Independent Auditor's Report

To the Honorable Mayor
and Members of the Town Council
Teachey, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Teachey, North Carolina, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Teachey, North Carolina, as of June 30, 2020, and the respective changes in financial position and cash flows, where appropriate, thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Local Government Employees' Retirement System's Schedules of the Proportionate Share of the Net Pension Liability and Contributions be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of the Town of Teachey, North Carolina. The combining and individual fund statements, budgetary schedules, and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements, budgetary schedules, and other schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us. In our opinion, based on our audit, the procedures performed as described above, the combining and individual fund financial statements, budgetary schedules, and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 18, 2021 on our consideration of the Town of Teachey's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of the report is to describe the scope of our testing of

internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Teachey's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

As management of the Town of Teachey, we offer readers of the Town of Teachey's financial statements this narrative overview and analysis of the financial activities of the Town of Teachey for the fiscal year ended June 30, 2020. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

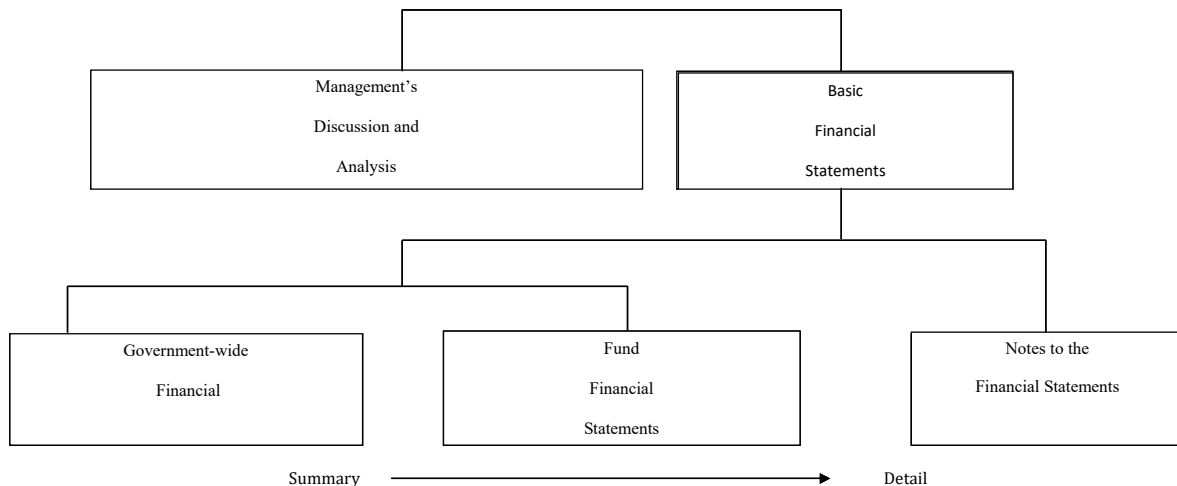

Financial Highlights

- The assets and deferred outflows of resources of the Town of Teachey exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$3,445,617 (net position).
- The Town's total net position increased by \$73,101, primarily due to increase in the governmental-type and business-type activities net position.
- As of the close of the current fiscal year, the Town of Teachey's governmental funds reported combined ending fund balances of \$702,389 with a net increase of \$49,271 in fund balance. Approximately 18 percent of this total amount, or \$125,413 is non spendable or restricted.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$576,976, or 209 percent of total general fund expenditures for the fiscal year.
- The Town of Teachey's total debt increased by \$205,327 during the current fiscal year due to long-term debt proceeds issued to finance the sewer projects.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Town of Teachey's basic financial statements. The Town's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Teachey.

Required Components of Annual Financial Report
Figure 1

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Town's financial status.

The next statements (Exhibits 3 through 8) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are three parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; and 3) the proprietary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show additional details about the Town's individual funds. Budgetary information required by the North Carolina General Statutes can also be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how they have changed. Net position is the difference between the Town's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities and 2) business-type activities. The governmental activities include most of the Town's basic services such as public safety, parks, environmental protection, and general administration. Property taxes, sales tax, and State and Federal grant funds finance most of these activities. The business-type activities are those that the Town charges customers to provide. These include the water and sewer services offered by the Town of Teachey.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

Fund Financial Statements

The Fund Financial Statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Teachey, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the North Carolina General Statutes or the Town's budget ordinance. All of the funds of the Town of Teachey can be divided into two categories: governmental funds and proprietary fund.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Teachey adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the Board; 2) the final budget as amended by the Board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Funds – Town of Teachey has one proprietary fund. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. Town of Teachey uses an enterprise fund to account for its water and sewer activity. These funds are the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Interdependence with Other Entities– The Town depends on financial resources flowing from, or associated with both the Federal Government and the State of North Carolina. Because of this dependency, the Town is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State appropriations. It is also subject to changes in investment earnings and asset values associated with U.S. Treasury Securities because of actions by foreign government and other holders of publicly held U.S. Treasury Securities.

Government-Wide Financial Analysis

Town of Teachey's Net Position

Figure 2

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Current and other assets	\$ 727,882	\$ 680,517	\$ 209,030	\$ -	\$ 936,912	\$ 680,517

Total assets	925,596	891,942	2,889,769	2,445,125	3,815,365	3,337,067
Deferred outflows of resources	12,028	14,047	6,196	3,418	18,224	17,465
Long-term liabilities outstanding	20,369	18,138	296,347	88,434	316,716	106,572
Other liabilities	13,117	11,853	58,139	41,225	71,256	53,078
Total liabilities	33,486	29,991	354,486	129,659	387,972	159,650
Deferred inflows of resources	-	97	-	50	-	147
Net position:						
Net investment in capital assets	197,714	211,425	2,360,130	2,329,843	2,557,844	2,541,268
Restricted	125,413	149,629	-	-	125,413	149,629
Unrestricted	581,011	514,847	181,349	166,772	762,360	681,619
Total net position	\$ 904,138	\$ 875,901	\$ 2,541,479	\$ 2,496,615	\$ 3,445,617	\$ 3,372,516

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Town of Teachey exceeded liabilities and deferred inflows by \$3,445,617 as of June 30, 2020. The Town's net position increased by \$73,101 for the fiscal year ended June 30, 2020. However, the largest portion \$2,557,844 (74%) reflects the Town's net investment in capital assets (e.g. land, buildings, machinery, and equipment). The Town of Teachey uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Teachey's net investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Town of Teachey's net position, \$125,413, represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$762,360 is unrestricted.

Several particular aspects of the Town's financial operations influenced the total unrestricted governmental net position:

- Continued diligence in the collection of property taxes by maintaining a tax collection percentage of 95.58%.

Town of Teachey Change in Net Position

Net position, June 30	\$ 904,138	\$ 875,901	\$ 2,541,479	\$ 2,496,615	\$ 3,445,617	\$ 3,372,516

Governmental activities. Governmental activities increased the Town's net position by \$28,237, thereby accounting for 39% of the total increase in the net position of the Town of Teachey. Key element of this increase is as follows:

- An increase in revenue.

Business-type activities. Business-type activities increased the Town of Teachey's net position by \$44,864 accounting for 61% of the total decline in the government's net position. Key elements of this increase are as follows:

- An increase in revenue.
- An increase in operating grants.

Financial Analysis of the Town's Funds

As noted earlier, the Town of Teachey uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town of Teachey's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town of Teachey's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources for spending at the end of the fiscal year.

The general fund is the chief operating fund of the Town of Teachey. At the end of the current fiscal year, Town of Teachey's fund balance available in the General Fund was \$576,976 while total fund balance reached \$702,389. The Town currently has an available fund balance of 209% of general fund expenditures, while total fund balance represents 254% of the same amount.

At June 30, 2020, the governmental funds of the Town of Teachey reported a combined fund balance of \$702,389 with a net increase in fund balance of \$49,271.

General Fund Budgetary Highlights. During the fiscal year, the Town revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Proprietary Funds. The Town of Teachey's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net position of the Water and Sewer Fund at the end of the fiscal year amounted to \$181,349. The total change in net position was a increase of \$44,864. Other factors concerning the finances of these two funds have already been addressed in the discussion of the Town of Teachey's business-type activities.

Capital Asset and Debt Administration

Capital assets. The Town of Teachey's investment in capital assets for its governmental and business-type activities as of June 30, 2020 totals \$2,878,453 (net of accumulated depreciation). These assets include buildings, land, water/sewer systems, machinery and equipment, and vehicles.

**Town of Teachey's Capital Assets
(net of depreciation)**

Figure 4

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019

Total	\$ 197,714	\$ 211,425	\$ 2,680,739	\$ 2,445,125	\$ 2,878,453	\$ 2,656,550

Additional information on the Town’s capital assets can be found in the notes of the Basic Financial Statements.

Long-term Debt. As of June 30, 2020 the Town of Teachey had total debt outstanding of \$320,609. All of this debt is backed by the full faith and credit of the Town.

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Direct Borrowing Installment debt	\$ -	\$ -	\$ 320,609	\$ 115,282	\$ 320,609	\$ 115,282
Total	\$ -	\$ -	\$ 320,609	\$ 115,282	\$ 320,609	\$ 115,282

Town of Teachey's Outstanding Debt

The Town of Teachey's total debt increased by \$205,327 during the past fiscal year, due to the new debt used for sewer projects.

North Carolina General Statutes limit the amount of general obligation debt that a unit of government can issue up to 8 percent of the total assessed value of taxable property located within that government’s boundaries. The legal debt margin for the Town of Teachey is \$1,681,755.

Additional information regarding the Town of Teachey’s long-term debt can be found in the notes of the Basic Financial Statements.

Economic Factors and Next Year's Budgets and Rates

The following economic indicators reflect the growth and prosperity of the Town.

- Economy is stable in Duplin County.

Requests for Information

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to Town Administrator, Town of Teachey, P.O. Box 145, 137 E. 2nd Street, Teachey, NC 28464. You can also call 910-285-7564 for more information.

Statement of Revenues, Expenditures, and Changes in Fund Balance
Governmental Funds
For the Year Ended June 30, 2020

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ 49,271
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	(13,711)
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities	7,617
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:	(11,061)
Pension expense	
Compensated absences	(709)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:	
Change in unavailable revenue for tax revenues	<u>(3,170)</u>
Total changes in net position of governmental activities	<u>\$ 28,237</u>

NOTES TO THE FINANCIAL STATEMENTS

Town of Teachey, North Carolina
Notes to the Financial Statements
For the Fiscal Year Ended June 30, 2020

I. Summary of Significant Accounting Policies

The accounting policies of the Town of Teachey conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Town of Teachey is a municipal corporation that is governed by an elected mayor and a five-member Board of Commissioners.

B. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a specific function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a specific program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category – *governmental and proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. The Town had no non-major funds during the fiscal year ended June 30, 2020.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies, result from non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings.

The Town reports one major governmental fund:

General Fund. The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for public safety, street maintenance and construction, sanitation services, parks and recreation, and general government services.

The Town reports the following major enterprise fund:

Water & Sewer Fund. This fund is used to account for the Town's water and sewer operations.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments when applicable. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town enterprise funds are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes are reported as general revenues rather than program revenues. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then general revenues.

D. Budgetary Data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund and the Enterprise Funds. All annual appropriations lapse at the fiscal-year end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds and at the project level for the multi-year funds. All amendments must be approved by the governing board and the Board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity1. Deposits and Investments

All deposits of the Town are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Town may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States, obligations of the State of North Carolina, bonds and notes of any North Carolina local government or public authority, obligations of certain non-guaranteed federal agencies, certain high quality issues of commercial paper and bankers' acceptances, and the North Carolina Capital Management Trust (NCCMT). The Town's investments are generally reported at fair value. The NCCMT Government Portfolio, a SEC-registered (2a-7) money market mutual fund, is measured at fair value. The NCCMT - Term Portfolio is bond fund, has no rating and is measured at fair value. As of June 30, 2020, the Term Portfolio has a duration of .15 years. Because the NCCMT Government and Term Portfolios have a weighted average maturity of less than 90 days, they are presented as an investment with a maturity of less than 6 months.

Interest Rate Risk

The Town has no formal investment policy regarding interest rate risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Town's internal investment policy limits at least half of the Town's investment portfolio to maturities of less than 12 months. Also, the Town's internal management policy requires purchases of securities to be laddered with staggered maturity dates and limits all securities to a final maturity of no more than two years.

2. Cash and Cash Equivalents

All cash and investments are essentially demand deposits and are considered cash and cash equivalents.

3. Restricted Assets

Powell Bill funds are classified as restricted cash because they can be expended only for the purposes of maintaining, repairing, constructing, reconstructing or widening of local streets per G.S. 136-41.1 through 136-41.4.

Town of Teachey Restricted Cash

Governmental Activities
General Fund

Streets	\$ <u>71,686</u>
Total governmental activities	\$ <u><u>71,686</u></u>

4. Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Town levies ad valorem taxes on property other than motor vehicles on July 1st, the beginning of the fiscal year. The taxes are due on September 1st (lien date); however, interest does not accrue until the following January 6th. These taxes are based on the assessed values as of January 1, 2018.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

6. Inventories

The inventories of the Town's enterprise fund consist of materials and supplies held for subsequent use. The cost of these inventories is not material and is not presented in the financial statements.

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization costs are as follows; land, \$10,000; buildings, improvements, substations, lines, and other plant and distribution systems, \$15,000; infrastructure, \$20,000; furniture and equipment, \$5,000; and vehicles, \$5,000. Donated capital assets received prior to June 30, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 30, 2015 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. General infrastructure assets acquired prior to July 1, 2003, consist of the road network and water and sewer system assets that were acquired or that received substantial improvements subsequent to July 1, 1980, and are reported at estimated historical cost using deflated replacement cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Capital assets of the Town are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Infrastructure	30
Buildings and systems	20-40
Improvements	25
Vehicles	5
Furniture and Equipment	5

8. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has one item that meets this criterion, contributions made to the pension plan in the 2020 fiscal year. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has several items that meet the criterion for this category - prepaid taxes, property taxes receivable, and pension deferrals.

9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Compensated Absences

The vacation policy of the Town provides for the accumulation of up to thirty (30) days earned vacation leave with such leave being fully vested when earned. For the Town, the current portion of the accumulated vacation pay is not considered to be material; therefore, no expenditure or liability has been reported.

The Town's sick leave policy provides for the accumulation of earned sick leave for an indefinite period. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of services for retirement benefit purposes. Since the Town does not have any obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

11. Net Position/Fund Balances

Net Position

Net position in government-wide and proprietary fund financial statements are classified as net investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance - This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance - This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute - North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". *Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget.* Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as non-spendable. Outstanding Encumbrances are included within RSS. RSS is included as a component of Restricted Net Position and Restricted fund balance on the face of the balance sheet.

Restricted for Streets - Powell Bill portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of total unexpended Powell Bill funds.

Committed Fund Balance - portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of the Town of Teachey's governing body (highest level of decision-making authority). Any changes or removal of specific purposes requires majority action by the governing body. The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned Fund Balance - portion of fund balance that the Town of Teachey intends to use for specific purposes.

Unassigned Fund Balance - portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Town of Teachey has also adopted a minimum fund balance policy for the general fund which instructs management to conduct the business of the Town in such a manner that available fund balance is at least equal to or greater than 10% of budgeted expenditures. Any portion of the general fund balance in excess of 10% of budgeted expenditures may be appropriated for one-time expenditures and may not be used for any purpose that would obligate the Town in a future budget.

12. Defined Benefit Cost-Sharing Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Town's employer contributions are recognized when due and the Town has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

II. Stewardship, Compliance, and Accountability

A. Significant Violations of Finance-Related Legal and Contractual Provisions

1. Noncompliance with North Carolina General Statutes

Timeliness of audit submission.

Noncompliance with budget.

2. Contractual Violations

None reported.

B. Deficit in Fund Balance of Individual Funds not appropriated in subsequent year's budget ordinance

None reported.

C. Excess of Expenditures over Appropriations

For the fiscal year ended June 30, 2020, the expenditures made in the Town's General Fund exceeded the authorized appropriations made by the governing board for general government and business-type activities. These over-expenditures occurred because of unplanned administration, transportation, repairs and maintenance, and environmental protection expenditures. Management and the Board will more closely review the budget reports to ensure compliance in future years. This is an indication that the Town is not following the preaudit requirement. The budget must be amended before the obligation to expend funds is incurred [G.S. 159-13, 159-15, 159-25, 159-28(b), and 159-28(e)]. The Policy Manual for Local Governments contains a section on budgeting that provides guidance in establishing and maintaining budgetary controls.

III. Detail Notes on All Funds**A. Assets****1. Deposits**

All the deposits of the Town are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's agents in these units' names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town, these deposits are considered to be held by the Town's agents in their names. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town under the Pooling Method, the potential exists for under-collateralization. This risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Town has no formal policy regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Town complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2020, the Town's deposits had a carrying amount of \$890,664 and a bank balance of \$880,038. The bank balances of the Town were covered by federal depository insurance in the amount of \$250,000. The remaining funds are covered through the pooling method.

2. Investments

The Town's investments are solely in bank certificates of deposits with a maturity of less than one year and are stated at fair value. These investments are classified as cash and cash equivalents.

3. Capital Assets**Primary Government**

Capital asset activity for the Primary Government for the year ended June 30, 2020, was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 47,488	\$ -	\$ -	\$ 47,488

B. Liabilities

1. Pension Plan and Postemployment Obligations

a. Local Governmental Employees' Retirement System

Plan Description. The Town is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service. Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. The Town employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Town's contractually required contribution rate for the year ended June 30, 2020, was 8.95% for general employees, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Town were \$7,617 for the year ended June 30, 2020.

Refunds of Contributions. Town employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Town reported a liability of \$28,402 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018. The total pension liability was then rolled forward to the measurement date of June 30, 2019 utilizing update procedures incorporating the actuarial assumptions. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2019 (measurement date), the Town's proportion was 0.00104%, which was 0.00006% decrease from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the Town recognized pension expense of \$12,835. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 4,863	\$ -
Changes of assumptions	4,629	-
Net difference between projected and actual earnings on pension plan investments	693	-
Changes in proportion and differences between Town's contributions and proportionate share of contributions	422	-
Town's contributions subsequent to the measurement date	7,617	-
Total	<u>\$ 18,224</u>	<u>\$ -</u>

\$7,617 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as an increase of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	
2021	\$ 5,258
2022	1,718
2023	2,812
2024	819
2025	-
Thereafter	-
	<u>\$ 10,607</u>

Actuarial Assumptions. The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary Increases	3.50 to 8.10 percent, including inflation and productivity factor
Investment rate of return	7.00 percent, net of position plan investment expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2020 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	100%	

The information above is based on 30 year expectations developed with the consulting actuary for the 2019 asset, liability, and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town's proportionate share of the net pension liability to changes in the discount rate. The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the Town's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate:

	1 % Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
Town's proportionate share of the net pension liability (asset)	\$64,960	\$28,402	(\$1,986)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

2. Deferred Outflows and Inflows of Resources

The Town has several deferred outflows of resources. Deferred outflows of resources is comprised of the following:

Source	Amount
Differences between expected and actual experience	\$ 4,863
Changes of assumptions	4,629
Net difference between projected and actual earnings on pension plan investments	693
Changes in proportion and differences between Town's contributions and proportionate share of contributions	422
Town's contributions subsequent to the measurement date	7,617
Total	<u>\$ 18,224</u>

Deferred inflows of resources at year-end is comprised of the following:

	Statement of Net Position	General Fund Balance Sheet
Pension deferrals	\$ -	\$ -
Taxes Receivable, less penalties (General Fund)	-	10,579
Total	<u>\$ -</u>	<u>\$ 10,579</u>

3. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates in three self-funded risk financing pools administered by the North Carolina League of Municipalities. Through these pools, the Town obtains general liability and auto liability coverage of \$1 million per occurrence, property coverage up to the total insurance values of the property policy, worker's compensation coverage up to statutory limits. The pools are reinsured through commercial companies for single occurrence claims against general liability, auto liability and property in excess of \$500,000 and \$300,000 up to statutory limits for worker's compensation. The property liability pool has an aggregate limit for the total property losses in a single year, with the reinsurance limit based upon a percentage of the total insurance values. The Town does not carry any flood insurance as it is not in a flood plain.

In accordance with G.S. 159-29, the Town's employees that have access to \$100 or more at any given time of the Town's funds are performance bonded through a commercial surety bond. The finance officer is individually bonded for \$50,000. The tax collector is individually bonded for \$25,000. The remaining employees that have access to funds are bonded under a blanket bond for \$1,000.

4. Claims, Judgements, and Contingent Liabilities

At June 30, 2020, there were no lawsuits against the Town that materially impact it's financial statements.

5. Long Term Obligationsa. Installment purchase

The Town executed a direct borrowing bank note on October 28, 2008 for the construction of a water line extension. The note bears interest at 3.91% and is payable to the bank in 179 monthly installments of principal and interest totaling \$2753 and one final installment of principal and interest totaling \$561, which is serviced entirely by the Water and Sewer Fund. The note is secured by the water line extension and matures September 28, 2023.

\$ 88,434

The Town executed a direct borrowing bank note on August 14, 2019 for the construction of the wastewater connection projects. The first payment was due May 1, 2021 with 20 installments at zero percent interest. Balance at June 30, 2020 is \$232,175.

\$ 232,175
\$ 320,609

Annual debt service payments of the direct borrowing installment purchase as of June 30, 2020, including \$5,509 of interest, are as follows:

Year Ending June 30	Business-Type Activities	
	Principal	Interest
2021	\$ 40,136	\$ 2,961
2022	41,248	1,850
2023	42,403	694
2024	13,525	4
2025	12,220	-
2026-2030	61,099	-
2031-2035	61,099	-
2036-2040	48,879	-
Total	\$ 320,609	\$ 5,509

b. Changes in General Long-Term Liabilities

During the year ended June 30, 2020 the following changes occurred in installment purchase in the:

	Balance 07/01/19	Additions	Retirements	Balance 06/30/20	Current Portion
Governmental Activities:					
Net pension liability (LGRS)	\$ 17,223	\$ 1,522	\$ -	\$ 18,745	\$ -
Compensated absences	915	2,342	(1,633)	1,624	-
Governmental activity long-term liabilities	\$ 18,138	\$ 3,864	\$ (1,633)	\$ 20,369	\$ -
Business-type activities:					
Direct borrowing installment purchase	\$ 115,282	\$ 244,395	\$ (39,068)	\$ 320,609	\$ 40,136
Net pension liability (LGRS)	8,873	784	-	9,657	-
Compensated absences	5,504	713	-	6,217	-
Business-type activity long-term liabilities	\$ 129,659	\$ 245,892	\$ (39,068)	\$ 336,483	\$ 40,136

State statute provides for a legal debt limit of eight percent of the Town's appraised valuation. The Town's legal debt margin as of June 30, 2020, amounts to \$1,681,755.

Notes to the Financial Statements

C. Interfund Balances and Activity

Balances due to/from other funds at June 30, 2020, consist of the following:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Water and Sewer Fund	\$ 25,286

General Fund has provided funding to the proprietary fund for operating expenses.

D. Net Investment in Capital Assets

	<u>Governmental</u>	<u>Business-type</u>
Capital assets	\$ 197,714	\$ 2,680,739
less: long term debt	-	(320,609)
Net investment in capital asset	<u>\$ 197,714</u>	<u>\$ 2,360,130</u>

E. Fund Balance

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation:

Total fund balance - General Fund	\$ 702,389
Less:	
Stabilization by State Statute	53,727
Streets - Powell Bill	71,686
Remaining Fund Balance	\$ 576,976

IV. Summary Disclosure of Significant Contingencies

Federal and State Assisted Programs

The Town has received proceeds from several Federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

V. Significant Effects of Subsequent Events

There are no subsequent events that would have a material affect on the financial statements. Subsequent events have been analyzed through the date that the financial statements were available to be issued.

PROPRIETARY FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of net income is appropriate for accountability purposes.

**Report On Internal Control Over Financial Reporting And On Compliance and Other Matters
Based On An Audit Of Financial Statements Performed In Accordance With *Government
Auditing Standards***

Independent Auditor's Report

To the Honorable Mayor and
Members of the Town Council
Teachey, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Teachey, North Carolina, as of and for the year ended June 30, 2020, and the related notes to the financial statement, which collectively comprises the Town of Teachey's basic financial statements, and have issued our report thereon dated May 18, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Teachey's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Teachey's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies, listed as 2020-001, 2020-002, 2020-003, and 2020-004.

*Members
American Institute of CPAs – N.C. Association of CPAs – AICPA Division of Firms*

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Teachey's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as item 2020-004.

Town of Teachey's Response to Findings

The Town of Teachey's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The Town's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Type of report auditor issued on whether the financial statements audited were prepared in accordance to GAAP: Unmodified

Internal control over financial reporting:

- Material weakness(es) identified? ___yes Xno
- Significant Deficiency(s) identified? Xyes ___no

Noncompliance material to financial
statements noted? Xyes ___no

Town of Teachey, North Carolina
Schedule of Findings and Responses
For the Fiscal Year Ended June 30, 2020

Section II – Financial Statement Findings

Significant Deficiency

Finding: 2020-001 Segregation of Duties

Criteria: Duties should be segregated to provide reasonable assurance that transactions are handled appropriately.

Condition: There is lack of segregation of duties among Town personnel.

Effect: Transactions could be mishandled.

Cause: There are a limited number of personnel for certain functions.

Recommendation: The duties should be separated as much as possible, and alternative controls should be used to compensate for lack of separation. The governing board should provide some of these controls.

Views of responsible officials and planned corrective actions. The Town agrees with this finding and will adhere to the corrective action plan to follow.

Finding 2020-002: Timeliness of Audit Report Submission

Criteria: The June 30, 2020 audit was submitted passed the required due date. This is a violation of G.S. 159-33.

Condition: Required reports to the State of North Carolina were not filed by the required due date.

Context: The Town was unable to produce all the paperwork needed in a timely manner for the auditor to be able to complete the audit.

Effect: The reports are a requirement of General Statutes, lateness created the statute violation.

Cause: A delay in getting the audit firm information it needed to complete the audit.

Recommendation: The Town has implemented steps to prevent this in the future.

Views of responsible officials and planned corrective actions: The Town agrees with this finding and has already taken action.

Finding 2020-003: Failure to Perform Reconciliations of Significant Accounts.

Criteria: Accounts payable and accounts receivable accounts are not reconciled to the general ledger accounts in timely or accurate manner.

Condition: There is a lack of ability to reconcile these subsidiary ledgers to the general ledger.

Effect: There information obtained from the general ledger could be incorrect.

Cause: Inadequate training with software.

Recommendation: The Town should obtain additional training with the software vendor and evaluate the usefulness of the system.

Views of responsible officials and planned corrective actions: The Town agrees with this finding and will adhere to the corrective action plan to follow.

Material Noncompliance/Significant Deficiency

Finding 2020-004 Noncompliance with Budget.

Criteria: G.S. 159-28(a) states that no obligation may be incurred in a function accounted for in a fund included in the budget ordinance unless the budget ordinance includes an appropriation authorizing the obligation and an unencumbered balance remains in the appropriation sufficient to pay in the current fiscal year the sums obligated by the transaction for the current fiscal year.

Condition: The Town expended more for the General and Water Funds than were appropriated for in the annual budget ordinance.

Effect: Monies were spent that had not been obligated and appropriated.

Cause: The Town exceeded budget expenditures in the General and Water Funds while budget amendments were not adopted.

Recommendation: Before an obligation is to incur that will exceed the amount that was previously approved in the budget ordinance, an amendment to the budget should be adopted.

Views of responsible officials and planned corrective actions: The Town will continue to monitor the budgets on a monthly basis to ensure compliance.

Town of Teachey, North Carolina
Corrective Action Plan
For the Year Ended June 30, 2020

Section II – Financial Statement Findings

Significant Deficiency

Finding 2020-001:	Segregation of Duties
Name of contact person:	Leonard D. Fillyaw, Mayor
Correction Action:	The duties will be separated as much as possible and alternative controls will be used to compensate for lack of separation. The governing board will become more involved in providing some of these controls.
Proposed Completion Date:	The Board will implement the above procedure immediately.
Finding 2020-002:	Timeliness of Audit Report Submission
Name of contact person:	Leonard D. Fillyaw, Mayor
Corrective Action:	The Board will ensure timeliness of required filings.
Proposed Completion Date:	The Board will implement the above procedure immediately.
Finding 2020-003:	Failure to Perform Reconciliations of Significant Accounts
Name of contact person:	Leonard D. Fillway, Mayor
Corrective Action:	The Board will obtain additional training in accounting software and will obtain outside resources for assistance. The Town will reconcile required accounts in a timely and accurate manner.
Proposed Completion Date:	The Board will implement the above procedure immediately.

Material Noncompliance/Significant Deficiency

Finding 2020-004:	Noncompliance with Budget
Name of contact person:	Leonard D. Fillyaw, Mayor
Corrective Action:	The Board will start evaluating this deficiency to ensure that proper budgets are completed as well as budget amendments.
Proposed Completion Date:	The Board will implement the above procedure immediately.
