INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the Town Council Town of Staley Staley, North Carolina

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Staley, North Carolina, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes

Member - American Institute of Certified Public Accountants - North Carolina Association of Certified Public Accountants

To the Honorable Mayor and Members of the Town Council Town of Staley Page Two

evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, based on my audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Staley, North Carolina, as of June 30, 2020, and the respective changes in financial position, where appropriate, thereof and the respective budgetary comparison for the General Fund and Cemetery Care Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 10, be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the basic financial statements of the Town of Staley, North Carolina. The individual fund statements, budgetary schedules, and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

To the Honorable Mayor and Members of the Town Council Town of Staley Page Three

The individual fund statements, budgetary schedules, and other schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by me. In my opinion, based on my audit, and the procedures performed as described above, the individual fund statements, budgetary schedules, and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

As management of the Town of Staley (the "Town"), we offer readers of the Town of Staley's financial statements this narrative overview and analysis of the financial activities of the Town of Staley for the fiscal year ended June 30, 2020. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

Financial Highlights

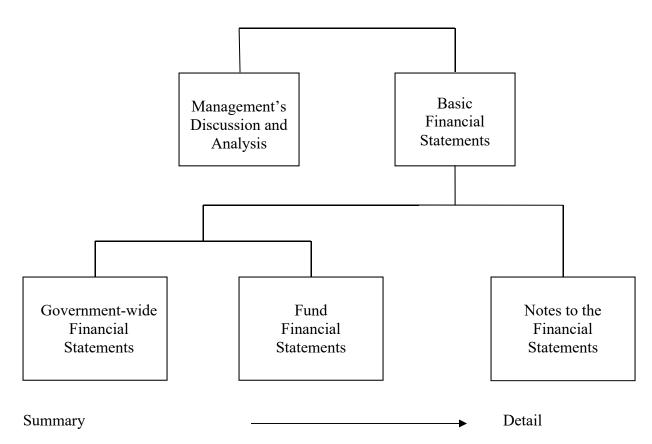

- The assets of the Town of Staley exceeded its liabilities at the close of the fiscal year by \$889,661 (net position).
- The government's total net position increased by \$30,429.
- As of the close of the current fiscal year, the Town of Staley's governmental funds reported combined ending fund balances of \$719,731 a decrease of \$85,711 in comparison with the prior year. Approximately 58 percent of this total amount, or \$420,594 is available for spending at the government's discretion.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$420,594. This unassigned fund balance of the General Fund would approximate two years of general fund expenditures for the Town of Staley based on expenditure levels of the town for the fiscal year ended June 30, 2020.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Town of Staley's basic financial statements. The Town's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Staley.

Required Components of Annual Financial Report

Figure 1

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Government-Wide Financial Statements**. They provide both short and long-term information about the Town's financial status.

The next statements (Exhibits 3 through 5) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are two parts to the Fund Financial Statements: 1) the governmental funds statements; and 2) the budgetary comparison statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Town's individual funds. Budgetary information required by the North Carolina General Statutes also can be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how it has changed. Net position is the difference between the Town's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are composed of the one category of governmental activities. The governmental activities include most of the Town's basic services such as general administration, public safety, streets, environmental protection and economic development. Property taxes, unrestricted intergovernmental revenues and Powell bill funds finance the Town's governmental activities.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Staley, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance.

Governmental Funds - Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Staley adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Council about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether the Town

succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 17.

Government-Wide Financial Analysis

The Town of Staley's Net Postion Figure 2

| | | Governmental | | | | | |
|----------------------------------|----|--------------|----|---------|--|--|--|
| | | Activities | | | | | |
| | _ | 2020 | | 2019 | | | |
| Current and other assets | \$ | 724,533 | \$ | 810,571 | | | |
| Capital assets | | 168,509 | | 52,246 | | | |
| Total assets | _ | 893,042 | | 862,817 | | | |
| Current liabilities | | 3,381 | | 3,585 | | | |
| Total liabilities | _ | 3,381 | | 3,585 | | | |
| Net position: | | | | | | | |
| Net investment in capital assets | | 168,509 | | 52,246 | | | |
| Restricted | | 286,849 | | 373,535 | | | |
| Unrestricted | | 434,303 | | 433,451 | | | |
| Total net position | \$ | 889,661 | \$ | 859,232 | | | |

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets of the Town of Staley exceeded liabilities by \$889,661 as of June 30, 2020. The Town's net position increased by \$30,429 for the fiscal year ended June 30, 2020. Included in the Town of Staley's net asset balance of \$889,661 is capital assets in the amount of \$168,509 (19%). The Town's investment in capital assets is composed of land, building, infrastructure, storage building and equipment. The Town of Staley uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. An additional portion of the Town of Staley's net position \$286,849 (32%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$434,303 (49%) is unrestricted.

The Town's financial operations were positively influenced by the Town's continued diligence in keeping its expenditures at a lower level than revenues.

| Environmental protection | 37,862 | | 36,792 |
| Economic & physical development | 16,055 | | 1,332 |
| Total expenses | 130,020 | | 106,946 |
| Increase in net position | 30,429 | | 35,141 |
| Net position, beginning as previously reported | 859,232 | | 825,891 |
| Prior period adjustment | - | | (1,800) |
| Net position, July 1 | 859,232 | | 824,091 |
| Net position, June 30 | \$ 889,661 | \$ | 859,232 |

Governmental activities - Governmental activities increased the Town's net position by \$30,429, thereby accounting for 100 percent of the total growth in the net position of the Town of Staley. Key elements of this increase are as follows:

- Increase in tax revenue in year ended June 30, 2020.
- Expenditure levels lower than revenue by \$30,429 for the year ended June 30, 2020.

Financial Analysis of the Town's Funds

The Town's increase in net position was similar to the prior year. The Town's tax revenue increased during the 2019-2020 year. The Town's Economic and Physical Development expenses increased due to the Town's larger Special Appropriation transactions in the current year.

As noted earlier, the Town of Staley uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the Town of Staley's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town of Staley's financing requirements.

The general fund is the chief operating fund of the Town of Staley. At the end of the current fiscal year, Town of Staley's fund balance available in the General Fund was \$420,594, while total fund balance reached \$648,494. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 171 percent of total General Fund expenditures.

At June 30, 2020, the governmental funds of Town of Staley reported a combined fund balance of \$719,731, a 10.64 percent decrease over last year. This decrease in fund balance occurred in the general fund.

General Fund Budgetary Highlights - During the fiscal year, the Town revised the budget. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts, and 3) increases in appropriations that become necessary to maintain services.

The Town of Staley's Streets expenditures and Cemetery expenditures for the year ended June 30, 2020 were higher than the budgeted amounts due to paving several of the Town's streets and the cemetery.

Capital Asset and Debt Administration

Capital assets - The Town of Staley's investment in capital assets for its governmental activities as of June 30, 2020, totals \$168,509 (net of accumulated depreciation). These assets include buildings, land, infrastructure and equipment.

Major capital asset transactions during the year include the following:

- Street repairs for various Town streets in the amount of \$97,912.
- Asphalt rebuild for the cemetery in the amount of 23,448.

Town of Staley's Capital Assets Figure 4 (net of depreciation)

| | | Governmental Activities | | | | |
|------------------|----|-------------------------|----|--------|--|--|
| | - | 2020 | | 2019 | | |
| Land | \$ | 21,870 | \$ | 21,870 | | |
| Infrastructure | | 146,372 | | 29,309 | | |
| Storage building | | 267 | | 1,067 | | |
| Total | \$ | 168,509 | \$ | 52,246 | | |

Additional information on the Town's capital assets can be found in the notes of the Basic Financial Statements.

Budget Highlights for the Fiscal Year Ending June 30, 2021

Governmental Activities – The Town of Staley expects general government expenditures to be lower than those of the preceding year ended June 30, 2020.

Requests for Information

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to Town Clerk, Lonna B. Hart, PO Box 279, Staley, NC 27355, (336) 622-3030, townofstaley@rtelco.net.

NOTES TO THE FINANCIAL STATEMENTS For The Fiscal Year Ended June 30, 2020

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Town of Staley conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

Reporting Entity

The Town of Staley is a municipal corporation that is governed by an elected mayor and a five-member council. As required by generally accepted accounting principles, the Town includes all funds and account groups that are controlled by the Town.

Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a specific function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a specific program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The Town reports the following major governmental funds:

General Fund. The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for public safety, street maintenance and construction, and sanitation services. Additionally, the Town has legally adopted an Economic Capital Reserve Fund. Under GASB 54 guidance the Economic Capital Reserve Fund is consolidated in the General Fund. The budgetary comparison for the Economic Capital Reserve Fund has been included in the supplemental information.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 1 - Summary of Significant Accounting Policies (Continued)

Basis of Presentation (Concluded)

Cemetery Permanent Fund. This fund is used to account for perpetual care of the Town's cemetery. Only investment earnings are available for the upkeep of the cemetery.

Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-wide Financial Statements. The government-wide financial statements are reported using the economic resources measurement focus. The government-wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds.

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus and Basis of Accounting (Concluded)

responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Sales taxes are considered a shared revenue for the Town of Staley because the tax is levied by Randolph County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes are reported as general revenues rather than program revenues.

Budgetary Data

The Town's budget is adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund, Capital Reserve Fund and Cemetery Care Fund. All annual appropriations lapse at the fiscal year-end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the department level for all annually budgeted funds and at the project level for the multi-year funds. All amendments must be approved by the governing board and the Board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

Deposits and Investments

All deposits of the Town are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Town may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States, obligations of the State of North Carolina; bonds and notes of any North Carolina local

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 1 - Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

Deposits and Investments (Concluded)

government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances, and the North Carolina Capital Management Trust (NCCMT).

Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income and considers all cash and investments to be cash and cash equivalents.

Restricted Assets

Powell Bill funds are classified as restricted cash because they can be expended only for the purposes outlined in G.S. 136-41.1 through 136-41.4.

Town of Staley Restricted Cash

| Governmental Activ | vities | | |
|---------------------|-----------------|----------------|----------------|

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 1 - Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Town levies ad valorem taxes on property other than motor vehicles on July 1st, the beginning of the fiscal year. The taxes are due September 1st (lien date); however, interest does not accrue until the following January 6th. These taxes are based on the assessed values as of January 1, 2018. As allowed by State law, the Town has established a schedule of discounts that apply to taxes that are paid prior to the due date. In the Town's General Fund, ad valorem tax revenues are reported net of such discounts.

Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

Inventory and Prepaid Items

The inventories of the Town are valued at cost (first-in, first-out), which approximates market. The Town's General Fund inventory consists of expendable supplies that are recorded as expenditures as used rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements and expensed as the items are used.

Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization costs are as follows: land, buildings, improvements, lines, other plant and distribution systems, infrastructure, furniture and equipment, and vehicles, \$1,000. Donated capital assets received prior to June 30, 2015 are recorded at their estimated fair value at the date of donation. All other purchased or constructed capital assets are reported at cost or estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 1 - Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

Capital Assets (Concluded)

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| | Estimated |
|-------------------------|--------------|
| Asset Class | Useful Lives |
| Buildings | 30 |
| Infrastructure | 20 |
| Storage Building | 5 |
| Furniture and equipment | 5 |
| Computer equipment | 5 |

Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has only one item that meets the criterion for this category – property taxes receivable.

Compensated Absences

The Town has no liability for vacation or sick pay. The Town has a part-time town clerk that is not entitled to vacation or sick pay benefits.

Net Position/Fund Balances

Net Position

Net position in government-wide financial statements are classified as net investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 1 - Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

Net Position/Fund Balances (Continued)

Fund Balances (Continued)

The governmental fund types classify fund balances as follows:

Non-spendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Perpetual Maintenance – Cemetery resources that are required to be retained in perpetuity for maintenance of the Town of Staley Cemetery.

Prepaid Expenses – portion of fund balance that is <u>not</u> an available resource because it represents the year-end balance of ending prepaid expenses, which are not spendable resources.

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors, donors or imposed by law.

Restricted for Stabilization by State statute – North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute." Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget. Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by prepaids as they are classified as non-spendable. RSS is included as a component of Restricted Net position and Restricted fund balance on the face of the balance sheet.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 1 - Summary of Significant Accounting Policies (Concluded)

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Concluded)

Net Position/Fund Balances (Concluded)

Fund Balances (Concluded)

Restricted for Cemetery Maintenance – portion of fund balance that is restricted by revenue source for maintenance of the Town of Staley Cemetery.

Restricted for Streets – Powell Bill portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of unexpended Powell Bill funds.

Committed Fund Balance – portion of fund balance that can only be used for specific purposes imposed by a majority vote by quorum of the Town of Staley's governing body (highest level of decision-making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned Fund Balance – portion of fund balance that Town of Staley intends to use for specific purposes.

Subsequent year's expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed. The governing body approves the appropriation.

Unassigned Fund Balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Finance Officer has been given the authority to spend resources in the order deemed in the best interest of the Town. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Town.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 2 - Stewardship, Compliance, and Accountability

Significant Violations of Finance-Related Legal and Contractual Provisions

Noncompliance with North Carolina General Statutes

The Town did not have bookkeeping services performed monthly in violation of G.S. 159-25(a)(1). The Town agrees with this finding and will request these services be provided in a timelier manner. There was a budget amendment approved by the Board that was not properly reflected in the final budget in violation of G.S. 159-15. The Town agrees with this finding and will request the assistance of the bookkeeper when preparing an amended budget in the future. The Town did not document that the pre-audit process for an invoice was in compliance with G.S. 159-25(a)(2). The Town will use the pre-audit certificate on the required documents in the future.

Excess of Expenditures over Appropriations

For the fiscal year ended June 30, 2020, the expenditures made in the Town's Cemetery Care Fund exceeded the authorized appropriations made by the governing board for the transfers to other funds by \$295. This over-expenditure occurred due to the Town not including additional interest income in the budget. The Management and the Council will ensure compliance in future years.

Note 3 - Detail Notes on All Funds

Assets

Deposits

All the deposits of the Town are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's agents in its name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town, these deposits are considered to be held by the Town's agents in its name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town under the Pooling Method, the potential exists for undercollateral pledged for the Town under the Pooling Method, the potential exists for undercollateral pledged for the Town under the state for high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 3 - Detail Notes on All Funds (Continued)

Assets (Continued)

Deposits (Concluded)

depository that collateralizes public deposits under the Pooling Method. The Town has no formal policy regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Town complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2020, the Town's deposits had a carrying amount of \$692,254 and a bank balance of \$695,990. Of the bank balance, \$635,109 was covered by federal depository insurance and the remainder was covered by collateral held under the pooling method.

Receivables - Allowance for Doubtful Accounts

The amount of taxes receivable presented in the Balance Sheet and the Statement of Net Position for the year ended June 30, 2020 are net of the following allowance for doubtful accounts: General Fund – Taxes receivable- \$0.

Capital Assets

Capital asset activity for the Primary Government for the year ended June 30, 2020, was as follows:

| | Beginning Balances | | | Increases | | Decreases | | Ending Balances | |
|---------------------------------------------|-----------------------|--------|----|-----------|-----|-----------|----|--------------------|--|
| Governmental activities: | | | | | | | | | |

| Governmental activity capital assets, net | \$ | 52,246 | | | | | \$ | 168.509 | |

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 3 - Detail Notes on All Funds (Continued)

Capital Assets (Concluded)

Depreciation expense was charged to functions/programs of the primary government as follows:

| General government | \$ 800 |
|----------------------------|-------------|
| Transportation | 4,297 |
| Total depreciation expense | \$ 5,097 |

Liabilities

Pension Plan Obligations

The Town does not participate in the State-run defined benefit pension system.

Deferred Inflows of Resources

Deferred inflows of resources at year-end is comprised of the following:

| | | neral Fund ance Sheet |
|-------------------------------------------------|-----------|--------------------------|
| Taxes Receivable, less penalties (General Fund) | <u>\$</u> | <u>1,421</u> |
| Total | \$ | 1,421 |

Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates in three self-funded risk-financing pools administered by the North Carolina League of Municipalities. Through these pools, the Town obtains general liability and auto liability coverage of \$5 million per occurrence, property coverage up to the total insured values of the property policy, and workers' compensation coverage up to the statutory limits. The liability and property exposures are reinsured through commercial carriers for claims in excess of retentions as selected by the Board of Trustees each year. Excess insurance coverage is purchased by the Board of Trustees to protect against large workers' compensation claims that exceed certain dollar cost levels. Specific information on the limits of the reinsurance, excess and stop loss policies purchased by the Board of Trustees can be obtained by contacting the Risk Management Services Department of the NC League of Municipalities. The pools are audited annually by certified public accountants, and the audited financial statements are available to the Town upon request. It

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Note 3 - Detail Notes on All Funds (Concluded)

Risk Management (Concluded)

should be noted that the Town of Staley has no full-time employees to cover under health insurance. The Town does not have flood insurance coverage. The Town is not located in a flood plane. The Town's Clerk has access to \$100 or more at any given time of the Town's funds and is performance bonded through a commercial surety bond. The Clerk is currently bonded for \$50,000.

Claims, Judgments, and Contingent Liabilities

At June 30, 2020, the Town was not involved in any lawsuits.

At June 30, 2020, the Town of Staley had a legal debt margin of \$1,748,352.

Note 4 - Interfund Balances and Activity

Balances due to/from other funds at June 30, 2020, consist of the following:

| Due to the General Fund from the: | |
|-----------------------------------|-------------|
| Cemetery Care Fund | \$ 2,394 |
| | \$ 2,394 |

The interfund balances resulted from the time lag between the dates that payments between funds are made.

Transfers to/from other funds at June 30, 2020, consist of the following:

| From the Cemetery Care Fund to | |
|--------------------------------|-----------|
| the General Fund | \$ 745 |
| | \$ 745 |

Transfers are used to move unrestricted revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including interest income earned in the Cemetery Care Fund and moved to the General Fund.
