asset to changes in the discount rate. The following presents the Town's proportionate share of the net pension asset calculated using the discount rate of 7.00 percent, as well as what the Town's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate:

<u>1% Decrease (6.00%)</u>	<u>Discount Rate (7.00%)</u>	<u>1% Increase (8.00%)</u>
\$ 5,775,161	\$ 2,525,010	\$ (176,523)

a. *Local Governmental Employees' Retirement System (Continued)*

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

b. *Law Enforcement Officers Special Separation Allowance*

1. Plan Description

The Town of Oak Island administers a public employee retirement system (the "Separation Allowance"), a single-employer defined benefit pension plan that provides retirement benefits to the Town's qualified sworn law enforcement officers under the age of 62 who have completed at least 30 years of credible service or have attained 55 years of age and have completed five years or more of credible service. The Separation Allowance is equal to 0.85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

All full-time law enforcement officers of the Town are covered by the Separation Allowance. At December 31, 2018, the Separation Allowance's membership consisted of:

Retirees receiving benefits	<u>2</u>
Active plan members	<u>22</u>
Total	<u>24</u>

2. Summary of Significant Accounting Policies

Basis of Accounting. The Town has chosen to fund the Separation Allowance on a pay-as-you-go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

The Separation Allowance has no assets accumulated in a trust that meets the following criteria which are outlined in GASB Statements 73.

1. Pension Plan and Postemployment Obligations (Continued)

b. *Law Enforcement Officers Special Separation Allowance (Continued)*

3. Actuarial Assumptions

The entry age actuarial cost method was used in the December 31, 2018 valuation. The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Inflation	2.5 percent
Salary increases	3.50 to 7.35 percent, including inflation and productivity factor
Discount rate	3.26%

The discount rate is based on the yield of the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2018.

Mortality rates are based on the RP-2000 Mortality tables with adjustments for mortality improvements based on Scale AA.

4. Contributions

The Town is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the amounts necessary to cover the benefits earned on a pay-as-you-go basis through appropriations made in the General Fund operating budget. The Town's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Administration costs of the Separation Allowance are financed through investment earnings. The Town paid \$35,690 as benefits came due for the reporting period.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Town reported a total pension liability of \$703,191. The total pension liability was measured as of December 31, 2019 based on a December 31, 2018 actuarial valuation. The total pension liability was then rolled forward to the measurement date of December 31, 2019 utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2020, the Town recognized pension expense of \$72,620.

Differences between expected and actual experience in the measurement of the total pension liability	(59,124)
Changes of assumptions or other inputs	20,290
Benefit payments	(35,690)
Other changes	-
Ending balance of the total pension liability	<u>\$ 703,191</u>

The plan currently uses mortality tables that vary by age, and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

c. Supplemental Retirement Income Plan for Law Enforcement Officers

Plan Description. The Town contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers employed by the Town. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy. Article 12E of G.S. Chapter 143 requires the Town to contribute each month an amount equal to five percent of each officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may also make voluntary contributions to the plan. In addition, the Town has elected to match up to two percent of the contributions made by the employees not engaged in law enforcement to the Supplemental Retirement Income Plan.

Contributions for the year ended June 30, 2020 were \$253,124, which consisted of \$186,494 for general employees the Town and \$66,630 for the law enforcement officers. No amounts were forfeited.

III. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

1. Pension Plan and Postemployment Obligations (Continued)

d. **Other Postemployment Benefit**

1. Healthcare Benefits

Plan Description. Under the terms of a Town resolution, the Town administers a single employer defined benefit Healthcare Benefits Plan (the HCB Plan). As of July 1, 2007, this plan provides postemployment healthcare benefits to retirees of the Town, provided they participate in the North Carolina Local Governmental Employees' Retirement System (System) and have at least 20 years of creditable service with the Town.

Prior to July 1, 2007, employees qualified for similar level benefits after a minimum of five years of creditable service with the Town. The Town pays the full cost of coverage for employees' benefits through private insurers and employees have the option of purchasing dependent coverage at the Town's group rates. Employees hired on or after July 1, 2007 who retire with a minimum of 20 years of creditable service also have the option of purchasing coverage for themselves and dependents at the Town's group rate. Employees hired on or after July 1, 2007 who retire with less than 20 years of service are not eligible for postemployment benefit coverage. Retirees who qualify for coverage receive the same benefits as active employees. Coverage for all retirees who are eligible for Medicare will be transferred to a Medicare Supplemental plan after qualifying for Medicare. The Town Council may amend the benefit provisions. A separate report was not issued for the plan.

An employee who has a minimum of fifteen years in the North Carolina Local Government Employees Retirement System ("NCLGERS"), and a minimum of five years of creditable service to the Town, and are fifty-five years of age or older may continue health insurance with the Town until age sixty-five. The retiree shall share the cost of coverage at the rate of 5% for every year of service to the NCLGERS below twenty-five years. Medicare supplemental insurance shall be offered to retirees sixty-five or older who meet the above criteria with all costs being borne by the retiree. Continuation of coverage for the retiree's spouse or family may be allowed until the retiree reaches age sixty-five, provided all costs are borne by the retiree.

An employee retiring from the Town of Oak Island who has a minimum of twenty-five years in the NCLGERS, a minimum five years of creditable service with the Town and who is fifty years of age or older, may continue health insurance coverage with the Town until age sixty-five at no cost to the retiree. Medicare supplemental insurance shall be offered to retirees sixty-five or older who meet the above criteria with all costs being borne by the retiree. Continuation of coverage for the retiree's spouse or family shall be available until the retiree reaches age sixty-five, provided all costs are borne by the retiree.

An employee retiring from the Town of Oak Island who has five continuous years of service with the Town, and thirty continuous years of service to the NCLGERS, regardless of age, may continue health insurance coverage with the Town until age sixty-five at no cost to the retiree. Medicare supplemental insurance shall be offered to retirees sixty-five or older who meet the above criteria with all costs being borne by the retiree. Continuation of coverage for the retiree's spouse or family may be allowed until the retiree reaches age sixty-five, provided all costs are borne by the retiree.

Under either of the above, service with the Town of Long Beach or Town of Yaupon Beach will qualify as service to the Town of Oak Island. The Town Council may amend the benefit provisions. A separate report was not issued for the plan.

d. *Other Postemployment Benefit (Continued)*

1. Healthcare Benefits (Continued)

Membership in the HCB Plan consisted of the following at December 31, 2019 the date of the latest actuarial valuation

	General Employees	Law Enforcement Officers
Retirees and dependents receiving benefits	6	2
Terminated plan members entitled to, but not yet receiving benefits	-	-
Active plan members	108	22
Total	114	24

Total OPEB Liability

The Town's total OPEB liability of \$4,014,582 was measured as of June 30, 2019 and was determined by an actuarial valuation as of that date.

Actuarial assumptions and other inputs. The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	2.5 percent
Salary Increases	3.5 percent, average, including inflation and
Discount Rate	3.5 percent
Health Care Cost Trend Rates	7.00 percent for 2019 decreasing to an ultimate rate of 4.50 percent by 2026

The discount rate is based on the June average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by The Bond Buyer.

Total	<u>\$ 104,266</u>	<u>\$ 208,632</u>

Amounts reported as deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Year ended June 30:	
2020	26,488
2021	26,488
2022	26,488
2023	26,488
2024	19,549
Thereafter	(21,135)

III. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

2. Other Employment Benefits

The Town has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Government Employees' Retirement System (Death Benefit Plan), a multiple employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employers who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump-sum death benefit payments to beneficiaries are equal to the employee's 12 highest month's salary in a row during the 24 months prior to the employee's death, but the benefit may not exceed \$50,000 or be less than \$25,000. Because all death benefit payments are made from the Death Benefit Plan and not by the Town, the Town does not determine the number of eligible participants. The Town has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. Contributions are determined as a percentage of monthly payroll based upon rates established annually by the State. Separate rates are set for employees not engaged in law enforcement and for law enforcement officers. The Town considers these contributions to be immaterial.

3. Deferred Outflows and Inflows of Resources of Resources

The Town has several deferred outflows of resources. Deferred outflows of resources are comprised of the following:

<u>Source</u>	<u>Amount</u>
Contributions to pension plan in current fiscal year	\$ 606,649
Benefit payments made and administrative expenses for LEOSSA	-
Benefit payments made and administrative expenses for OPEB	-
Differences between expected and actual experience	515,965
Changes of assumptions and other inputs	448,910
Net difference between projected and actual earnings	61,588
Changes in proportion and differences between Town contributions and proportionate share of contributions	<u>56,023</u>
Total	<u>\$ 1,689,135</u>

III. DETAIL NOTES ON ALL FUNDS (Continued)

A. Liabilities (Continued)

3. Deferred Outflows and Inflows of Resources of Resources (continued)

The balance in deferred inflows of resources is comprised of the following:

	<u>Statement of Net Position</u>	<u>General Fund Balance Sheet</u>
Prepaid Taxes (General Fund)	\$ 27,655	\$ 21,618
Prepaid Assessments (Water and Water Sewer Fund)	43,822	
Taxes receivable, less penalties (General Fund and Beach Renourishment Fund)	-	70,843
Changes in assumptions	22,712	-
Differences between expected and actual experience	49,154	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-
	<u>13,548</u>	<u>-</u>
Total	<u>\$ 156,891</u>	<u>\$ 92,461</u>

4. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates in two self-funded risk-financing pools administered by the North Carolina League of Municipalities. Through these pools, the Town obtains general liability and auto liability coverage of \$2 million per occurrence, property coverage up to the total insurance values of the property policy, workers' compensation coverage up to statutory limits. The pools are reinsured through commercial companies for single occurrence claims against general liability, auto liability and workers' compensation in excess of \$1,000,000 and property in excess of \$500,000. The property liability pool has an aggregate limit for the total property losses in a single year, with the reinsurance limit based upon a percentage of the total insurance values.

The Town provides health, dental, vision and life insurance through a commercial vendor. Employee health claims are insured to with no lifetime limit. Employees can provide dependent if desired.

The Town carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage in the prior year and settled claims have not exceeded coverage in any of the past three fiscal years.

The Town carries flood insurance through the National Flood Insurance Program ("NFIP") for Town Hall. Town Hall was required to obtain flood insurance as part of their installment purchase agreement. The Town does not feel that additional flood insurance is necessary because the danger of flooding as defined by the insurance companies is low.

In accordance with G.S. 159-29 the Town's employees that have access to \$100 or more at any given time of the Town's funds are performance bonded through a commercial surety bond. The finance officer and tax collector are bonded for \$100,000 and \$50,000 respectively. The remaining employees that have access to funds are bonded under a blanket bond for \$50,000.

III. DETAIL NOTES ON ALL FUNDS (Continued)

A. Liabilities (Continued)

4. Risk Management (Continued)

The Town of Oak Island ABC Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The ABC Board has property, general liability, auto liability, workers' compensation, and employee health coverage. The ABC Board also has liquor legal liability coverage. There have been no significant reductions in insurance coverage in the prior year and settled claims have not exceeded coverage in any of the past three fiscal years.

5. Claims, Judgments and Contingent Liabilities

At June 30, 2020, the Town was a defendant to the following claims and lawsuits. In the opinion of the Town's management and the Town Attorney, the ultimate effect of these legal matters could possibly have a material adverse effect on the Town's financial position.

1) ***CFL Homes v Town of Oak Island***. This action is a potential class action against the Town brought by a builder who alleges it paid "impact fees" (water and sewer capacity or impact fees) to the Town. The suit was filed on July 10th, 2019. The Plaintiff is attempting to certify as a class all developers/persons who paid such fees to the Town within the three years preceding the filing of the suit. The Interlocal Risk Financing Fund of North Carolina (the Town's risk pool) retained Dan Hartzog, Jr. to defend the action. Mr. Hartzog and his firm are defending several other similar suits filed throughout the State of North Carolina. This case is presently in the discovery phase. The Town is vigorously defending and intends to proceed to the highest level of appellate court if the Town does not prevail. The Town predominant defense that all impact fees charged to builders and developers were equitable and just and represent costs associated with said builders and developers use of the existing water and sewer systems, not for future expansion of the town's systems. The Town will move for summary judgment in this case at the conclusion of discovery. If the Court rules in favor of the Plaintiff on the merits and on class action certification and enters judgment accordingly, the Town will then appeal to the North Carolina Court of Appeals. If the Court rules in favor of the Town, the Plaintiff will likewise likely appeal to the North Carolina Court of Appeals. Any decision from the North Carolina Court of Appeals would take over a year, and the appeal could be further prolonged by at least another year if either party appeals to the North Carolina Supreme Court. Because of the uniqueness of the Town's defense in this action, there are no similar cases that allow an accurate prediction of the outcome. The most that I can say is that, in my opinion, the Town has the better position on liability. Part of the problem in making prediction in this action is that the decision from our appellate courts is subject to the political makeup of the appellate court that ultimately addresses the issues. The composition of the Court of Appeals' judges hearing any given matter is always an unknown. The composition of the North Carolina Supreme Court could change before this case is finally decided. If the Town were to lose on liability, and if class action is certified, the Town could face significant liability however that number is unknown at this time. This case is only six months old and the Town is presently assessing the amount of impact fees at issue.

III. DETAIL NOTES ON ALL FUNDS (Continued)

A. Liabilities (Continued)

5. Claims, Judgments and Contingent Liabilities (Continued)

2). **Cashwell, et al v. Town of Oak Island** This case was initially filed August 30, 2019, constitutes Brad Johnson's fourth challenge to Oak Island's SDF (see discussion on Johnson, et al v. Oak Island, above). The Complaint and First Amended Complaint purport to assert claims, among other matters, for violation of equal protection and taking of property without just compensation in violation of the United States Constitution. There is no real distinction between the Plaintiffs' state and federal constitutional claims. The Supreme Court of North Carolina has held the requirements of equal protection and due process are, for all practical purposes, the same under both the State and Federal Constitutions. In February of this year the North Carolina Supreme Court upheld the legality of the Town's assessment of Sewer District Fees under the North Carolina Constitution so once the Court resumes in person motion hearings we will move to dismiss this case at which time I believe the Court will grant our motion and dismiss this case.

3). **Hearn v. Town of Oak Island.** On October 19, 2020 former Oak Island Police Officer Christina Hearn filed a lawsuit in federal court alleging the Town unconstitutionally terminated her on August 2, 2019. The Town denies these allegations and is confident in its position in this case. I am of the opinion that Town is not liable to Ms. Hearn and will ultimately prevail in this action.

B. Liabilities (Continued)

6. Long-Term Obligations

a. Installment Purchases

The Town has entered into various installment purchase contracts to finance the acquisition and renovation of various land and facilities. These installment purchase contracts are outlined as follows:

Governmental Activities

On July 1, 2015, the Town entered into an installment purchase contract with BB&T for construction of police headquarters, due in annual principal installments of \$320,000 plus interest of 2.25% through September 2021.

On July 1, 2015 the Town entered into an installment purchase contract with BB&T for construction of fire stations at Yaupon Beach and South Harbour, due in annual principal installments of \$572,100 plus interest of 2.25% through September 2021.

On July 1, 2015, the Town entered into an installment purchase contract with BB&T for additional financing for the construction of police headquarters, due in annual principal installments of \$153,528 in odd years, and \$158, 528 in even years, plus interest of 2.25% through September 2021.

On July 1, 2015, the Town entered into an installment purchase contract with BB&T for the construction of Town Hall, due in annual principal installments of \$588,000 plus interest of 2.25% through September 2021.

III. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

6. Long-Term Obligations

a. Installment Purchases

Annual debt service payments of the installment purchases as of June 30, 2020, including \$46,368 of interest, are as follows:

Years Ending June 30:	Governmental-Type Activities	
	Principal	Interest
2021	1,633,628	46,368
Total	<u>\$ 1,633,628</u>	<u>\$ 46,368</u>

b. Revolving Loans

In January 2008, the Town entered into a \$9,000,000 revolving loan from the North Carolina Department of Environment and Natural Resources for a sanitary sewer project. The revolving loan requires bi-annual interest payments due on November 1 and May 1 and an annual principal payment due on May 1; interest is at 2.10%. Through June 30, 2013 the Town had drawn \$7,525,146. The period for withdrawals has expired and there will be no future withdrawals.

Additionally, in March 2009, the Town was approved for a second revolving loan from the North Carolina Department of Environment and Natural Resources in the amount of \$8,500,000 for a sanitary sewer project. The revolving loan requires bi-annual interest payments due on November 1 and May 1 and an annual principal payment due on May 1; interest is at 2.48%. Through June 30, 2013 the Town had drawn \$6,579,167. The period for withdrawals has expired and there will no future withdrawals.

Annual debt service payments of the revolving loans as of June 30, 2019, including \$924,598 of interest, are as follows:

Years Ending June 30:	Business-type Activities	
	Principal	Interest
2021	713,739	170,141
2022	729,975	153,906

Coverage Test 704(a)	1.68
Coverage Test 704(b)	1.31

*In accordance with the Revenue Bond trust agreement assessment revenues shall be included in revenues if and to the extent specified in the Officer's Certificate filed in such fiscal year. In the current year \$858,833 in assessment revenue was included.

*Per rate covenants, this does not include depreciation expense of \$4,574,593.

** Per rate covenants, this does not include revenue bond interest expense of \$3,447,583.

The Town has pledged future water and wastewater customer revenues, net of specified current expenses, to repay \$78,660,783 in water and wastewater revenue bonds issued in January 2011 and July 2015, and February 2017. Proceeds from the bonds provided financing for the extension to the wastewater system to the entire island. The bonds are payable solely from water and wastewater income available for debt service and are payable through 2036. The total principal and interest remaining to be paid on the bonds, net of issuance premium, is \$102,315,008. Principal and interest paid for the current year was \$7,220,450. Section 706 (b) of the Bond Order requires that the amount held by the Trustee be reported in the audit report.

From the Water Fund to the Wastewater Fund		21,000
From the Water Fund to the Capital Reserve Fund		266,000
From the Stormwater Fund to the Capital Reserve Fund		30,000
From the Sewer District Fund to the Wastewater Fund		<u>6,820,756</u>
Total	<u>\$</u>	<u>10,130,470</u>

Transfers are used to move unrestricted revenues to finance various programs and projects that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as matching funds for various grant programs.

During the 2020 fiscal year, the Town made a one-time transfer from the General Fund to the Solid Waste Fund of \$265,000 for repairs made from Hurricane damage.

During the 2020 fiscal year, the Town made a one-time transfer from the General Fund to the Wastewater Fund of \$268,800 for Wastewater Assessments for the Town.

During the 2020 fiscal year, the Town made a one-time transfer from the General Fund to the South Harbour Golf Course Fund of \$85,000 to assist with the funding of the maintenance of the Golf Course.

During the 2020 fiscal year, the Town made a one-time transfer from the General Fund to the Pier Complex Fund of \$140,000 for repairs of the Pier Complex.

During the 2020 fiscal year, the Town made transfers of \$162,500 from the General Fund to the Capital Reserve Fund for future capital outlay.

During the 2020 fiscal year, the Town made a one-time transfer from the Accommodations Tax Fund to the Beach Renourishment Fund of \$750,000 to assist with beach renourishment costs caused by various Hurricanes.

During the 2020 fiscal year, the Town made a one-time transfer from the Beach Tax Fund to the Beach Renourishment Fund of \$500,000 to assist with beach renourishment costs caused by various Hurricanes.

III. DETAIL NOTES ON ALL FUNDS (Continued)

C. Interfund Balances and Activity (Continued)

During the 2020 fiscal year, the Town made a one-time transfer from the Pier Project Fund to the Accommodations of \$821,414 for reimbursement of payments made for assistance with repairs to the Pier.

During the 2020 fiscal year, the Town made a one-time transfer from the Water Fund to the Wastewater Fund of \$21,000 to assist in the funding of the debt service of the Wastewater Fund.

During the 2020 fiscal year, the Town made a one-time transfer of \$266,000 from the Water Fund to the Capital Reserve Fund for future capital outlay.

During the 2020 fiscal year, the Town made a one-time transfer from the Stormwater Fund to the Capital Reserve Fund of \$30,000 for future capital outlay.

During the 2020 fiscal year, the Town made a one-time transfer from the Sewer District Fund to the Wastewater Fund of \$6,820,756 to assist in the funding of the debt service of the Wastewater Fund.

D. Fund Balance

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation:

Total Fund Balance - General Fund	\$ 16,749,248
Less:	
Inventories	12,550
Prepays	51,590
Stabilization by State Statute	465,873
Streets-Powell Bill	463,663
Appropriated Fund Balance in 2020 budget	-
Remaining Fund Balance	\$ 15,755,572

IV. JOINTLY GOVERNED ORGANIZATION

A. Cape Fear Council of Governments

The Town in Conjunction with four counties and forty other municipalities established the Cape Fear Council of Governments ("Council"). The participating governments established the Council to coordinate various funding received from federal and State agencies. Each participating government appoints one member to the Council's governing board. The Town paid membership fees of \$1,673 to the Council during the fiscal year ended June 30, 2019. Complete financial information for the Council can be obtained from the Council's administrative offices at 1480 Harbour Drive, Wilmington, NC 28401.

IV. JOINTLY GOVERNED ORGANIZATION (Continued)

B. Brunswick County Airport Commission

The Town in conjunction with Brunswick County and the Town of Southport established the Brunswick County Airport Commission. The purpose of the Commission is to acquire land, establish, construct, own, control, lease, equip, improve, maintain, operate, and regulate airports or landing fields within the County, to provide and maintain an airport facility for the use of the general aviation public and to promote the economic development of Brunswick County. The Town of Oak Island appoints two members and the Town of Southport appoints one member to the Commission while Brunswick County appoints a total of four. The Town is not obligated to furnish any funds to the Commission, but in the past has made contributions, during the year ended June 30, 2020, the Town made no contributions to the Commission. The participating governments do not have any equity interest in the Commissions, so no equity interest has been reflected in the Town's financial statements at June 30, 2020. Complete financial information for the Airport Commission can be obtained at the airport's administrative offices at 380 Long Beach Road, Southport, NC 28461.

C. West Brunswick Regional Water Reclamation Facility

The Facility is owned, operated and maintained by Brunswick County, The Town of Oak Island, Town of Holden Beach, Town of Shallotte and the County have entered into a wastewater service agreement for a portion of the treatment capacity in the plant. Currently the Town of Oak Island is allocated treatment of three million gallons per day. Each participant is charged capacity service fees based on their share of capacity in the plant. Participants are also charged treatment service fees based on their share of capacity in the plant, Participants are also charged treatment service fees based on metered flow they send to the plant. The participant fees and costs allocation to the County for their flow are combined so that the operating and maintenance costs of the plant are recovered by county retail revenues and participant service fees on a proportional and breakeven basis. Each participant can appoint one representative and one alternate to an Oversight Committee. This committee makes budget and operating recommendations to the County Commissioners. During the year ended June 30, 2019 the Town of Oak Island recorded \$2,808,105 in capacity fees and \$509,952 in service fees to Brunswick County.

V. SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Federal and State Assisted Programs

The Town has received proceeds from several federal and State grants. Periodic audits of these grants are required, and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

VI. SUBSEQUENT EVENTS

Events occurring after June 30, 2020 were evaluated by management on November 24, 2020 to ensure that any subsequent events that met the criteria for recognition and or disclosure in these financial statements have been included. In management's opinion, there are no events that require disclosure in these financial statements.

Statistical Section

This part of the Town of Oak Island's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information say about the Town of Oak Island's overall financial condition. The schedules included in this section can be categorized as follows:

Financial Trends

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the government's most significant revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Sources: *Unless otherwise noted, the information in these schedules is derived from from the comprehensive annual financial reports for the relevant year. The Town implemented GASB Statement 34 in 2004*

Notes:

(1) Property is revalued every four years. Property was last revalued in January, 2019 and will be revalued again in 2023.

(2) The property tax rates listed above are based on unit-wide tax rates. Certain motor vehicles were taxed at the preceding year's rate.

(3) Overlapping rates are those of local and county governments that apply to property owners with the Town of Oak Island. Not all overlapping rates apply to all Town of Oak Island property owners (e.g. the rates for the Smithville Township apply only to the town's property owners whose property is located within the geographic boundaries of the Smithville Township).

(4) The Smithville Township is a hospital district. The levy collected is specific for debt retirement and capital improvements on behalf of the citizens of Smithville Township.

(5) Components of the Overlapping Rates are not available

Notes:

- (1) The Town issued wastewater revenue bonds in 2008, 2009, 2011, 2015, and 2017.
- (2) Non-operating Revenues include investment earnings.
- (3) Operating expenses are exclusive of depreciation and interest expense.
- (4) All enterprise fund debt service includes Revenue Bonds, State loans and other installment debt plus accrued interest at fiscal year end.
- (5) 15% of Unrestricted Net Assets is calculated as 15% of the previous fiscal year ending Cash and Investment Balance
- (6) In accordance with the Revenue Bond Trust Agreement definition of "Revenue", "Assessment Revenues shall not be included in Revenues in the Fiscal Year of receipt if and to the extent that an Officer's Certificate is filed that specifies that such amounts shall not be included in Revenues in such Fiscal year, and such amounts shall be included in Revenues if and to the extent specified in an Officer's Certificate filed in future Fiscal Years."

**Report On Internal Control Over Financial Reporting And On Compliance and Other
Matters Based On An Audit Of Financial Statements Performed In Accordance With
*Government Auditing Standards***

Independent Auditor's Report

**To the Honorable Mayor and
Members of the Town Council
Town of Oak Island, North Carolina**

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the discretely present component units, each major fund, and the aggregate remaining fund information of the Town of Oak Island, North Carolina as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprises the Town of Oak Island, North Carolina's basic financial statements, and have issued our report thereon dated November 24, 2020. The financial statements of the Town of Oak Island Board of Alcoholic Control were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Oak Island, North Carolina's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Oak Island, North Carolina's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Oak Island, North Carolina's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for a limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider material weaknesses. However, material weaknesses may exist that were not identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Oak Island, North Carolina's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report On Compliance For Each Major State Program; Report on Internal Control Over Compliance; In accordance with OMB Uniform Guidance; and the State Single Audit Implementation Act

Independent Auditor's Report

To the Honorable Mayor and
Members of Town Council
Town of Oak Island, North Carolina

Report on Compliance for Each Major State Program

We have audited the Town of Oak Island, North Carolina, compliance with the types of compliance requirements described in the *OMB Compliance Supplement* Audit Manual for Governmental Auditors in North Carolina, issued by the Local Government Commission, that could have a direct and material effect on each of the Town of Oak Island's major state programs for the year ended June 30, 2020. The Town of Oak Island's major state programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with state statutes, regulations, contracts and the terms and conditions of its state awards applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion for each of the Town of Oak Island's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State Single Audit Implementation Act. Those standards, Uniform Guidance, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Town of Oak Island's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Town of Oak Island's compliance.

Opinion on Each Major State Program

In our opinion, the Town of Oak Island complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Town of Oak Island is responsible for establishing and maintaining effective internal control over compliance with the types of requirements referred to above. In planning and performing our audit of compliance, we considered the Town of Oak Island's internal control over compliance with the types of requirements that could have a direct and material effect on a major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Town of Oak Island's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control over compliance that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal and State Financial Awards:

1. Basis of presentation

The accompanying schedule of expenditures of federal and State awards (SEFSA) includes the federal and State grant activity of the Town of Oak Island under the programs of the federal government and the State of North Carolina for the year ended June 30, 2020. The information in this SEFSA is presented in accordance with the requirements of Title 2 US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the State Single Audit Implementation Act. Because the Schedule presents only a selected portion of the operations of the Town of Oak Island, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Town of Oak Island.

2. Summary of Significant Accounting Principles

Expenditures reported in the SEFSA are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. Indirect Cost Rate

The Town of Oak Island has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.
